STEEL

The Metalworking Weekly

EDITORIAL INDEX

VOLUME 158

January 1 to June 30, 1966

Subject Index 2

Company Index 13

THE PENTON PUBLISHING COMPANY

Penton Building, Cleveland, Ohio 44113

SUBJECT INDEX

A

Abrasives: See Grinding, Polishing

Adaptive Control: See Machining

Adhesive & Sealed Council Inc.:
Moves headquarters, 4/18, p.36

Aerospace:
Aerospace method goes civilian: Zero defects puts pride to work (MRI's Schleusener report), 1/31, p.40
Where beryllium stands among aerospace metals, summary (chart) of production programs, 6/6, p.45

Africa:
Mobil's Dean urges U. S. investors to move cautiously, 3/7, p.29
Tin deposit in South Africa, TO, 3/7, p.20

Aircraft:
Aircraft of future, VTOL-500 mph (Lockheed), 1/17, p.49; 2/21, p.30; 5/9, p.19
Aircraft weight less with reinforced composite materials, 3/14, p.28
Alcoa's DC-7, showcase to promote alloys, 1/31, p.45
Aluminum-plastic mats for floating airstrips, 6/13, p.92
Computer checks airborne electronics, TO, 4/4, p.18
Jet taxi service aids executives schedules, 1/24, p.56
Jetliner brakes—liquid cooled curb heat buildup, 2/21, p.63
Jet uses titanium rivets, nylon screws, TO, 5/9, p.17
Private plane production, 1/24, p.31
SST needs lower titanium costs, cheaper jet fuel, etc., TO, 4/4, p.20
SST outlook for airlines by 1988, TO, 5/2, p.35
SST could use liquid methane, TO, 6/27, p.20
United orders convertible plane, passenger by day, cargo by night, 1/17, p.30
Winglet cuts drag, ups lift, TO, 1/24, p.20

Air Freight:
Airlines cite 'total' cost' in bid for metalworking freight, purchase jet freighters, 1/31, p.35
Cargo costs lower by 1970, 6/27, p.18
Helicopter short range transportation, 3/14, p.18

Air Pollution:
Annual spending by industry for control equipment, 5/16, p.49
Automotive Engineering Congress, smog device standards may be revised, 1/10, p.71
Clean air by the early '70s? STEEL Feature, 5/16, p.49
Cleveland code, controls by '67, 5/16, p.50
Flooded-disc scrubbers clean BOF gases, Armco Houston plant, 2/14, p.96
Ford complies with Calif. anti-smog laws: Exhaust emission systems, cooling components, 4/11, p.117
Ford smog system, Thermoactor air pump, 3/28, p.133
Fuel injection system on Italy's Lancia Flavia, 1/31, p.66
Gas engine smog can be reduced, 5/30, p.14
Interstate control pushed, 3/14, p.18
Youngstown Steel controls by '68, 2/28, p.31

Alloys:
AISI Type 4130, low alloy pays off in strength, 4/18, p.112e*
Alcan 70, tin plated aluminum resists corrosion, 2/21, p.31
Alcoa aluminum alloy (X7080) foils stress corrosion, 1/24, p.60
Alloy of iron, cobalt, and moly good for shear dies, TO, 3/7, p.20
Alloy steel casting: Army Tank-Automotive Center study, 2/7, p.50
Beryleo 717C gives sea water corrosion protection (beryllium added to copper nickel), 1/24, p.60
Beryllium making comeback in alloys (feature story), 6/6, p.41
Columbium alloy, SU-16 (British) stands heat, TO, 1/17, p.19
Chromium alloy, corrosion resistant, machinable, strong, 4/11, p.54e
Copper alloy with 'pinch' of tin makes valves corrosion resistant, 2/28, p.52
Copper alloy dev. in Sweden, better corrosion resistance, TO, 2/7, p.20
Explosives cold form high strength alloys at Martin lab, 2/21, p.68
Ferrite added to cast stainless improves properties, TO, 2/14, p.36
High alloys gain importance, 6/13, p.90
Spring alloy tested prior to forming (valve springs for V-8 auto engines), wire check via eddy currents, 2/28, p.56*
Tungsten-hafnium-carbide for long service (NASA), TO, 3/28, p.20
Tungsten sintered offers high strength, 1/31, p.45
Tungsten alloy new at GE, TO, 1/3, p.36
Welding alloys for buildup of worn parts, 3/7, p.80
Zinc diecasting alloy evaluated (ILZRO), 4/4, p.26
Zinc-titanium for auto body use, 1/17, p.72

Aluminum:
Aluminum unit train hauls aluminum ore from Mobile, Ala., to Massena, N. Y., 4/4, p.17
Aluminum usage for trucks and buses, TO, 4/4, p.19
Blasted aluminum forms decorative wall panels, 3/28, p.106e*
Republic foil mill installs continuous casting unit, Salisbury, N. C., 6/13, p.49

Aluminum Markets:
Aluminum shortage, fabricators watch, 5/16, p.30
Fastest growing markets in '65, 6/13, p.33
Kaiser president forecasts vibrant aluminum market through 1967, company capacities, 4/4, p.17

Aluminum Association:
Aluminum welding tips, Chicago seminar, 3/7, p.33

American Foundrymen's Society:
Cleveland show: Industry looks to closer tolerances, higher speeds, 5/16, p.30

American Gear Manufacturers' Assn.:
Annual meeting, [illegible], 50th anniversary, 6/13, p.51
Moves headquarters, 4/18, p.36

American Institute for Imported Steel:
Antidumping amendments would 'cripple import trade': Kurt Orban reports, 1/10, p.31

American Institute of Mining, Metallurgical & Petroleum Engineers Inc.:
Names Richard secretary, 4/4, p 28

American Iron & Steel Institute:
Battelle researches high purity iron, 2/7, p.42
Roche: Import problem crucial, 2/14, p.34
Worthington reveals program to Congressmen of voluntary restraint on imports, 2/7, p.22
Meeting report: A hard look at pollution problem; awards presented; challenges facing steel industry, 5/30, p.23

American Management Assn.:
Average attendance at international meetings double, 2/14, p.33
Baswell speaker: Doing business in and with India, 6/27, p.27
Clay (Lockheed Missiles) address: Management by objectives, how it works, 2/21, p.26
NLRB attacked jointly by labor (Papps) and management (O'Connell), 2/21, p.25

American Marketing Association:
Annual meeting: Marketing men warned to seek new roles, 6/20, p.29

American Material Handling Society:
Changes name to International Management Society, 2/28, p.32

American Metal Stamping Assn.:
Award for redesign, star shaped table base, 4/4, p.24

American Ordnance Assn.:
Mobilization team set up, coordinates industry-government, 2/28, p.17
Powder metallurgy, panel discussion (P/M growth), 3/7, p.33

American Society for Abrasive Methods:
Meeting reports electrochemical grinding, 3/14, p.28

American Society of Mechanical Engineers:
Design Engineering conference & show, 5/2, p.90

American Society for Metals:
Dr. Fellows to new post, 6/20, p.40
White dir.-finance, and adm., B, 2/7, p.28

American Society for Quality Control:
Conference speaker (Lundvall): Costs of quality control are frequently hidden, 6/6, p.29
Shearman administrative secretary, 4/4, p.28

American Society of Tool & Manufacturing Engineers:
Highlights of conference, technical papers, 4/18, p.105
Show reports, 4/25, p.25-26

American Welding Society:
Welding show, equipment displayed, 4/25, p.28

Anodizing:
Color for nonferrous metals, 5/23, p.104 S-6
Good dielectric film formed with deposit of a second oxide, TO, 2/14, p.36

Antitrust: See Government

Appliances:
Appliance market boom, 1/10, p.75
Frigidaire's reliability testing, 2/28, p.45
Kelvinator color, refrigerators, 5/23, p.101 S-5
Refrigerator trim strips, injection molded (cover pic), 3/14, p.36

Argonne National Laboratory:
Computers run experiment: Van de Graaff accelerator shoots nuclear particles at metal target, 2/7, p.24
TV monitoring remote material handling manipulators, TO, 2/21, p.20

Army:
Tank-Automotive Center develops electric drive system for heavy vehicles, 1/24, p.33
Tank-Automotive Center materials study: Alloy steel casting sees severe service, 2/7, p.50

Atomic Energy:
Atomic reactor SNAP passes year test, TO, 2/7, p.20
Plutonium fuel may cut nuclear plant cost; Saxton experimental reactor and Westinghouse study, 1/31, p.39
Radiation developments, AEC seeks industry interest, TO, 3/7, p.20
Radioactive isotopes, gamma gages used in metals industry, 5/30, p.33 S-7

Australia:
Legal tender now dollars and cents, 2/28, p.30
Mineral mismanagement charged to government, 5/16, p.29
Mining and refining operations, industry problems, 4/18, p.33

Automation:
Automated inspection lines at Republic bar mill, Canton, O., 3/14, p.48
Automatic seam tracker for welds, NASA dev., 3/14, p.46
Building blocks simplify automation, modules made by Warner Electric Brake, 5/30, p.21
Computer affect at middle manager level: Automation and Middle Manager report, 4/11, p.27
See also Government (automation commission)

Automotive:
1966 outlook, STEEL editors, 1/3, p.16
1966 sales outlook, bigger than '65? 2/28, p.29
1967 model features, some innovations you won't see, 3/28, p.133
1967 prices highlight Ford, GM stockholder meetings, 5/30, p.56
Aftermarket, parts and service items (Big Three pursue), 2/7, p.71
Aftermarket accelerates, TO, 5/2, p.35
Aluminum radiators may be tried again, 5/2, p.137
Aluminum radiator by '68, 5/16, p.18
Aluminum trim protected with Anoshield-seal, 6/27, p.62
AMC challenged by dissident stockholders, led by Rev. Pavey (1007 shares), 1/31, p.65
AMC (Pickett) outlines supplier export opportunities, 5/30, p.58
AMC's AMX to check public response, 1/31, p.65
AMC models, AMX II, Cavalier, Vixen (Would you believe an 'Evanswagen'?), 6/27, p.83
Author-Ralph Nader: 'Unsafe at Any Speed,' 1/24, p.25 and 4/4, p.79
Auto crash testing, New York State, 6/13, p.128
Auto designers meet demands of superroads in auto safety, 3/21, p.85
Auto road tests, computer simulation, 3/21, p.33
Auto Safety Act (see Government)
Campers market, recreational vehicles, 5/2, p.138
Chrysler turbine program, new materials pass test, 4/25, p.95
Color uses, 5/23, p.107 S-16
Computer design (clay-to-tape-to die) at Ford, 1/17, p.39
Computer design, photogrammetry (laser scanning shortens leadtime), 6/6, p.77
Disc brakes, '67 forecast as big year, 3/7, p.119
Electric auto to combat smog, 4/18, p.18
Electric cars feasible, 5/23, p.144
Fiat-Russian auto pact eyed by U. S. equipment makers, 5/16, p.27
Fluidic controls, GM report, 5/23, p.143
Ford aluminum radiator prototype line, 5/2, p.137
Ford bets on automatic engine assembly, 1/24, p.93
Ford (Bergmoser) outlines chal-

lenges facing suppliers, 6/20, p.91
Ford expands diecasting plant, Sheffield, Ala.—moving toward aluminum block? 4/25, p.95
Ford-paint curing process, 2/21, p.89
Ford smog system Thermactor air pump, 3/28, p.133
Ford (Schwieder): What smog means to auto suppliers, Calif. law calls for exhaust emission systems, cooling components, 4/11, p.117
Ford (Sorenson): Testing moves from proving ground to lab, 6/13, p.127
Foreign automakers anticipate matching U. S. standards, 4/18, p.27
Foreign automakers bid for U. S. market, emphasize safety features, 5/2, p.80
Foreign car sales, '66 forecast, 1/3, p.35
Fuel injection system on Italy's Lancia Flavia, interests Detroit, 1/31, p.66
Gas turbine engines boosted by ceramic-metal heat exchanger, 3/21, p.60
GM (new devices section) searches for needle in haystack (screens ideas, inventions submitted by outsiders), 2/14, p.125
GM's Corvair sales skid, replaces Chevy II as problem car, 4/4, p.79
GMC frame hole drilling via NC, 2/21, p.55 (S-7)
Glass, more use forecast, 5/23, p.143
Japanese suppliers eye U. S. plastic parts, 1/24, p.18
Japanese eye U. S. parts market (Ishikawa, JAPIA director speaks), 2/28, p.79
Lights transmitted through Crofon, plastic fibers on dashboard accessories, 5/30, p.14
Materials producers spar as copper supply gets tighter, 5/2, p.137
Metals required (steels, nonferrous), 2/28, p.29
Middle managers development a success, 1/3, p.83
Plastic gas tanks forecast, 1/17, p.18
Plastics, trends (Chrysler's Cheseborough report), 2/14, p.41
Safety probe hearings, Iowa, 1/10, p.73
Safety notes, GM, Ford, 4/4, p.79
Safety emphasized in foreign car sales pitch, 5/2, p.80*
Safety program, Cornell Lab surveys accident causes, 4/11, p.118
Safety speed control devices, Eaton Valve, 2/14, p.126
Seat trim, plastic combined with foil, 6/20, p.92
Smog device standards might be revised, 1/10, p.71
Steel applications displayed by U. S. Steel, 6/20, p.39
Stretch forming potential, 80% of auto stampings, 1/17, p.71
Supplier requirements outlined by Chrysler, 1/10, p.32
Supplier challenges outlined by Bergmoser (Ford), 6/20, p.91
Suppliers not worried at auto cutbacks, STEEL survey, 5/16, p.27
Trucks (Army) get electric transmission drives, 1/24, p.34
Trucks off to fast start in '66, 4/18, p.131
Warranties on new cars lengthened, 5/9, p.69
Wrist twist steering on Lincoln-Mercury, research, 6/6, p.78
Zero defects concept spreading through autodom, 5/9, p.69
Zinc-titanium body trim by '67, 1/17, p.72

Awards:
American Metal Stamping award, 4/4, p.24
Malleable Founders Society design award winners, 4/25, p.68
New Jersey Zinc awards, diecasting, 1/24, p.58
New Jersey Zinc awards, powder metal parts, 6/27, p.64

B

Balance of Payments:
Italy narrows payment deficit, 1/3, p.35
Mellon Nat'l Bank reports balancing payments remains questionable, 4/11, p.122

Bar Mills:
Automated inspection line, Republic-Canton mill, 3/14, p.48

Battelle Memorial Institute:
High purity iron research for AISI, 2/7, p.42
McCrory: Guideposts to better technical planning, 5/2, p.87

Bearings, Bushings:
Air bearings, report, TO, 3/7, p.20
Aluminum-tin sheets for bearings, 1/17, p.28
Japanese forming method doubles ball bearing life, 5/23, p.47
Noncontacting bearing works with air or fluid, Boeing, TO, 2/7, p.20
Steel companies asked to test bearing steels (H. B. Van Dorn, Fafnir), 2/28, p.45
Teflon liners smooth out bearing problem, 4/18, p.111

Beryllium:
Aerospace use, summary of beryllium production programs (chart), 6/6, p.45
Beryllium may be making comeback in alloys and where weight is costly; how to process (STEEL Feature), 6/6, p.41
Beryllium face sheets, sandwich structure that resists heat, TO, 4/18, p.20

Biomechanics:
Biomechanics: Taking advantage of man's design, 1/24, p.54

Blast Furnace Operation: See Steelmaking

Boats:
Aluminum racing boat, Miami race, 3/14, p.31
Marine engines, porcupine head powerplant made by Chevrolet, 3/7, p.120

Bonding: See Joining

Books, Booklets:
Autos: Ralph Nader's 'Unsafe at Any Speed', 1/24, p.25 and 4/4, p.79
Cornuelle: Reclaiming the American Dream, 3/21, p.47 S-8
Encyclopedia of government benefits (Gravy Train Guidebook), 2/28, p.15

Brazing:
Bimetal pipe and tubing couplings brazed by new salt bath method, 1/24, p.53
Ferrotherm braze process: Finned tubing uses dissimilar metals, 1/31, p.46
Ultrasonic testing aids production brazing at Westinghouse, 6/20, p.31

Broaching:
Broach flexibility, works on five different ring gears, 2/14, p.88

Building Material:
Monsanto to market 6 in. vinyl, 4/11, p.54c†

Bureau of Labor Statistics: See Government

Bureau of Mines:
Magnetite developed as blast furnace feed (converted auto scrap), 4/11, p.29

Bureau of National Affairs Inc.:
1st quarter wage increases, 1965-66 contracts, 4/25, p.18
Harbour predicts bargaining emphasis will switch to wages, 3/21, p.29

Business & Defense Services Adm.:
Aluminum set-asides, 3rd quarter; to sell copper, 5/2, p.33
Purchasing agents hear panel explain Defense Materials System, 5/9, p.25

Business (Economy):
Capital spending: Will it cause inflation (SEC-Commerce and Edie Co. surveys), congressional hearings, 3/14, p.28
Credit pinch, has it hurt?, 5/16, p.85
Economy gets momentum: Price anchor aweigh as business swells, 4/4, p.21
GNP growth swelled by prices, 5/9, p.73
Inflation pros and cons: How practical is LBJ's request for spending cut?, 4/11, p.25
Inflationary psychology developing, Dawson (Nat'l City Bank), 2/28, p.17
Inflationary stream, three main tributaries, 4/25, p.28
Metalworking, what managers expect in 2nd half, 6/27, p.53
STEEL's Panel forecasts inflation in '66 outlook, 4/4, p.83 and p.21
World economic growth, UN survey, 6/27, p.17

C

Canada:
Ford workers win benefits in Canadian auto tariff (New Jersey test case), 4/18, p.28
Steel growth rate high, four major producers, 4/4, p.25

Cans, Canmaking:
Cold extruded tin can with integral bottom, no seam, Metal Flo Corp., 5/2, p.51
Containers, easy openers (steel or aluminum), 5/23, p.45
Plastic cans, moldmaking, 3/14, p.40
Seamless tin plate container can be lithographed and labeled before it is drawn, 6/6, p.19
Tinless can with new approaches, a cemented, lapped seam can, and electronic welding process, 4/18, p.33

Capital Expenditures:
Capital spending, government and nongovernment (SEC-Commerce, and Edie Co.), 3/14, p.27
1966 capital outlays, all industries, 6/13, p.44
Capital spending under attack, $250 billion for new plant and equipment since 1961, 3/21, p.89
Capital spending pressures to kill 7% tax credit mount, 3/28, p.25
Capital spending cut viewed by industrialists, 4/11, p.25
Construction spending, 2/7, p.25
Eaton Lift Truck speaker urges customers to spend more wisely, 5/9, p.28
Metalworking, 2nd half outlook, STEEL survey, 5/16, p.26
Service centers, new plant and equipment, 5/16, p.56
Steel, plant and equipment, 1/3, p.44
Steel outlays top profits, 2/7, p.21

Carbide Tools: See Tools (Cutting)

Carburizing:
Tempering carburized parts improves phosphatizing results (salt spray test), 4/4, p.52

Carroll University, John:
Conference speaker (Curry) report: Second generation computers to make money instead of save money, 4/18, p.112q*

Casting, Castings:
Alloy steel casting: Army Tank-Automotive Center study, 2/7, p.50
Austrian process: Hollow tube blanks continuously cast without mandrel, 1/17, p.25 and 3/7, p.75
Bonney Floyd cast-weld process, 1/31, p.43
Cast metals cooling process upgrades alloys via controlled crystal growth, 4/25, p.65
Casting technology aided by computer analysis at TRW, sponsored by AF, 6/27, p.61
Continuous casting: Where L-D was in '57 (STEEL Feature), 3/7, p.72
Continuous casting aluminum strip, drive systems are perfectly matched speed, 2/14, p.99
Continuous casting: Kobe goes underground with Soviet system, 1/31, p.39
Continuous casting slabs and billets, joint project for Bethlehem, Republic and Inland, 1/31, p.18
Continuous copper casting (Loma) unit for Japanese firm: Billet-slab rate up to 10 tons per hour, 2/14, p.102*
Continuous, curved mold unit, Florida Steel, 1/3, p.160
Continuous casting units, Hazelett and Olsson, 3/7, p.74
Graphite good mold material for ferrous casting, 6/6, p.54k*
Gray iron castings improved with sonic vibrations, Czech report, 2/21, p.60
Measles in castings cured by close control (Japan and U. S. processes), 3/7, p.84
Patent on magnesium-containing ductile iron expiring, national foundry societies controversy over certification, 6/6, p.29
Pressure pouring of larger tonnages possible via double walled, laminated ceramic refractory tubes, 3/28, p.29
Sand foundry automated, closed loop operations, 2/7, p.27
Shaw process produces permanent ceramic mold, TO, 4/18, p.20
Titanium castings, Misco tech. 'Mono-Graf,' TO, 1/31, p.20
See also Diecasting

CEA Guidelines: See Wage-Price

Census:
Projections of U. S. population between now and 1985, 3/28, p.18

Ceramics:
Ceramic refractory tubes double walled, 3/28, p.29
Ceramics, metals combined in turbine heat exchanger (auto gas turbine engines), 3/21, p.60
Ceramics and metals form new heating elements (hot beverage center), 5/16, p.60
Russian method, brazing ceramics, TO, 5/16, p.20

Chemicals:
Acid Foil and rinse additives make pickled steel brighter, 4/11, p.82
How tin mill cut chemical handling costs, 2/21, p.64

China:
Red China steel mill with funds from West blocked by U. S. State Dept., 4/4, p.23
Red China mill, Germany continues role, 4/18, p.31

Cleaning, Blasting:
Material handling: Flow to and from descaler accented, 1/3, p.135
Tubing gets inside blast with shot peening, 1/10, p.48

Coal, Coke:
Coal converted to liquid, gas via high temp. electric arc, TO, 5/23, p.36
Coke reactivity measured, TO, 2/21, p.20
Nonrecovery coke cuts costs, TO, 5/23, p.36

Coatings: See Finishes, Coatings

Colleges:
Graduate placements, why picked (IIT analyzes), 1/3, p.118

Color:
Color a concept in the market place (STEEL Feature), 5/23, p.99 S-1

Company Operations:
Baldwin Hardware success story: Do-it-yourself plating pays off, 3/14, p.41
Basic Inc.'s anomaly in success, 2/28, p.42
United-Greenfield sets its goal—GM of the tool producers, 3/14, p.44

Competition:
How to check competition without really spying: Speaker at NICB marketing conference, 5/16, p.28

Components:
1st quarter survey, 2/7, p.77
2nd quarter survey, 5/2, p.141

Computers, Data Processing:
See also Steel Mill Controls
AF machine converts images to digets, TO, 5/30, p.15
AFIPS computer conference experts told to broaden outlook, 5/2, p.45

AMS personnel speaker: Computer probes manpower paradox, 3/7, p.78
Air Line (United) computerized, 1/17, p.19
Airlines (small), reservation computer, 5/9, p.19
Argonne lab. computers run research, 2/7, p.24
Audeo Response System: Talking computer speaks industry's language, 5/2, p.100
Auto computerized lab testing, 6/13, p.128
Casting technology aided by computer analysis, 6/27, p.61
CEIR Inc. forecast, 1975 computer investment, 6/6, p.28
Computer telescopes time in annual redesign (Line Material Industries), 3/28, p.106a*
Computer for middle manager level, survey report, 4/11, p.27
Computer time sharing (renting service), 6/27, p.28
Data system priced for mass market (Tally Corp.), 2/21, p.30
Desk-sized computer, design calculations fast, TO, 6/13, p.35
Design engineering, computer renting (Data-phone, teletype system), 2/14, p.33
EDP conference speakers: Companies tend to underestimate computers, 3/7, p.29
Fluidic memory "read-write" stores data (NASA), 6/27, p.17
Ford's computerized design and mfg. (clay to tape to die programs) outlined at SAE, 1/17, p.39
Foremen use remote reporting (timekeeping, job cards, etc.), 2/21, p.64
GE computer designs die mold in minutes, 3/21, p.56
Long Distance Xerography (LDX) copier links two labs, Bell System, 6/13, p.47
Purchasing computers for 1980 predicted by Hayward (Ryerson), 2/14, p.49

Construction:
Buildings will become cities (Worthington predicts), 5/9, p.18
Cable trough and ladder speed plate mill construction at Bethlehem, 5/16, p.36†
Color for buildings, bridges, other structural uses, 5/23, p.102 S-6
Construction expenditures in U. S., 2/7, p.25
Reinforced plastics compete in materials, passes housing study test, 6/6, p.51
N. Y. sports arena gets suspension roof, 5/23, p.52

Consumers:
Business Trend: Chill put on consumer spending (taxes), 4/11, p.121
Buying intentions still high, survey, 6/6, p.27
Stanford Business Conference: Western market leads consumer market, 4/11, p.18
U. of Michigan Survey Research Center: Consumer guardedly optimistic of inflation, 4/11, p.18

Containers: See Packaging, Containers

Copper:
African pilot plant tests copper ore on commercial scale, 1/24, p.29
Alternatives checked by users as copper gets shorter, 4/18, p.27
Article (STEEL Feature): When will copper users get relief? Assessed by major copper producers, 5/9, p.35
Comments of copper users (STEEL poll), price, supply outlook, 2/28, p.28
Comments of executives at CDA meeting: 1970 supply to outstrip demand, 5/23, p.42
Continuous copper casting unit at Japanese firm, 2/14, p.102*
Copper alloy with pinch of tin (Nocorr) for valves, sea water protection, 2/28, p.52
Copper nickel with beryllium, sea water protection, 1/24, p.60
Copper producers wary of government subsidy, STEEL survey, 6/6, p.27
Free world mine capacity 1965-70, 5/23, p.43

Machine Tool Industry:
1965 orders, peacetime record, 1/17, p.24
1966 sales mean longer deliveries, 1/3, p.45
1966 prices, orders, 1st quarter, 5/2, p.42
1966 forecast, cutting tool output, 6/6, p.19
ASTME Show, reports, 4/25, p.25-26
ASTME speaker: Foreign tool builders sell service, delivery, 4/25, p.25
Business trend: Toolbuilders losing world battle, 4/18, p.135
Defense priorities vex builders, 4/11, p.54b†
Japanese exhibit NC machines, tool show, 4/18, p.112n*
Manpower-skilled worker shortage reported by Marx (NMTBA) and pointed up by soaring sales, 3/28, p.28
Manpower shortage invites machine tool imports, 4/25, p.17
Russian trade mission reported by Ellison (Harron, Rickard), 1/24, p.33
Used machine tool sales, 2/7, p.24 and 5/9, p.17

Machine Tools & Attachments:
Adaptive control aids Ford build dies, 1/17, p.46
Adaptive control for NC profile milling machines dev. at Boeing, 5/2, p.98
Cutting tool programer, Ex-Cell-O, hikes machine performance, 4/25, p.31
Drill for laminated materials, 5/9, p.38
Fluidic controls on rebuilt drilling machines, 4/11, p.20
Fluidics at Brown & Sharpe, 5/9, p.42
Jig borer, conventional machining, 3/28, p.106b*
Special combines four operations (hydraulically actuated and electrically controlled), Snyder machine, 6/13, p.87
Tracing valve speeds positioning, TO, 3/21, p.20

Machining:
1966 techniques forecast, STEEL editors, 1/3, p.48
Conventional machining meets space age needs, 3/28, 106b*
Electrochemical machining science added (PERA reports results in holemaking, diesinking), 2/14, p.92
ECM applications at GM, 4/4, p.25
ECM drilling used by diesel engine firm to erode holes in fuel injection nozzles, 4/4, p.26
ECM-higher amperage, P&W report, 3/14, p.17
ECM and EDM units displayed at ASTME show, 4/25, p.26
EDM, ECM mixtures pays off for small firm (Metem Corp.), 6/6, p.48
Electrogel machining, new tech., 3/7, p.17
Guide lines grow out of experience in machining precise parts from plastic (fluorocarbon resin), 6/20, p.62
Job shop of tomorrow: EDM, Hydrogorm, turning (Diversey report), 6/20, p.49
NC production machining, Detroit Diesel Engine Div., GM, 5/23, p.47
Semiautomatic drilling and tapping machine, gray iron castings drilled for Farmall tractor (radiator housing), 2/28, p.44
Snyder built special combines four operations (railroad car axles), 6/13, p.86
Universal joint spiders, new process at Saginaw Steering Gear, eliminates material loss, 2/7, p.48

Magnesium Assn.:
Meeting speaker: Magnesium market slow, 5/9, p.18

Magnetics:
Boom in magnetic technology boon to innovators (STEEL Feature), 1/10, p.40
Cobalt iron best magnetic material, ground-to-air missiles, TO, 5/16, p.20
GE tape for superconducting magnets, 4/25, p.29
Magnetic cores in eye of needle, cover pic, 1/10, p.40
Portable superconducting magnet, TO, 2/7, p.19
Supermagnet once charged needs no electrical power, TO, 4/18, p.20
Wrought magnetic materials 'better', TO, 5/16, p.20

Maintenance:
Computerized system checks airborne electronics, TO, 4/4, p.18
Equipment analysis 'programs' maintenance, Keystone, 1/17, p.48
GE repair trick for wound electric motors (Gegard), 6/27, p.25
Measuring maintenance worker effectiveness, steel plant, 3/28, p.33
NC training studies, 5/2, p.78s*
Resurfacing maintenance of boilers, tanks, thin pipes, TO, 4/25, p.17

Malleable Founders Society:
Design contest winner: Malleable iron allows simplified design (materials report), 4/25, p.68

Management:
Campbell (impact report): The erosion of management rights, 3/21, p.47 S-1
Corporate planning long range, three major pitfalls, NICB speaker, 5/23, p.47

Meeting comments on defense priorities-growing problem, 5/9, p.25

National Screw Machine Products Assn.:
Appoints McGinnis exec. v. p., 6/27, p.30

National Tool, Die & Precision Machining Assn.:
Appoints Hardman exec. v. p., 2/7, p.28
Established customers serviced first: seek defense status from draft for skilled workers, 4/18, p.17
On-the-job training program, 3/21, p.27
Survey shows members turn to new technologies, 1/24, p.28

Navy:
Bomb design via plastic plugs, 5/2, p.49
Hydrofoil vessels evaluated, 2/28, p.32
Hy-140 steel wins over titanium in submarine program, 4/25, p.17
Welding thick titanium plates, TO, 3/7, p.20

Nickel:
Consumption in '65 by applications, geographic areas, 5/23, p.42
Nickel users are getting nervous (STEEL survey), NAPA forum speakers, 5/23, p.41

Nitrogen:
Liquid nitrogen used as refrigerant, boost to food industry, 3/14, p.50
Synthetic diamond made via nitrogen atoms, 1/10, p.48

Nondestructive Tests:
The look, sound, and smell of quality, new NTD methods probe, 2/14, p.79 S-1
Expert calls for modernization of nondestructive test specifications, 1/24, p.17
Standards for NDT operations shaping up, 6/20, p.35
Ultrasonic tester aids production brazing, Westinghouse, 6/20, p.31

Nonferrous:
Copper users view price, supply outlook, 2/28, p.28
Copper incentives, OEM program, 3/28, p.27
Copper shortage, alternatives checked, 4/18, p.27
When will copper users get relief? 5/9, p.35
Copper mine capacity, Free World, 1965-70, 5/23, p.43
Molybdenum, aluminum tighter, 2/28, p.28
Zinc production high in '65, 2/28, p.29

Nuclear: See Atomic Energy

Numerical Control Society:
Addressed by Wolfbein, assistant to Labor Sec'y, 4/18, p.17

Numerical Controls:
Adaptive control for NC profile milling machines studied at Boeing, 5/2, p.98
Ford's combined computer tech. and NC tooling, 1/17, p.39
GE task force: NC is ready for more metalworking jobs (impact report), 4/25, p57 S-1†
GMC drills holes in frames via NC, 2/21, p.55 (S-7)
Integrated circuits improve Bunker-Ramo NC system, microminiature, 2/28, p.41
Maintenance men, correspondence school for NC, 5/2, p.78S*
NC boring mill pares 75% from production time, Buffalo Forge, 5/2, p.94
NC capability helps sell services (Moog Hydra-Point) at job shop, 6/20, p.61
NC drilling, plastic dies, 2/28, p.48
Production NC machining at Detroit Diesel Engine Div., 5/23, p.47
Spotwelder: Installation contradicts common notions about NC (American Metal Products), 6/6, p.46

Nylon:
Nylon industrial strapping, welded without use of electricity, 6/13, p.45

O

Oceans:
Deep Quest sub, maraging steel aids undersea research, 3/28, p.106
Deepstar, new research craft for aquaspace, 1/17, p.45
Grumman enters undersea race (Dr. Piccard to study Gulf Stream), 3/28, p.19
Leasing of sulfur rights on Continental Shelf, 1/3, p.35
Sub-Sea Exploration Assn. proposed, 3/7, p.18

Office Equipment:
Builders of furniture branching into selling systems, TO, 2/28, p.19
Leasing by metals industries, totals, 1/24, p.18

P

Packaging, Containers:
A systems approach to packaging, 3/14, p.42
AMA packaging conference (materials race complicates packaging engineer's job (plastics vs metals), 5/2, p.43
Aluminum packaging, gains predicted, 2/14, p.99; 4/18, p.28
Computer and system of routing packaging cards cut costs, 4/11, p.19
Container fabricating problem solved by gang punch, shipping Bullpup missiles to military bases, 2/21, p.61
Containerization to change shipping methods, 4/25, p.30
Containers easy-open market: Beer cans topped by steel or aluminum, 5/23, p.45
Corrugated, fiberboard boxes for packaging iron powders, 3/21, p.59
Foam packaging mechanized, 5/16, p.59
Future trends in packaging (Arthur D. Little analysis), end use breakdown for materials, 4/4, p.24

Patents:
The 'patent crisis': How serious is it? 6/27, p.23

Pelletizing:
Breakdown of pellet plants operating, under construction, 3/21, p.18
King sized spur gear for Minn. plant, 5/16, p.31
Kobe develops way to upgrade Australian ore (Grate Kiln System), 4/25, p.67
Pellet capacity to double: Marting (Hanna) report, 6/13, p.34

Phosphating:
Tempering carburized parts improves phosphatizing results, Parker salt spray test, 4/4, p.52

Photogrammetry:
Auto leadtimes shortened with laser-computer-NC, 6/6, p.77

Code: *—*Metalworking Edition only*; †—*Metalproducing Edition only*; IE—*Industrial Equipment*; TO—*Technical Outlook*

Ford's computerized design and manufacturing, 1/17, p.39
Xerox devises 3-D imagemaking process (how holograms are made), eliminates photographic plate, 4/18, p.112e*

Photography:
Camera close-up system, Polaroid, 5/16, p.58

Pickling:
Acid and rinse additives make pickled steel brighter (Pickle Brite process), 4/11, p.82
Sulfuric or hydrochloric lines in operation, 6/20, p.58

Pipe, Tubing, Fittings:
Bimetal pipe and tubing couplings brazed by new salt bath method, 1/24, p.53
Ceramic refractory tubes, double walled, pressure pouring costs cut, 3/28, p.29
Finned tubing uses dissimilar metals, Ferrothern braze process, 1/31, p.46
Pipe coating via electrostatic method, 2/21, p.59
Refractory metal tubing formed by planetary ball swager, 2/21, p.66
Steel tubing with dual longitudinal fins, produced by Thermatool, an automated resistance welding mill, 4/18, p.112h*
Tube joints welded automatically by portable unit, Orbit Arc, 1/17, p.45
Tubing shot peened inside, internal blasting, 1/10, p.48
Tubing sized-finished in one operation on cold reduction machine, 1/10, p.50

Pirating: See Recruiting

Plastics:
Army uses reinforced plastic for rifles, etc., 3/28, p.31
Boom on plastics industry expands equipment markets (STEEL Feature), 3/14, p.37
Challenge maintained in plastics industry, NPE exposition speakers, 6/13, p.41
Chrysler's Chesebrough: Plastics push harder for metal markets, 2/14, p.41
Dow tests automated equipment to produce 65 bus seats hourly, 3/14, p.40
Fluorocarbon resins: Guide lines grow out of experience in machining precise parts from plastic, 6/20, p.62
How to make plastic truck cabs, fiberglass reinforced, 5/2, p.95
Injection molding and compression molding of reinforced plastics, fast market areas, 3/14, p.38
Microwaves check out plastics at Magnaflux, TO, 3/21, p.19
Molding polypropylene nut containers, 3/14, p.40
Packaging, new materials-processes, 5/2, p.43
Plastic bond (new treating process) improved via Bell Lab casing process, 4/4, p.26
Plastic plugs on aerial bombs replace forged steel, 5/2, p.49
Plastic passes housing study test: Reinforced plastics—construction materials, 6/6, p.50
Plastic sleeving saves parts from nicks, dents (DuPont Vexar plastic netting in tube form), 2/21, p.61
Polysulfones resist heat, TO 5/2, p.35
Polyvinyl alcohol is binder for ceramic powders, TO, 3/14, p.20
Reinforced plastics consumption forecast, industries, 1/24, p.26
Reinforced plastics gain forecast, 2/14, p.42
Teflon liners for bearings, 4/18, p.111
Thermoplastic resin is self-extinguishing, 5/2, p.78s*
Vinyl siding, Monsanto building material (6), 4/11, p.54c†

Plating: See Electroplating, Plating

Pneumatics
Aro's new pneumatic logic controls, 5/2, p.82

Pollution:
AISI meeting: A look at pollution problem, 5/30, p.22
See also Air Pollution
See also Water Pollution

Porcelain Enamel:
Factors affecting weathering, NBS, 6/27, p.64

Powder Metallurgy:
Combining powder metals calls for shotgun-barrel-die arrangement, 2/14, p.42
Ford usage of powder metal parts growing, 3/21, p.62
Parts pressed from 'soft' steel powder, 4/18, p.112d*
Powder metallurgy (P/M) growth spectacular but slow, panel speaker, 3/7, p.33
P/M research tool—gas autoclave, Oak Ridge plant, 5/9, p.30
P/M sheet porosity closely controlled, 5/9, p.29
Powder shape determines ease of filling cavity (dental packing), 5/2, p.106
Sprockets made from iron powder, Link-Belt, 4/11, p.54d†

Power Transmission (Mechanical):
Electric drive system for heavy vehicles dev. by U. S. Army Tank center, 1/24, p.33

Precipitators:
See Dust Collectors, Filters

Presses:
Cold extrusion and upsetting press for gearbox driveshafts on English Ford, 3/7, p.80
Gang punch press solves container fabricating problem (holes in two sides simultaneously), 2/21, p.61
Press brake bends plates, 3/7, p.82
Punch press replaces drilling in circuit board production, 1/17, p.49

Prices:
Bethlehem, Inland hike structurals: Government intervention, not inflation worries metalworking executives, 1/10, p.29
Copper producers feel pressure of foreign hikes, 1/10, p.31
Metalworking's wholesale price indexes, how steel prices compare, 1/10, p.29
Metalworkers buck price pressures, 6/13, p.131
Phoenix puts carbon plates under price protection policy (tech. initiated by Wheeling Steel), 2/14, p.45
Steel pricing move hits Kaiser: spokesmen report structural hike, new drop in cold rolled sheet and strip, 1/17, p.25
Steelmakers' annual reports cite price pressures, 3/21, p.28
U. S. Steel ups prices on plates-width, thickness extras, 3/7, p.28
U. S. Steel withdraws price lists on nails, wire rods, 3/7, p.28
Zinc may drop, 4/4, p.18

Printed Circuits: See Electronics

Production Engineering Research Assn. (PERA):
Computer aids machine design, TO, 3/14, p.19
Electrochemical machining researched, holemaking and die-sinking, 2/14, p.92

Productivity:
See Wage-Price Guidelines

Public Affairs:
Industry sets up public affairs programs, 6/13, p.82

Punches:
Container fabricating problem solved by gang punch, L-shaped punches holes in two sides simultaneously, 2/21, p.61
Punch press replaces drilling to make holes in circuit boards, 1/17, p.49
Telescoping punch reduces thinout in drawing thin material, TO, 3/21, p.20

Purchasing Agents Assn. of Chicago:
Pricing controls, members reaction, 1/24, p.17

Psychology:
Color impressions, 5/23, p.100 S-2

Purchasing:
1980 a network of electronics predicted by Hayward, Ryerson, 2/14, p.49
Buyers sweat out growing material, part shortages, 1/31, p.21
Computers, centralization to upgrade PA's job, 3/7, p.17
NAPA survey shows PA's in sellers' market, 4/11, p.17

Q

Quality Control:
Costs of quality control frequently hidden, conference speaker, 6/6, p.29
Zero defects program puts pride to work (originated in aerospace-defense industries), 1/31, p.40

R

Radiation:
Coatings breakthrough: Instant curing with radiation device (Dynacote), 6/13, p.84
Isotopes radiate savings in metals industry, beta and gamma gages, 5/30, p.33 S-7
Plasmonic radiation, electrical 'missing link' reports scientist, 5/2, p.47
Unit cures coatings, TO, 6/6, p.20
Wrought iron used as magnetic radiation shielding in engineering enclosures, 1/24, p.60

Radio, Television:
Color TV, Philco Cleveland distribution center, 2/14, p.45
Color TV sales top forecasts, 6/6, p.18
Filmless TV camera transistorized, TO, 4/18, p.19
Lunar TV camera, NASA, TO, 1/24, p.19
TV camera monitoring remote material handling manipulators, TO, 2/21, p.20
TV camera responds to infrared, observes test firings, TO, 1/31, p.20

Radiography:
Betatron tests steel to 20 in. thick, 2/21, p.63

Railroads:
Aluminum unit train hauls aluminum ore from Mobile, Ala., to Massena, N. Y., 4/4, p.17
Boxcar redesigned, 4/25, p.19
Breadbox cars (permanent covers) transport coiled steel, 5/30, p.26
Coating of cars protect at 300 mph, 6/6, p.30
Gantry crane used by Pennsy, 2/21, p.32
Norfolk & Western (Fishwick): Mergers could improve railroad service, 3/21, p.31

Reactors: See Atomic Energy

Recruiting:
California firms try joint recruiting, 6/27, p.27
Canadian firm recruits aircraft workers in England, 3/31, p.17
Editorial: Recruiting woes, 6/20, p.15
Mass pirating raids, pros and cons (Careers Inc. established in Cleveland), 3/14, p.25
Tips on recruiting sales engineers, seminar, 1/17, p.26
Watch for these 7 danger signs in hiring executives, 2/14, p.44

Refineries: See Smelting, Refineries

Refractories:
Brick and castable refractories of fused silica good for hot jobs, 4/18, p.112
Ceramic bonded refractory brick takes higher temperatures, 2/28, p.48
Refractory grain heated for furnace patching (British process, running without use of water), 6/6, p.54

Refractory Blanket: See Insulation

Refractory Metals:
Ball swager forms refractory metal tubing, 2/21, p.66
Ceramic refractory tubes, double walled, pressure poured, 3/28, p.29
Copper ore tests on commercial scale, African pilot plant, 1/24, p.29
GE's Dr. Hurd: Refractory metals may be answer to steel die-casting; other potential uses, 1/31, p.25
Refractory metal tubing formed by planetary ball swager, 2/21, p.66
Refractory metals open door to ferrous diecasting at GE, 5/16, p.25

Research & Development:
Increased spending needed to offset R&D inflation, 6/13, p.44
Industry investment up, TO, 4/18, p.19

Retirements:
UAW workers early retirements drop, 1/17, p.18

Robot: See Material Handling

Rocket Cases: See Space Materials

Rolling Mills:
ITT Research: Edge restraint rolling stops cracking (John Schey), 4/25, p.69
Stellite Div.'s cold rolling mill, Kokomo, Ind. (more alloy sheets for aerospace), 4/11, p.39*

Rubber:
New process for reinforced rubber hose, braided vs spiral, 2/14, p.49
Resistant seal is formed as foam elastomer expands (Du Pont Neoprene synthetic rubber), 6/13, p.90

Russia:
Machine tool mission reported by Ellison (Harron, Rickard), 1/24, p.33

S

Salaries:
BLS: Fringe pay equals 25% of basic salary, 3/7, p.27
Employers Assn. of Detroit urges checking of salary administration programs, 3/21, p.17
Median salesman salary, NICB report, 2/21, p.19

Salt Baths:
Parker Rust Proof: Reliability of carburized parts to salt spray test (tempering improves phosphatizing results), 4/4, p.52
Salt bath upgrades brazed bimetal pipe and tubing coupling, 1/24, p.53

Saws, Sawing:
Ingersoll steel plate saw slices slabs to required width at D-M-E, 6/27, p.62

Scrap Industry:
Auto Baling operates Sharon Steel scrapyard, 6/6, p.54
Auto scrap converted to blast furnace feed (magnetite), 4/11, p.29
Carbasher, portable press compresses autos, 1/17, p.72
Detroit scrap firms face Teamsters Local 337 strike threat, 5/23, p.43
Foundries aid sought in auto scrap problem, 2/28, p.25
Luria fragmentizer scraps Ford autos, 1/24, p.93
Luria proceeds with fragmentizer plant, Ford agreement, 4/18, p.35
Luria fragmentizer deals: Ford Cleveland foundry, Stavola & Co., Danbury, Conn., other in New England, 5/2, p.49
Luria-Ford fragmentizing discussed by scrapmen at ISIS meeting, 6/20, p.32
Scrap shredding offers contamination solution (Commerce Dept. study), junked autos and similar sources, 5/30, p.25
Shaft furnace proposed for auto body disposal: Tests at Linde

and U. of Mich. reported, 3/28, p.108
Yardworkers training for iron and steel scrap industry, Dept. of Labor grant, 5/9, p.27

Sealants:
Anoshield, protection for aluminum auto trim, 6/27, p.62
Resistant seal is formed as foam elastomer expands, uses Du Pont Neoprene synthetic rubber, 6/13, p.90
Thred-Taper, automatically applies Teflon tape sealant, 2/28, p.31

Service Centers: See Warehousing

Sharing Plan: See Labor-Management

Sheets & Strip:
Alloy sheets for aerospace increased at Stellite Div. with multimillion dollar cold rolling mill, Kokomo, Ind., 4/11, p.39*
Aluminum-tin alloy sheets for bearings, 1/17, p.28
Automated annealing uses radiant heat (cold rolled coils of strip), 1/17, p.50
Stainless strip gets high polish in one pass process (Universal-Cyclops jointly with Hill Acme), 2/21, p.67

Shipping:
Air freight vs surface freight, cost comparison chart, 1/31, p.36
Britain imposes double insurance costs on cargo ships more than 20 years old, 2/28, p.30

Ships, Shipbuilding:
Aluminum hull for Lockheed's submarine, 3/28, p.35
Deep Quest research sub, acoustical imaging tech., TO, 2/28, p.19
Deep Quest, managing steel aids undersea research, 3/28, p.106
Deepstar, research craft for aquaspace, 1/17, p.45
Hydrofoil ships, experimental anti-sub at Lockheed, TO, 1/3, p.36
Lorain, Ohio, shipyard facility for leasing, 1/24, p.35
Nuclear ship policy of McNamara under fire, 5/9, p.28
Submarine (Navy) uses Hy-140 steel, 4/25, p.17
Star III, research sub, steel shell shields crew, 6/6, p.43k*

Shot Peening:
Machine peens inside of tubes and cylinders, Boeing, 1/10, p.48

Sintering:
Fuji Iron, recovered L-D converter dust, 3/21, p.31
Tungsten sintering tip, add bromine, TO, 2/21, p.19

Skilled Workers:
Machine tool builders seek trainees as sales soar, 3/28, p.27
NTDPM seeks status from draft for skilled workers, 4/18, p.17
Overseas recruiting at Simmons Machine Tool, 5/2, p.44
Skilled worker group plans comeback (ISST), meet in Detroit, 1/17, p.23

Slitters:
Service Center adds giant steel slitter, 4/18, p.112d*

Small Business Administration:
$300 million available for small businesses with potential growth, 4/11, p.17
Loan program resumed, 5/30, p.14

Smelters, Refineries:
Asarco to build lead smelter in Missouri, 1/17, p.29
English firm, simultaneous smelting of lead and zinc ore, 3/14, p.31
Japanese refinery, continuous copper casting, 2/14, p.102

Social Security:
Tax increase for worker earning $6600 is $103, 3/21, p.29

Society of Automotive Engineers:
Meeting report: Ford computer design, N/C tooling, 1/17, p.39
Meeting report: Stretch forming's potential — appliances, auto stampings, 1/17, p.71

Society of Die Casting Engineers Inc.:
Appoints Tupper, B, 3/14, p.32

Society for Nondestructive Testing Inc.:
Standards for NDT operators reported at Aerospace Conference, 6/20, p.35

Society of the Plastics Industry Inc.:
Forecasts consumption by industries of reinforced plastics, 1/24, p.26
Meeting report, use of reinforced '66, 2/14, p.42
Plastic passes housing study test, competes with construction materials, 6/6, p.51
Sponsors plastics exposition, Chicago, markets report, 6/13, p.41

Soldering:
Reflow lead solderer dev. by Hughes Aircraft, 5/23, p.47

Southern Research Institute:
Better way to check fiber strength, 1/10, p.49

Space Materials & Developments:
Beryllium, where it stands among aerospace metals, 6/6, p.44
Europe readies co-op rocket, Europa I, 2/14, p.47
Explosive forming injector plates for rocket engine, 6/20, p.55 S-7
Fiber materials, applications, 5/30, p.32 S-6
Fuel cell powerplants for Apollo, P&W, 6/27, p.19
Glider to prove re-entry problems, NASA, 2/7, p.28
Ion engines, longer life, TO, 5/16, p.20
Orbiting astronomical observatory ready, 4/4, p.19
Rocket to land astronauts on land, B, 3/7, p.36
Rocket cases reworked, o. k. for second trip, 4/18, p.111
Rocket nozzle extension of titanium for Agena engine, 1/31, p.46
Shell cases made from molded fibers instead of brass, cost drops, TO, 3/28, p.18
Vibrator-hydraulic tests missiles, 3/28, p.106h*
Weather satellite ESSA II, TO, 3/7, p.19

Springs:
Spring alloy tested prior to forming (V-8 auto valve springs), 2/28, p.56

Stainless Steel:
NASA test—stainless diaphragms rupture shape spells success, 2/14, p.47
Ultrafree machining stainless, 416 F-Plus, 3/14, p.41

Stamping, Stampings:
AMSA redesign award, star shaped table base, 4/4, p.24

Stanford University:
Business conference report: West leads consumer market, 4/11, p.18
Linear Accelerator, electron beam, installation about complete, TO, 2/21, p.19

Steel Alloys:
Alloy steel usage boosted by nitrogen refrigerant, 3/14, p.50
Bearing steel test urged on steel firms, 2/28, p.45
Electric steel improved by Swedish process, 2/21, p.62*
Maraging steel aids undersea research, 3/28, p.106e*
Structural steel (Zirten) new at Japan Steel Wks., 4/11, p.54c†

Steel Dumping:
Siegel (Titan Industrial): Industry shuns dumping proposal, 2/21, p.18

STEEL Features:
99 vs 99.9999% pure means more work from materials, 2/7, p.39
A new era dawns at Ford (computerized design and mfg.), 1/17, p.39
Air Lines cite lower 'total cost' in bid for metalworking freight, jet air freighters purchased, 1/31, p.35
Battle for the Midwest steel market, 4/4, p.41 S-1
Beryllium may be making comeback in alloys and where weight is costly; how to process, 6/6, p.41
Boom in magnetic technology boon to innovators, 1/10, p.40
Boom in plastics industry expands equipment markets, 3/14, p.37
Caterpillar makes welding pay off, new developments, 4/11, p.69
Clean air by early '70s? 5/16, p.49
Color, concept in the market place, 5/23, p.99 S-1
Continuous casting: Where L-D was in '57, 3/7, p.72
How to talk to government, 6/13, p.79
Laser interferometers: The light that slices an inch into millionths, 2/28, p.39
NDT methods probe new areas (look, sound and smell of quality), 2/14, p.79
What metalworking managers expect in 2nd half (defense spending spur), 6/27, p.53
When will copper users get relief? 5/9, p.35

Steel Industry:
Annual financial analysis, insert, 4/4, p.42a
Annual reports cite pressures on prices, 3/21, p.28
1st quarter earnings drop with high employment costs, 5/2, p.41
Battle for the Midwest steel market, STEEL Feature, 4/4, p.41 S-1
Block (Inland) defends caution in adopting new steelmaking processes strikes back at magazine, newspaper articles, 6/6, p.54m*
Containerization new market for steel, Worthington (U. S. Steel) tells stockholders, 5/9, p.27
Speakers at Investment Analysts, 6/13, p.42
Steel profit pace tough to maintain (Alan Wood report), steel firms, 1/31, p.24
Steel spending outstrips profits, 2/7, p.21
Steel usage, offshore drilling equipment, 5/30, p.22
Worthington (before Congressmen) asks for voluntary restraint in imports, 2/7, p.22

Steelmaking:
Arc heating, gas stirring aids degassing, 4/25, p.72†
Automated inspection lines at Republic bar mill, assures product quality, 3/14, p.48
BOF scrap upped 51% by adding calcium carbide, 6/20, p.31
Blast furnace (Japan): Flapper gate seals gas, 5/16, p.35†
Blast furnace (Japan): Oxygen converters with computer control, 6/6, p.52
Block (Inland) defends caution on adopting modern steelmaking processes, 6/6, p.54m*
Carbon content, of molten steel, evaluating method at Leeds & Northrup, 4/11, p.80
Coke wharf equipment automates gates, Wilputte, 5/16, p.35†
Crucible's TOC continuous process makes stainless alloys, 5/2, p.45
Crucible plans direct process for stainless steels from ores (CIPS) continuous integrated process, 5/9, p.46†
Degassing process at Finkl aided by electric arc* heating, gas stirring, 4/25, p.72†
Electroslag refined steel, single and three phase ac tested (England), 2/21, p.68
Oxygen converter L-D process in '57, where continuous casting is now, 3/7, p.72
Roof (swing) adds efficiency to arc melting furnace, 2/14, p.94
Spray steelmaking, BISRA report, 1/10, p.17
Stelco-Lurgi process (converts iron sands to steel), 2/28, p.30
Sulfur in steels analyzed, TO, 6/13, p.35
Swedish process improves electric steel, 2/21, p.62*

Steel Mills:
Armco hot steel mill operates 1½ years without halt, 1/3, p.160
Formosa mill considered by Australian ore firms, 4/18, p.31
Providence, R. I., mill feasible with area low scrap price, 1/17, p.17
North Star Steel, St. Paul mill, 2/28, p.31
Red Chinese steel mill, State Dept. moves to block, 4/4, p.23
West Coast mill getting thyristor power supply, 1/17, p.52

Steel Mill Controls:
Allegheny-Ludlum, automatic furnace control eases supermetal R&D, 3/7, p.80
Computer to control new hot mill at Burns Harbor, 3/28, p.106s*
Computers to control both blast furnace and converter at Fukuyama Works, Nippon Kokan, 6/6, p.52
Solid state system to control slab reheating furnaces, 4/25, p.30

Steel Mill Products:
1965 import figures, Japan takes most, 3/14, p.18
Inventories, 1st quarter, 3/7, p.123
Inventories, 2nd quarter, 6/6, p.79

Steel Service Center Institute:
Chicago meeting: Better management begins to pay off, 5/16, p.56
Welch foresees metal service centers with new management techniques, 1/10, p.33
Welch: Inventories high, 3/14, p.18
Meeting speakers, Youngstown's Williams: Inland's Block, 5/23, p.44

STEEL's Panel of Economic Consultants:
1966 outlook, inflation foreseen, 4/4, p.83
1966 predictions — price anchor aweigh as business swells, inflation undertow, 4/4, p.21
Participants, 4/4, p.23

Stockholders:
AMC to be challenged at annual meeting by dissident stockholders, 1/31, p.65
AMC annual meeting, criticism from Rev. Pavy, supported by Robert Evans, stockholders, 2/14, p.125
Regional meetings, Rockwell-Standard, 5/2, p.35
Stockholders' union proposed by Sol Dann, Detroit atty., 1/31, p.18

Stockpiles:
Administration pushes for huge stockpile disposal, 3/28, p.27
Disposal program to keep nonferrous balance, 1966, 1/3, p.47
See also GSA

Storage:
Ammonia storage tanks made of double walled steel, 6/6, p.54
Automated warehouse material handling system at Frasse: Card controlled cranes, 1/17, p.44
Food storage facilities on truck terminal property, liquid nitrogen a refrigerant, alloy steel usage, 3/14, p.50

Strapping:
Nylon strapping, Tension-Weld (Signode dev.), 6/13, p.45

Structurals:
Japanese firm offers new corrosion resistant, high strength structural steel, (Zirten steel), 4/11, p.54c†

Suggestion Systems:
How five metalworking companies handle programs: Tips on keeping ideas flowing; NASS estimates number of world systems, 2/7, p.43

Surplus Sales:
Defense (DSSO) announces auctions, 1/3, p.34

Sweden:
ASEA Electric and SKF Hollefors: Process improves electric steel, 2/21, p.62*

Systems Approach:
A systems approach to packaging (RCA-Hanlon recommends), 3/14, p.42,

T

Taconite:
Iron bearing taconite found in South Dakota hills, 4/11, p.54b†

Take-Charge Guys: See Management

Tax Manager:
New man at the top: The tax manager, 5/2, p.92

Taxes:
Auto excise tax of 1% boost proposed by LBJ, 1/24, p.18
Auto excise tax, Treas. Sec. Fowler hearings, 1/24, p.25
Fowler watches signs of inflation, is investment tax credit in danger 2/21, p.17
Investment tax credit of 7%, opponents speak, Congressional showdown approaches, 3/28, p.25
Investment tax credit supported by MAPI before Congressional Committee; by Rev. W. T. Hogan at seminar, 4/18, p.29
Surtax on corporate, individual taxes urged by Heller, 5/30, p.15

Technology:
Guideposts to better technical planning (Battelle's McCrory), 5/2, p.87
Neff (PRC): Technology presages radical changes in world economy, 5/30, p.20
State Technical Services Act, aid to industry or groups for technology news, 1/31, p.19
States win federal technical aid, 5/2, p.49
Technology tool and die shops are looking at, 1/24, p.28

Teflon: See Plastics

Telephones:
Material changes for receivers, evolution of handset to smaller, modern versions, 3/14, p.50

Television: See Radio, TV

Texas Technological College:
Dr. Tichauer: Biomechanics—taking advantage of man's design, 1/24, p.54

Tin Plate:
Tin plated aluminum fights corrosion, 2/21, p.31

Tool Show:
Japs exhibit five NC machines, 4/18, p.112n*
Speaker: Foreign tool builders sell service, delivery, 4/25, p.25

Tooling Material:
Electrode material for EDM, 4/18, p.28
Guide to tooling materials (steels, sintered carbides, wear resistant high alloys, ceramics), 4/18 p.64
Tradenames of materials, 4/18, p.64 (S-3)

Tool & Die Institute:
Elects Sodayko president, 5/2, p.51

Tools & Dies:
Case for interchangeable parts produces four cover housings, using same timer, 5/2, p.96
Die made of T-1 high strength, low alloy steel used in explosive forming, 6/20, p.55 S-7
Drilling plastic dies with NC, 2/28, p.48
Ford's automatic feedback override aids diemaking, 1/17, p.46
Ford's clay to tape to die program, new computerized design and mfg., 1/17, p.39
GE computer designs die mold in minutes, Metallurgical Dept., 3/21, p.56
Urethane pads as female die members trimmed forming costs, 3/7, p.83

Tools (Cutting):
Blade design replaces hole with slot, 5/9, p.39
Carbide tool breakage, how to cure, 6/6, p.28
Carbide tooling aid to lockmaker, TO, 5/30, p.16
Cutting tool programmer aids machine performance, Ex-Cell-O, 4/25, p.31
Interrupted cutting aided by titanium and tantalum alloyed tungsten carbide, 5/9, p.39
NC is ready for more metalworking jobs, 4/25, p.57 S-1†
Methylacetylene propadiene (MAPP gas) applications, 5/30, p.36

Tools (Hand):
Screwdrivers, pliers usage can affect health (strains), pointed up in biomechanics design, 1/24, p.54

Trade Associations:
Company allocations for associations on uptrend, NICB survey, 2/7, p.18

Trade Fairs:
Chartered airplane with trade show to call at 11 foreign cities (Pittsburgh World Trade Council), 2/28, p.18

Tradenames:
Tradenames of tooling materials, 4/18, pp.66, S-2

Training:
On-the-job training endorsed by LBJ, industry, 3/21, p.26

Transportation:
Cabinet level, Government Transportation Dept.: How big a role for U. S. transportation, 4/18, p.25
Electric power trends challenge to transporters, 2/21, p.29
Executives use jet taxi service, 1/24, p.56
Fast ground transit across Pennsylvania (Pittsburgh to Philadelphia) studied, 5/23, p.34
Gas turbine enters mass transit market, 3/14, p.30
Mass transit interest, momentum, companies bidding for Bay Area (chart), 2/21, p.28
Urban transportation conference in Pittsburgh, 2/21, p.28

Trucks, Trailers:
Army Tank-Automotive Center develops electric transmission drive for heavy vehicles, 1/24, p.33
Army Tank-Automotive Center materials study: Alloy steel casting sees severe service, 2/7, p.50
Frame hole drilling, via NC at GMC, 2/21, p.55 (S-7)
How to make a plastic truck cab, 5/2, p.95

Tubes: See Pipe, Tubing

Tubing:
Continuous casting tech. turns out tube blanks, 1/17, p.25
Finished tubes rolled out via new cold reduction process (Lodge & Shipley Flo Finisher), 1/10, p.50
High frequency system opens door to new uses for welded tubing, B & W, 4/4, p.51
Tube blanks cast without mandrel in Austrian plant, 3/7, p.75
Tubing shot peened inside (Boeing's internal blasting machine), 1/10, p.48

Tungsten:
Electrolytic method recovers tungsten, 6/20, p.64
Low cost method, tungsten via electrowinning, TO, 5/16, p.20
Palladium saves tungsten, TO, 5/23, p.35

U

Ultrasonics:
Castings inspection, ultrasonics cheaper than x-ray, 1/31, p.17
Handbook for inspection of bridges via ultrasonics, Bethlehem Steel, TO, 2/28, p.20
Ultrasonic vibration aid to tapping, Russian report, TO, 6/27, p.19
Westinghouse ultrasonic tester aids production brazing, 6/20, p.31

Underseas: See Oceans

United Air Lines:
Univac wins contract for 'on-line' computer system, 1/17, p.19

United Nations:
Arce cites untapped ores in developing countries, 2/28, p.18
World economic growth, survey, 6/27, p.17

University of California:
Industrial relations conference addressed by USW-Abel, 5/23, p.43

University of Michigan:
Industrial relations forum speaker (Olin's O'Connell) speaks on NLRB decisions, 1/31, p.24
Industrial Relations speaker: Haddock (Wash. atty.), criteria antitrusters use in looking at mergers, 2/28, p.27
Dr. Hoad: Role of small business, 6/13, p.33
Seminar in manufacturing technology: ECM, ECG, magnetic forming uses, 4/4, p.25
Dr. Warshaw: Middle managers' sabbatical leaves financed by employers, 3/21, p.18
SRC Index, consumer optimism drops, 6/27, p.18

V

Vacuum:
Forecasts vacuum melted steels growth, 2/14, p.35
Vacuum degassing: Arc heating, gas stirring aid process, (A. Finkl), 4/25, p.72†
Vacuum assisted siphon removes slag from Soviet open hearth, TO, 6/6, p.20
Wrap of stainless steel aid to vacuum heat treatment, 5/9, p.38

Value Line Investment Survey:
Machine tool builders coping with boom problems can expect profits, 3/28, p.18

Valves:
Copper alloy with pinch of tin (resists salt water and other corrodants), 2/28, p.52
Valve in contact with cryogenic liquid closes itself, TO, 6/20, p.20

Vibrations:
Sonic vibrations improve structure of gray iron castings (Czech report), 2/21, p.60
Vibrator can shake test missiles, Boeing, 3/28, p.106h*
Vibration added to gear drives reduce friction, TO, 2/21, p.20

Vietnam: See Defense

W

Wage-Price Guidelines:
CEA guidelines emphasized in LBJ report, 2/7, p.23
Comments by Blough, Sec'y Fowler, Meany: Will guidelines 'pass' when chips are down? 2/28, p.26
Economists debate usefulness of guidelines (Dr. Eckstein of Harvard in defense; Dr. Burns in opposition), 2/14, p.44
Dr. Jacoby (U. of Calif.) charges unauthorized federal control, 2/21, p.18
STEEL's Panel reports guideposts not working, 4/4, p.22
UAW (Woodcock) serves notice to ignore guidelines in dealing with GM, 2/14, p.43

Wages:
Automatic raise goes to 4.3 million this year (NICB), 3/28, p.18
Autoworkers differentials, U. S. and Canada, 5/16, p.17
Average hourly earnings in machinery producing industries vary by States (chart), 3/14, p.78
Negotiated wage increases 1st quarter, all industries, 4/25, p.18
Overtime: How much does it cost in metalworking, 3/21, p.25

Warehousing, Distribution:
Capital spending begins to pay off at service centers, 5/16, p.56
Card controlled cranes obviate warehouse move (Frasse automated handling system at Philadelphia), 1/17, p.44

Waste Treatment:
Scale recovery system allows reuse of water, Republic, 5/16, p.36†

Water:
Underground water reserves, TO, 1/31, p.20
Water transfer from subarctic to Canada, U. S. and Mexico (civil works project conceived by L. A. engineer), 3/14, p.18

Water Desalination:
Chemical parametric pumping, dev. by Princeton professor, TO, 3/28, p.19
Desalting pilot plants to test reverse osmosis process, TO, 4/18, p.20

Water Pollution:
Chicago industries ordered to stop polluting Lake Michigan, 2/14, p.45
Michigan launches Detroit river cleanup, 4/18, p.33
Sen. Muskie calls for federal funds, 4/4, p.19
Udall serves notice on polluters, Lake Erie conference, 6/27, p.18

Welding Show:
Technical session highlights, Cleveland Convention Center, 4/11, p.78

Welding Shop:
How Caterpillar makes welding pay off (STEEL Feature), 4/11, p.69
Saginaw Steering Gear: Patented method of cold forming and welding universal joint spiders (material saving), 2/7, p.48

Welding (Arc):
Carbon dioxide welding for structural work, gas-metal arcwelding, 4/11, p.79
Infrared sensor guides blind welding, TO, 4/11, p.19
Open-gap MIG welding, 3/8 in. steel plates at 150 ipm speeds, 4/11, p.79
Orbit Arc, portable unit welds tube joints automatically, 1/17, p.45
Plasma needle arc joins fine foils, 4/11, p.135
Pulsed arcwelding, a new gas metal technique, 4/11, p.78
Pulsed-Arc unit, Airco, 4/11, p.140
Square wave power improves gas tungsten arcwelds, 4/11, p.79
Vertical plate welding via automatic unit (Verti-Wire), 4/11, p.137

Welding (Electron Beam):
Convair: Electron beam welder x-rays its own welds, 1/17, p.47
Electron beam spurs shillelaghmaking (missile components), 3/21, p.58
Pipe and tube making via EB under study, TO, 5/2, p.33
Vacuum chamber abolished on portable EB welder, Westinghouse unit at NASA Marshall Space Flight Center, 4/11, p.76
Versatile EB device for aerospace work, 2/14, p.51
Welding in partial vacuum with EB slated for high production (Hamilton Standard), 6/6, p.54e*

Welding (Flash):
Giant parts flash buttwelded at German firm, TO, 4/11, p.20

Welding (General):
Automatic seam tracker for welders, NASA dev., 3/14, p.48
Optical seam tracker for welder, North American Aviation, 3/21, p.19

Welding (Resistance):
High frequency system opens door to new uses for welding tubing, B&W, 4/4, p.51

Russians weld refractories, TO, 2/21, p.20
Thermatool, an automated welding mill for fin-to-fin welding into power boiler water walls, 4/18, p.112h*

Welding (Spotweld):
NC spotwelder: Installation contradicts common notions about NC (AMP operation), 6/6, p.46
Bullet welding, particle of plastic or metal traveling at bullet speed, spotwelds laminated stack of sheets, TO, 3/28, p.20

Welding (Stud):
Nelson automatic feed studwelding system, 5/9, p.39
Radio chassis studwelding aids storage, 1/10, p.47

(spring alloy tested prior to forming), auto valve springs for V-8 engines), Metalworking Weekly only, 2/28, p.56

Welding Wire:
Flux cored wire cuts welding time 20%. Marion Power Shovel weighs 13,500 tons, 4/11, p.33
Nickel alloy welding wire solves reclamation problem (castings flaws), 5/2, p.103

Wire:
4 in. wire rope has 620 ton strength, used for a dragline, 2/21, p.63
Computer springs made from shaped wire stock, 4/11, p.82
Microscopic inspection of a wire with 3D clarity, 3/7, p.76
Wire checked via eddy currents

Women:
Working girls rights asserted (earnings vs men), 3/7, p.79
Women—just how equal can they be (federal legislation), 3/7, p.25
Women, teenagers add to labor force, 3/14, p.77

Wrought Iron:
Wrought iron used as magnetic radiation shielding for enclosure, 1/24, p.60

X, Y, Z

X-Ray:
Applications new, featured in Pittsburgh conference, 2/28, p.29
Electron beam welder x-rays its own welds, Convair, 1/17, p.47
On-site x-ray analysis checks castings, 1/10, p.46
X-ray emission tech. speeds analysis of gold, platinum, palladium, TO, 3/14, p.19
X-ray movies: A new early warning system, 6/6, p.54g*

Zero Defects: See Quality Control

Zinc:
1965 consumption a record, 2/28, p.29
ILZRO: Evaluating new zinc diecasting alloy, 4/4, p.26

COMPANY INDEX

A

AMF Thermatool Inc.:
High frequency automated welding mill with dual longitudinal fins, 4/18, p.112b*
High frequency unit speeds structural welds, two made simultaneously, IE, 2/21, p.107

Abrasive Truing Tool Corp.:
Snagging grinder, efficiency added, IE, 1/10, p.82

Accro-Fac:
Time study tool, recorder chart, IE, 1/31, p.81

Acheson Colloids Co.:
Forging lubricant, IE, 6/20, p.106

Acme Steel Co.:
Merger with Interlake Iron, 1/24, p.28

Adams Co. Inc., R. P.:
Automated filter plant, reclaims hydraulic test water, IE, 2/28, p.104

Addressograph-Multigraph Corp.:
Repetitive writing unit, IE, 1/3, p.192

Adhesive Engineering Co.:
Epoxy paste for rubber-to-metal bonds, IE, 2/14, p.151

Adolph Plating Inc.:
Electrogalvanizing plant designed for large parts, 1/24, p.59

Aerojet-General Corp.:
Underwater lab to test torpedoes, 4/25, p.29

Aetna Bearing Co.:
Ball thrust bearings for light duty, IE, 4/25, p.107

Aget Mfg. Co.:
Grinder mist collector catches metallic fines, 4/11, p.143

Airborne Accessories Corp.:
Shaft misalignment compensated for by couplings, IE, 4/4, p.98

Airborne Instruments Laboratory:
Builds laser interferometers for Boeing and Cincinnati Milling, 2/28, p.39

Airco Welding Products: See Air Reduction

Airline Welding & Engineering:
Planishing machine adapted to tubing, IE, 2/28, p.97
Welding positioner, planisher exhibited, IE, 4/11, p.143

Air Products & Chemicals Inc.:
Enters welding equipment field, 4/25, p.28
Tig/Arc welding outfit for small fabricator, IE, 5/9, p.90

Air Reduction Co. Inc.:
Blow molding of bottles a new industry, 5/30, p.16
Laser microwelder offered by Airco-Hughes, 5/9, p.89
Plasma cutting machine cuts contoured shapes with electronic tracer, IE, 4/25, p.109
Pulsed power MIG welder, IE, 4/11, p.139

Ajax Electric Co.:
Salt bath furnace upgrades brazed bimetallic joints, sold to Bi-Braze Corp., 1/24, p.53

Ajax Magnethermic Corp.:
Moves sales office to Warren, Ohio, 2/14, p.52

Akron Metallic Gasket Co.:
Name changed to AMG Industries, 5/2, p.52

Alan Wood Steel Co.:
Annealer uses radiant heat for cold rolled strip coils, 1/17, p.50
Cost sharing plan-USW, JEEP, 2/21, p.31 and 5/23, p.49
Expansion-modernization program, 3/28, p.35
Wood speaks on steel profit pace, tough for industry to maintain, 1/31, p.23

Alcan Aluminium Ltd.:
Expands alumina and bauxite facilities, Jamaica, 6/20, p.39

Alcan Aluminum Corp.:
Blasted aluminum forms decorative wall panels, 3/28, p.106e*
To install continuous paint line, Warren plant, 6/6, p.32

Alcan Cable Corp.:
New name, 1/17, p.30

Alcan Metal Powders Inc.:
Was Metals Disintegrating Co., B, 2/28, p.32

Alkon Products Corp.:
Filter (Roltray) on centerless grinder curtails rejects, 4/18, p.112q*

Allegheny Ludlum Steel Corp.:
Brackenridge research center: Automatic furnace control eases supermetal R&D, 3/7, p.80
Expansion program for bar mills, 4/18, p.35
Forms International Powder Metallurgy (firms acquired), 6/13, p.52
Suggestion award plan, employee participation, 2/7, p.43

Allen Tool Corp.:
Modular units form pallet transfer line, IE, 5/2, p.163

Allied Chemical Corp.:
Diamonds made from graphite, explosive charge TO, 5/2, p.35
Wilputte automated system operates coke warf gates, 5/16, p.35†

Allied Products Corp.:
Buys Keystone Bolt & Nut, 6/13, p.51
Gold filling makes epoxy electrical conductor, IE, 5/16, p.97
Simple stamping success with reduced drawing compounds, 5/16, p.59

Allis-Chalmers Mfg. Co.:
Betatron tests steel to 20 in. thick, 2/21, p.63
Electrostatic painting, spray guns for farm equipment, 6/20, p.35
Front access door on motor controller eases inspection, IE, 3/21, p.103
Rubber lined pumps handle fine abrasives, IE, 2/7, p.87
Stevenson speaks against suspension of 7% investment tax credit, 3/28, p.26

Altamil Corp.:
Closed loop operation automates sand foundry, Chambers Div., 2/7, p.27

Aluminium Ltd.:
Name change to Alcan Aluminium Ltd., 5/16, p.32

Aluminium Ltd. Sales Inc.:
Name change to Alcan Sales Inc., 6/13, p.52

Aluminum Co. of America:
Aluminum-plastic mats for floating airstrips (Navy contract), 6/13, p.92
Aluminum unit train hauls ore, 4/4, p.17
Forms Manufactured Products Sales Div., 5/2, p.52
Harper: Be realistic about government's role, 6/13, p.83
High energy forger for Kensington, Pa., plant, 6/27, p.25
Opens sheet mill at Warrick, Ind., eyes packaging market, 5/9, p.30
Packaging markets, Cliffs Sands predicts gains, 2/14, p.99
Transistorized stacker crane, automatic storage and retrieval, 3/28, p.33

Aluminum Co. of Canada Ltd.:
Aluminum rods and electrical conductor cable to be made in Manitoba plant, 3/21, p.35

Amax Aluminum Co.:
Buys Johnson Foil Div., 2/14, p.52

American Bosch Arma Corp.:
Buys Sig-Trans, 2/28, p.32

American Brake Shoe Co.:
Denison Div., piston pumps lever controlled, IE, 4/4, p.98
Denison fluid motors, fixed stroke design, IE, 2/21, p.112
Denison multipress line, IE, 5/23, p.167

American Can Co.:
Cemented, lapped seam can developed for beverage industry, 4/18, p.33
Moderelli addresses AMA personnel conference: Computer enlisted to probe manpower paradox, 3/7, p.78

American Cast Iron Pipe Co.:
Betatron tests steel to 20 in. thick, 2/21, p.63

American Chain & Cable Inc.:
Wilson Rockwell tester minimizes human error, IE, 5/16, p.97

American Hoist & Derrick Co.:
Buys Noble Co., 6/20, p.40
Buys Western Block, 2/7, p.28

American Metal Products Co.:
Merged into Lear Siegler, 6/13, p.51
NC spotwelder: Installation contradicts common notions about NC, 6/6, p.46

American Meter Co.:
Merges Vapor Corp., 4/11, p.36

American Monorail Co.:
Stacker crane, more visibility for warehousing work, IE, 5/23, p.166

American Motors Corp.:
AMC (Pickett) outlines supplier export opportunities, 5/30, p.58
AMX prototype used to check design potentials, test public response, 1/31, p.65
Annual meeting, sparks to fly: Rev. Pavey leads dissident stockholders challenge to management (similar to Sol Dann in '57), 1/31, p.65
Annual meeting, critics and supporters (Rev. Pavey and Evans), 2/14, p.125
Compact to compete with Volkswagen, 6/20, p.18
Concepts of new models, AMX II, Cavalier, Vixen, 6/27, p.83
Evans (new chairman): Rambler's potential, 6/13, p.34
Forms importing operation, South Africa, 2/28, p.80

American Optical Co.:
Space age needs conventional machining, 3/28, p.106b*

American Pullmax Co. Inc.:
Angle bending machine, IE, 4/18, p.146

American Smelting & Refining Co.:
Building lead smelter in Glover, Mo., 1/17, p.29
Freezing ranges of copper alloys improve casting quality, TO, 3/21, p.20

American Tool Service Inc.:
Tool changes fast on boring, facing head, IE, 4/4, p.95

American Viscose: See FMC Corp.

Ametek Inc.:
Hunter Spring exhibits force gage Trim Series, 5/9, p.88

Ampco Metal Inc.:
Buys assets of Torrance Brass Foundry, B, 4/25, p.32

Amphenol Corp.:
Buys Liberty Copper & Wire, 4/18, p.36

Anchor Post Products Inc.:
Plastic coating steel wire (Permafused), new dev., 5/23, p.49

Anocut Engineering Co.:
Williams forecasts increased usage of ECM, 1/10, p.19

Applied Power Industries Inc.:
Buys Rivett Inc., B, 2/7, p.28

Arcos Corp.:
Buys Specialty Precision Wire, 6/13, p.52

Aremco Products Inc.:
Alumina base ceramic, IE, 2/28, p.97
Vacuum pencils helpful in tiny part handling, IE, 4/4, p.96

Argus Engineering Co.:
Infrared soldering, heat treating concepts, 3/7, p.82

Armco Steel Corp.:
Hot strip mill operates 1½ years without halt, 1/3, p.160
Galvanizing line furnace, contract, 1/10, p.36
Slabbing mill contract to Mesta, 3/28, p.35
Verity blasts pressure moves (pricing, labor-management negotiations), 2/7, p.18
Verity views LBJ's spending cut, 4/11, p.26

Aro Corp.:
Pneumatic control system exhibited (APLC), 5/2, p.82

Aronson Machine Co. Inc.:
Positioner table height adjustable, IE, 3/7, p.137

Arvin Systems Inc.:
NC positioner, small part making, IE, 3/21, p.98

Arwood Corp.:
Buys Cast-O-Matic, 2/21, p.32

Atlantic Steel Co.:
Forms galvanizing subsidiary, B, 3/7, p.36

Atlas Minerals & Chemicals: See Electric Storage Battery

Atlas Steels Ltd.:
Continuous casting, stainless slabs, cover pic., 3/7, p.72

Auto Baling Co.:
Junked auto scrapyard for Sharon Steel, 6/6, p.54

Automatic Spring Coiling Co.:
Spring alloy tested prior to forming (valve springs for V-8 autos), 2/28, p.56*

Automatic Valve Corp.:
Time relay on pilot solenoid valve, IE, 6/27, p.91

Automation & Employment Inc.:
Survey (35 officials) on computer usage at middle manager level, 4/11, p.27

Automation Development Corp.:
Bar, tubing feeders, IE, 2/14, p.146

Automation Devices Inc.:
Dual bowl vibratory feeder, IE, 3/14, p.98
Pecco Orientor is pneumatic powered, IE, 2/14, p.149

Code: *—*Metalworking Edition only;* †—*Metalproducing Edition only;* IE—*Industrial Equipment;* TO—*Technical Outlook*

Automation-Forster Inc.:
Surface defect detection. Defectometer. IE, 4/4, p.99

Automation Industries Inc.:
Buys Forster Hoover. B, 1/31, p.27
Sperry Products. ultrasonic system spots corrosion. IE, 1/10, p.84
Sperry ultrasonic pulse-echo thickness gage. IE, 1/23, p.115

Automation Techniques Inc.:
Attachment for milling machine. IE, 6/27, p.92

Autonetics Div.:
See North American Aviation

Autotrol Corp.:
Timing motors. features. IE, 5/30, p.66

Avco Corp.:
Electrochemical grinding reported by Massad. 3/14, p.28
Avco Bay State Abrasives Div. (was Bay State Abrasives), 2/7, p.28
Plasma coating on electric knife blades. 5/9, p.38
Urethane pads as female die members trim forming costs. 3/7, p.83

Avis Industrial Corp.:
Buys Par Light Mfg., 5/9, p.31

Avnet Shaw Div.: See British Industries

B

B&B Heat Treating:
Newly formed. B, 4/4, p.28

Babcock & Wilcox Co.:
Buys Detroit Broach & Machine. 4/18, p.35
Duplex refractory tube prunes costs. 3/28, p.29
Expansion of steel plants at Beaver Falls, Pa., and Alliance, Ohio. 6/6, p.31
High frequency welding system adds new uses for welded tubing. 4/4, p.51
Tube Div. plans expansion. 3/7, p.33

Bache & Co.:
Computer system for total management information. TO, 2/28, p.19

Bailey Meter Co.:
Apparatus measures, records density of smoke, dust. IE, 1/24, p.113
Solid state system to control slab reheating furnaces. 4/25, p.30

Baird-Atomic Inc.:
X-ray spectrometer. IE, 3/28, p.152

Baldwin Hardware Mfg. Corp.:
Do-it-yourself plating success story reported by Fayerman. 3/14, p.41
Strain indicator. IE, 4/25, p.110

Barber-Colman Co.:
Cold gear forming machine readied (rotary impingement), 2/28, p.46

Barker Engineering Co. Div.: See Hohlfelder Co.

Barnes Engineering Co.:
Infrared eye of camera records heat distribution. TO, 6/13, p.35

Baron Blakeslee Inc.:
Portable degreaser needs no cooling water. IE, 3/14, p.100

Barry Wright Corp.:
Vibration isolators, cylindrical mounts. IE, 4/25, p.110

Basic Inc.:
Basic Inc.'s anomaly in success (Eells and Muller report), 2/28, p.42

Bayco at Ltd.:
Offers custom metal painting and prefinishing service. 4/11, p.28

Bay State Abrasives: See Avco

Beardsley & Piper: See Pettibone Mulliken

Beckman Instruments Inc.:
Combines to form Electronic Instruments Div., 3/28, p.36

Behr-Manning: See Norton Co.

Bell Telephone Laboratories Inc.:
3-D pictures viewed by ordinary light. TO, 4/11, p.20
Advances in materials for handset to smaller modern version. 3/14, p.50
Casing process—plastic bond treatment. 4/4, p.26
Electropolishing with ac tested. TO, 1/24, p.19
Laser power increased with helium ingredient. TO, 2/7, p.20
LDX (Long Distance Xerography) links Murray Hill and Holmdel, N. J. labs, 6/13, p.47

Bellows-Valvair Div.:
Hydraulic pump, new simplicity. IE, 5/2, p.154

Bemol Inc.:
Self-lubricating alloys (combination of metal matrices and solid lubes). 5/2, p.106

Benchmaster Mfg. Co.:
Safety control for punch presses. IE, 1/3, p.189

Bendix Corp.:
Acquiring Beck-Lee. B, 1/31, p.28
Buys Fonda Gage. B, 2/14, p.52
Buys P&D Mfg., B, 1/10, p.36
Buying Scully-Jones. 6/13, p.52
DynaPath for lathes. IE, 2/21, p.106
Inturgescent forming. Pioneer Central Div., 5/16, p.54
Tungsten sintering, adds bromine. TO, 2/21, p.19

Bertsch & Co.:
Roll forms 14 in. plates. IE, 5/9, p.86

Beryllium Corp.:
Berylco 717 C. new alloy gives sea water corrosion protection (beryllium added to copper nickel). 1/24, p.60
Nickel and strip facilities added. 2/14, p.51

Besly-Welles Corp.:
Color use, marketing and packaging program. 5/23, p.103 [illegible]

Bethlehem Fabricators Inc.:
May merge. B, 3/14, p.32

Bethlehem Steel Corp.:
Announces $5 per ton hike on structurals. 1/10, p.30
Cable trough and ladder speed plate mill construction. 5/16, p.36†
Computer to control new hot mill at Burns Harbor. 3/28, p.106s*
Cort: Addresses Investment Analysts (steel market outlook), 6/13, p.42
Filtered exhaust cuts furnace emission. 1/24, p.36
Magnetic handling conveyor, nails and staples, Sparrows Pt., 5/2, p.97
Modernizing structural rolling mills, and enlarging shipping yards. 1/31, p.27
Research projects underway, stockholder report. 5/16, p.19
Rod mill, Sparrows Pt., to produce 3000 lb coils. 1/24, p.35
Steel mill 'potential' at Pinole Point, Calif., revealed by officials. 1/17, p.29
Tin plate line, Burns Harbor, starts. 2/7, p.26
Wire rope-4 in. diameter, for nine dragline. 2/21, p.63

Bi-Braze Corp.:
Salt bath upgrades brazed bimetal pipe and tubing couplings. 1/24, p.53

Birchwood Casey Co.:
Formed with merger. 1/31, p.28

Birn Co. Inc., Serge A.:
Hyde: Tips for better incentives for your foremen. 1/10, p.32

Blackstone Ultrasonics Inc.:
Ultrasonic cleaner condenses, saves solvent. IE, 1/3, p.190
Ultrasonic transducer cleans in any tank. IE, 3/14, p.103

Blaw-Knox Co.:
Pair of roll lathes handle 52 in. diameters. IE, 3/28, p.152

Bliss & Laughlin Industries:
Buys Waco-Porter. 2/21, p.32

Blue M Engineering Co.:
Refrigeration chamber cools to —400° F. IE, 4/25, p.111

Boeing Co.:
Aerospace Div.: Adaptive control studies will pay off soon, machine tools. 5/2, p.98
Employment office in Detroit, other cities. 4/11, p.54a†
Laser interferometers now in use. 2/28, p.39
Shot peening inside of tubes and cylinders. 1/10, p.48
Titanium processing facility for supersonic transport program. 6/13, p.31
Vibrator heavy duty shake testing of missiles. 3/28, p.106h*

Bohler & Co. A. G., Gebr.:
Tube blanks cast without mandrel. 3/7, p.75

Bohler Bros. & Co. Ltd.:
Continuous casting (without internal mandrel) tech. turns out hollow tube blanks. 1/17, p.25

Boller Development Corp.:
Aluminum coating adds service life to parts. 4/18, p.108

Bonney-Floyd Co.:
Cast-weld technique, makes big bigger. 1/31, p.43

Borg-Warner Corp.:
Buys assets of Recold Corp., B, 3/21, p.36
Capital investment, record $50 million, for '66. 1/31, p.26
Capital spending spurred by order backlog. 4/4, p.19
Consolidates Canadian subsidiaries. 2/14, p.52; 2/28, p.32
Marbon Chemical, new ABS thermoplastic resin, self-extinguishing. 5/2, p.78s*
Norge's distribution system coordinated. 4/11, p.18

Boston Edison Power & Light Co.:
Refractory blankets (Kaowool) keep welds warm. 3/7, p.82

Brad Thompson Industries Inc.:
Electron beam control, kit form. IE, 3/7, p.137

Brainard Safe-ty Strapping Div.: See Sharon Steel

Branson Instruments Inc.:
Cavitation intensity meter measures ultrasonic cleaning. IE, 6/20, p.110
Heavy duty degreasers. IE, 3/14, p.100

Braun Engineering Co.:
Warm forming (auto starter clutch housing), 2/28, p.49

Bristol Brass Corp.:
Noble & Westbrook machine marks small parts. IE, 2/14, p.148

British Industries Corp.:
Shaw process makes permanent ceramic mold. TO, 4/18, p.20

British Iron & Steel Research Assn.:
Spray steelmaking, new continuous process. 1/10, p.17

British Oxygen Co.:
Refractory grain heated for furnace patching, new process. 6/6, p.54

Brooks & Perkins Inc.:
Boron fibers by the pound. 5/30, p.16

Brown & Sharpe Mfg. Co.:
Fluidic controls on rebuilt drills. TO, 4/11, p.20
Fluidics application reported by Levesque and Loup. 5/9, p.42
Gage block comparator makes linear checks. IE, 6/13, p.147

Browning Metals Corp.:
Copper alloy with 'pinch' of tin for valves, corrosion resistant. 2/28, p.52

Brunswick Corp.:
Stainless steel fibers. 5/30, p.31 S-5

Brush Beryllium Co.:
Beryllium oxide ceramics, new performance. IE, 3/7, p.136

Budd Co.:
Gas turbine for mass transit. 3/14, p.30

Buffalo Forge Co.:
NC boring mill pares 75% from production time. 5/2, p.94

Buhr Machine Tool Co.:
Computerized control replaces wired logic systems. 6/13, p.49
Unit machines steering knuckles for autos. IE, 3/28, p.150

Bunker-Ramo Corp.:
Microminiature integrated circuits improve NC system. 2/28, p.41

Burgmaster Corp.:
Automatic 12 spindle turret drilling, tapping, boring machine. IE, 4/25, p.106
Machine indexes to any tool in 5 seconds. IE, 6/13, p.141

Burroughs Corp.:
Combined features for accounting machine, electronic computers. IE, 5/23, p.157

C

Calgon Corp.:
Buys Pittsburgh Activated. B, 2/14, p.52

Calstrip Steel Corp.:
Sold. B, 2/7, p.26

Cambridge Instrument Co. Ltd.:
Large depth of focus on electron microscope. IE, 2/7, p.95

Carborundum Co.:
Buys Lockport Felt. 3/28, p.36
Conversion spindles for arborless wheel. IE, 1/24, p.114
Fibers—new route to new materials: Sturges. 5/30, p.26c
Silicon carbide coats graphite. TO, 3/7, p.19
Silicon carbide whiskers, developments. 5/30, p.30 S-4
Studwelding payoff, Coated Abrasives Div., 5/16, p.58

Careers Inc.:
Cleveland center recruiting, industrial firms participate. 3/14, p.25

Carlyle Johnson Machine Co.:
Compact clutch/brake engaged by magnetics. IE, 3/28, p.150

Carmet Co.:
Simplok toolholder, insert ends locking errors. IE, 3/7, p.140

Carol Wire & Cable Corp.:
Buys Tevco. B, 3/7, p.36

Carpenter Steel Co.:
Income security plan. 5/30, p.20

Case Co., J. I.:
Buys plant in Indianapolis. 4/11, p.36

Caterpillar Tractor Co.:
Elects Blackie president. 4/11, p.35
How Caterpillar makes welding pay off (STEEL Feature). 4/11, p.69

CEIR Inc.:
Computer investment by 1975, study report. 6/6, p.29

CEJ Gage Co.:
Machine classifies, inspects bearing rollers. IE, 4/18, p.156

Central Foundry Co.:
Buys Buffalo Pipe & Foundry. B, 1/24, p.35

Century-Detroit Corp.:
Slide travel reproducible to 0.000050 in. IE, 3/14, p.91

Century Sales Corp.:
Way type units bore, trepan, drill, burnish. IE, 4/4, p.97

Code: *—*Metalworking Edition only;* †—*Metalproducing Edition only;* IE—*Industrial Equipment;* TO—*Technical Outlook*

Chainveyor Corp.:
Heavy duty conveyor system, IE, 1/10, p.87

Celanese Corp.:
Woolley: Japs eye U. S. market, plastic auto parts, 1/24, p.18

Chamberlain Engineering Co.:
Sold to Norton, 4/4, p.27

Chambersburg Engineering Co.:
Hammer design advance, IE, 6/6, p.92

Chase Brass & Copper Co. Inc.:
Buys Cleveland Tungsten, B, 2/14, p.52

Chemetron Corp.:
Buys Hammon Precision Equipment, 4/18, p.36
Buys Welding & Indus. Products Ltd., 5/9, p.31
NCG engine driven welder goes to job sites, IE, 6/20, p.114
NCG introduces four 600 ampere dc welders, 4/11, p.139

Chicago Pneumatic Tool Co.:
Buys Qualitrol, B, 1/31, p.28

Crane Packing Co.:
Self-sealing threaded fittings, Thred-Taper, 2/28, p.31

Chromalloy Corp.:
Ferro-Tic can be machined with conventional tools, 1/17, p.49
Wrap of stainless steel for vacuum treatment, 5/9, p.38

Chrysler Corp.:
Aftermarket pursuit, parts and service items, 2/7, p.71
Auto replacement parts marketing program, 5/23, p.144
Automated engine line expansion, Mound Rd., 3/21, p.86
Chemical Div.: Resistant seal is formed as foam elastomer expands, 6/13, p.90
Chesebrough: Plastics push harder for metal markets, trend in autos, 2/14, p.41
Mazurek: 'Bare shelves' spur expansion, 2/7, p.17
Research car-the 300X, new developments include two TV sets, 2/21, p.91
Rootes marketing, 1/10, p.73
Rust preventive, Chemical Div., IE, 5/9, p.94
Supplier requirements outlined, 1/10, p.32
Townsend: Government - industry relations, foreign investment curbs, 2/7, p.18
Turbine program, next phase pondered, 4/18, p.17
Turbine program, new materials pass test (low alloy content), 4/25, p.95

Cincinnati Milling Machine Co.:
Fluid benefits electrolytic grinding, (Cimlyte 7), 1/31, p.79
Laser interferometers use, 2/28, p.39
Train maintenance men for NC, 5/2, p.78s*

Cincinnati Shaper Co.:
Magnetic forming operations (examples), 5/16, p.54
Press brake bends plates, 3/7, p.82
Reduces tooling costs for compacting presses, IE, 1/3, p.191
Restrike press, speed and high tolerance, powder metal parts, IE, 2/14, p.153 and 4/18, p.148

Cincinnati Sub-Zero Products Inc.:
Test chamber, chills specimens for Charpy impact test, IE, 4/18, p.152

Clare & Co., C. P.:
Buys into Pendar Inc., 5/23, p.52

Clark Equipment Co.:
Hand truck floats on thin film of air, IE, 6/20, p.106
Pallet, Land-Glide unit, IE, 5/23, p.161

Clark-Reliance Corp.:
Buys div. to operate as Mipco Valve, 2/28, p.32

Cleveland Cap Screw Co.:
Bell type annealing furnace, steel coils, 1/17, p.52

Cleveland Crane & Engineering Co.:
Automatic system for warehouse storage, IE, 6/20, p.113

Cleveland Planer Co.:
Sold, 2/28, p.31

Clevite Corp.:
Air pollution controls, 5/16, p.49
Precision calibrator checks out gages, IE, 3/14, p.93

Clyde Engineering: See Tru-Tork

Cogsdill Tool Products Inc.:
Change in blade design, 5/9, p.39

Coleman Cable & Wire Co.:
Merging, 5/9, p.32; negotiations cancelled, 5/16, p.32

Coleman Engineering Co.:
Position readout systems have decimal display, IE, 6/6, p.93

Colonial Broach & Machine Co.:
Straightener for cylindrical, flat parts, IE, 2/28, p.96

Colonial Plastics Mfg. Co.:
Plastic conveyor rollers free from corrosion, IE, 3/21, p.101

Colorado Fuel & Iron Corp.:
Changes corporate name to CF&I Steel Corp., 6/6, p.32

Colt Industries Inc.:
Reinforced plastics for pistol grips, handguards, buttstocks (Army), 3/28, p.31

Commander Mfg. Co.:
Model 1200 drill head, handles 19 spindles, IE, 1/10, p.84

Commercial Forgings Co.:
Annealing and normalizing furnace with curtain, an interior guillotine door, provides three-way operation, 1/10, p.53

Concast Inc.:
Continuous casting of stel reported by Irving Rossi, 3/7, p.72
Ends U. S. working agreement with Mannesmann, B, 3/14, p.32

Connecticut Special Machine: See Turner & Seymour

Continental Machines Inc.:
Tandem pumps, variable volume, IE, 3/14, p.99
Variable volume pump runs at 1800 rpm, IE, 1/10, p.83

Controls Co., A. L.:
Time delay relay, IE, 3/28, p.156

Controls Co. of America:
Buys Deutsch product lines, 4/11, p.35
Sold, 6/6, p.32

Convair: See General Dynamics

Cooper Weymouth Inc.:
Double motorized stock reel, IE, 4/11, p.144

Cope Div., T. J.: See Rome Cable

Corning Glass Works:
Ceramic-metal heat exchanger (auto gas turbine engines), 3/21, p.60
Fluidic control ousts electric system, 4/11, p.54d†

Cowles Chemical Co.:
Forms Metal Finishing Process Div., 5/16, p.32

Crane Co.:
Canned pump, IE, 3/14, p.103

Crouse-Hinds Co. of Canada Ltd.:
Buys Taylor Electric, 5/9, p.32

Crucible Steel Corp.:
CIPS—Continuous Integrated Process for Stainless planned, 5/9, p.46
Hunter forecasts stainless, tool steel usage up, imports threaten, 1/10, p.17
Merger with Wheeling: Simon seeks to rout dissident stockholders' group headed by Rubin, 1/24, p.27
TOC-continuous process to make stainless, alloys with new facilities at Midland, Pa., 5/2, p.45
Ultrafree machining stainless steel called 416 F-Plus, 3/14, p.41

Curtiss-Wright Corp:
Automatic speed control on dashboard, TO, 1/17, p.20
Electrospring clutch line, IE, 4/4, p.106

Custom Machine Inc.:
Scan-A-Matic, pulse echo-immersion type, tests pipe, plates, billets, IE, 2/21, p.108

Cutler-Hammer Inc.:
Control system shows coil diameter, IE, 5/23, p.164
DC mill brakes hydraulically adjustable, IE, 3/28, p.152

Cyclops Corp.:
Empire-Reeves galvanizing line at Dover completes expansion, 5/9, p.48
Strapping seals with punched interlocks, IE, 5/30, p.66

D

D-M-E Corp.:
Saw slices slabs to required width, solves storage problems, speeds deliveries, 6/27, p.62

Danly Machine Specialties Inc.:
Ball bushing assembly, IE, 4/18, p.151
Stock pusher stamping stock aligned, IE, 1/10, p.88

Datex Corp.:
Displays automatic assembly and tube bending with adaptive control, 4/25, p.27

Davey Compressor Co.:
Mobile machine shop, lifted from truck, IE, 5/30, p.65

Davis Keyseater Co.:
Cuts internal keyways, IE, 5/23, p.166

Denison Div.: See American Brake Shoe

Despatch Oven Co.:
Ovens perform to 650 F, IE, 5/23, p.167

Detroit Broach & Machine Co.:
Acquired by Babcock & Wilcox, 4/18, p.35
Broaches range of parts, 2/14, p.88
Fixture speeds broaching, bearings, 1/10, p.47
Fixture adds to production, versatility, 3/21, p.59
Machine broaches milling cutter inserts, IE, 6/6, p.89
Production tracer lathe, IE, 6/13, p.141

DeVlieg Machine Co.:
Coupling Jigmil with tape control system, IE, 1/10, p.81

Diamond Alkali Co.:
Chrome plating compound, IE, 6/13, p.149

Diamond Die & Mold Co.:
Speedgrind attachment for hard to reach areas, IE, 5/2, p.153

Diamond Machine Tool Corp.:
Press has rotary transfer, IE, 1/31, p.82
Press drive under bed of press, IE, 2/14, p.153

Diversey Engineering Co.:
Kauffmann: Job shop for tomorrow, 6/20, p.49 S-1

DoAll Co.:
Optical test bench, IE, 6/20, p.110
Warranty on bandsaw, IE, 3/7, p.138
Wide option choice for surface grinder, IE, 4/18, p.169

Dodge Mfg. Corp.:
Para-Flex coupling line, IE, 3/14, p.92
Timing belt drives, IE, 3/21, p.103

Donner Electronics Inc.:
Fiber optic illuminator, IE, 5/2, p.154

Double A Products Co.:
Friction detent standard on solenoid operated valve, IE, 6/27, p.92

Douglas Aircraft Co. Inc.:
Drills laminates cleanly, 5/9, p.38

Dow Chemical Co.:
Buys interest in Kartridg Pak, B, 1/24, p.36
Computer to talk 'English', called Request Language, TO, 1/10, p.20
Consolidates aluminum production items, 5/16, p.32
Insulated panel system utilizes prefab sandwich panel, 1/31, p.46
Plastic reinforced molding machines, 3/14, p.39
Polyvinyl alcohol binder for compacted powders, TO, 3/14, p.20
Produces methylacetylene propadiene gas, 5/30, p.36

Dow Corning Corp.:
Adhesive type sealants, IE, 5/3, p.154
Flame retardency for silicone rubber, IE, 6/13, p.142
Silicone sealant, high strength, IE, 1/31, p.84

Dravo Corp.:
Tower pickling line design, pic., 6/20, p.60
Two-way coolant system for Inland, 5/16, p.35†

Dresser Industries Inc.:
Buys interest in French firm, 4/18, p.36

Drever Co.:
Acquires firms, B, 1/31, p.28

Drillmation Co. Inc.:
Bore driller tailored to hole straightness, IE, 6/6, p.87

Driver Co., Wilbur R.:
Thermocouple alloys, 6/27, p.62

Durametal Mfg. Co.:
Switch to induction melting, 3/7, p.86

E

Eastern Co.:
Buys assets of K-S Marine Products, 2/21, p.32

Eastern Stainless Steel Corp.:
Merges with Arundel, B, 2/7, p.28

Eaton Yale & Towne Corp.:
Conference speaker (Dr. Eaton, Georgia Inst.) speaks on capital expenditures spending, 5/9, p.28
Exhibits motorized speed variator, clutches, lubrication systems, IE, 5/2, p.160
Expands Salem, Va., Div., material handling equipment, 1/10, p.35
Lift truck for storage (Linde plant), 1/24, p.58
Lift truck device smooths acceleration, IE, 3/7, p.143
Power system on ELF rocket model lift truck, IE, 6/20, p.105
Rudy: U. S. firms lack of ideas stunts exports, 2/21, p.19
Safety speed control devices, 2/14, p.126
Solid state control regulates speed, torque, IE, 1/17, p.87

Eclipse Air Brush Co.:
Color control machine reproduces paint tests, IE, 6/13, p.150
Electrostatic gun sprays conductive materials, IE, 2/21, p.111

Edie & Co. Inc., Lionel D.:
National inventory game, new rules, 4/25, p.99
Rinfret: Boom means inflation, 4/25, p.17
Surveys capital spending, 3/14, p.27

Edison Instruments Inc.:
Ultrasonic system welds plastics, IE, 1/17, p.84

Efficient Industries Corp.:
Plastic moldmaking, Chevrolets, 3/14, p.39

Egan & Co., Frank W.:
Automatic centerline reels, IE, 1/24, p.118

Code: *—*Metalworking Edition only*; †—*Metalproducing Edition only*; IE—*Industrial Equipment*; TO—*Technical Outlook*

Displays coil handling machines, IE, 4/18, p.148

Electric Storage Battery Co.:
Atlas Minerals: White epoxy adhesive does not sag, drip, IE, 4/4, p.105
Stokes polypropylene hinge packaged in 100 ft rolls, 4/11, p.142

Electron Ohio Inc.:
Bar chart recorder, IE, 1/3, p.184

Electronic Audio Visual Devices Inc.:
Port-A-Matic, projector-screen in one package, IE, 2/21, p.109

Electro-Optical Systems Inc.:
Fuel cells rechargeable, TO, 2/14, p.36
Ion engines get good mileage, TO, 3/14, p.20

Electro Powerpacs Inc.:
Production laser welder, IE, 4/4, p.98

Elektron Standard Inc.:
Automatic electron beam cutting equipment, IE, 1/31, p.79
Electron beam gun, IE, 1/3, p.186

Elgiloy Co.:
Buys Elgin Springs, 4/11, p.36

Elgin Electronics Inc.:
A new Basic Inc. subsidiary, 2/28, p.44

Emerson Electric Inc.:
Buys McPhilben Lighting, B, 3/28, p.36
Merges with Ridge Tool, 6/20, p.40

Empire-Reeves: See Cyclops Corp.

Enamel Products & Plating Co.:
Installs precoater line, 4/11, p.36

Energy Conversion Devices Inc.:
Solid state limit switch for under water, IE, 5/16, p.95

Engelhard Industries:
Merchandises African firm process, PVC coating, 2/7, p.18

Engis Equipment Co.:
Universal pitch measuring unit, IE, 5/16, p.100

Enterprise Machine Tools Inc.:
Multipurpose lathe powered by 2 hp motor, IE, 4/4, p.102
Multipurpose lathe features, IE, 5/23, p.158
Surface grinder, extras in base price, IE, 5/30, p.66

Equitable Equipment Co. Inc.:
Buys Higgins shipyard, B, 1/31, p.27

Erie Foundry Co.:
Gearbox driveshafts for English Fords made by cold extrusion and upsetting, 3/7, p.80

Esco Corp.:
X-ray movies show up problems in casting-welding, Rose reports, 6/6, p.54g*

Esso Research & Engineering Co.:
Iron ore reduced in fluidized bed process, 1/3, p.160b†

Ettco Tool & Machine Co.:
Tapping-threading unit for large holes, IE, 3/14, p.93

Euclid Electric & Mfg. Co.:
Sold, B, 2/14, p.52

Eutectic Welding Alloys Corp.:
Process torch gives close control on small, fine work, IE, 2/28, p.102
Two new welding alloys for build-up of worn parts (BuildTecs), 3/7, p.80

Ex-Cell-O Corp.:
Chrysler contract for electronic scanning equipment, 6/6, p.78
Cutting tool program hikes machine performance, 4/25, p.31
ECM and spline rolling machines, Tool Show, 4/18, p.145
Speed reducer, IE, 5/2, p.158
Tunnel type machine helps microhoning, IE, 5/9, p.83

Executive Jet Aviation:
Lassiter heads new jet taxi service, 1/24, p.56

Executone Inc.:
Special circuit links 2 oz pocket page to internal dial telephone, monitoring instruments or alarms, IE, 4/11, p.144

Exomet Inc.:
Hand torch hardens moldable exothermic, IE, 3/14, p.95

Explosiform Inc.:
Explosive forming bypasses water medium (Armco 17-7 PH formed into injector plates for rocket engines), 6/20, p.55 S-7

F

FMC Corp.:
American Viscose polypropylene strap, IE, 2/28, p.96
New firm by merger, 5/30, p.26

Fabricated Metal Specialties:
Sadataki designs insulation curtain for furnaces, 1/10, p.53

Fafnir Bearing Co.:
Steel companies asked (by Van Dorn) to test bearing steels, 2/28, p.45

Falstrom Co.:
Spotwelder, features adjustable throat depth, IE, 2/7, p.92

Fansteel Metallurgical Corp.:
Buys High Density, 5/23, p.52

Farrel Corp.:
Press brake bends plates, 3/7, p.82

Fate-Root-Heath Co.:
Load Monitor protects motors, IE, 2/28, p.101

Fawick Corp.:
Brakes for power presses need no adjustment, IE, 5/9, p.95
Directional control valve for low flow hydraulic systems, IE, 1/17, p.87
Disc brakes have opposed piston action, IE, 3/14, p.98
Sheave clutch design, Taper Lock, IE, 3/21, p.98

Fay & Egan Co., J.A.:
Greaves' Grindmil, IE, 3/14, p.101

Federal-Mogul Corp.:
Moves, 6/20, p.40

Federal Press Co.:
Adjustable bed feature on press line, IE, 1/24, p.119

Fellows Gear Shaper Co.:
Cold former for extruding gun barrels used at Winchester 5/9, p.40
Currie reports molding machine designs, 3/14, p.38

Fenn Mfg. Co.:
Tube blocks quick loading, IE, 1/10, p.81

Ferguson Machine Co.:
Machining heads, strike-spindle interconnected, IE, 5/30, p.65

Ferro Corp.:
Changes name of Tuttle & Kift Div., B, 2/28, p.32

Ferrotherm Co.:
Finned tube uses dissimilar metals, 1/31, p.46

Field Emission Corp.:
Dyke reports x-ray movies, casting and welding, 6/6, p.54g*

Finkl & Sons Co., A.:
Added power input for argon degassing system, TO, 4/18, p.20
Arc heating, gas stirring aid steel degassing process, 4/25, p.72†

Firth Sterling Inc.:
How to cure carbide tool breakage, checklist, 6/6, p.28
Slabs via flux melting, consumable electrode method, commercial production, TO, 2/14, p.36

Fischer & Co., H. G.:
Components for electrostatic spraying, IE, 3/21, p.102

Fletcher Works Inc.:
Buys Royersford Spring, B, 2/21, p.32

Flick-Reedy Corp.:
Fluid valve operators, Miller Fluid Power Div., IE, 6/13, p.146

Florida Steel Corp.:
Electric arc furnaces feed curved mold casting unit, 1/3, p.160

Fluid Controls Inc.:
Valve helps control movement of loads, IE, 3/7, p.142

Fluid Drive Engineering Co.:
Clutch-brake module has fluid drive, IE, 1/24, p.118

Fluorocarbon Co.:
Gasket material, glass-teflon, IE, 5/23, p.166

Ford Motor Co.:
A new era dawns at Ford computerized design and manufacturing techniques, report at SAE, 1/17, p.39
1967 prices highlight stockholder meeting, 5/30, p.56
Aftermarket pursued, parts and service items, 2/7, p.71
Air conditioner plant expanded, 4/4, p.80
Aluminum radiator prototype line, Dearborn engine plant, 5/2, p.137
Andy Olnik ponders color hues for models, cover pic, 5/23, p.99
Arjay Miller reports new technologies, NC, EDM, 3/14, p.17
Apartment show wagon entertainment center TV, 3/21, p.86
Auto part suppliers disturbed by Ford's new standard for phosphate and oil coatings, 3/21, p.18
Auto Safety Act: Bureau addresses Senate, seeks permissive legislation, 4/11, p.29
Auto design geared to superhighways for safety: Alexander, 3/21, p.85
Auto road tests, computer simulation next, 3/21, p.23
Auto safety notes, 4/4, p.80
Automatic engine assembly pays off, 1/24, p.93
Automatic feedback overrise aids diemaking, 1/17, p.46
Automatic indicator map on experimental Aurora, 3/21, p.86
Bergmoser outlines challenges facing suppliers, 6/20, p.91
Campers market, recreational vehicles, 5/2, p.138
Cast nylon gas tanks, experiment, 1/24, p.94
Dust collectors added to cupolas at Dearborn iron foundry, 4/4, p.80
Expansion at Sheffield, Ala., diecasting plant: Is Ford moving toward aluminum block? 4/25, p.95
Expands aluminum casting plant, Sheffield, Ala., 5/9, p.32
Iacocca: Auto sales exceed estimates, 1/24, p.18
Paints cured with electrons, 2/14, p.43
Paint curing process may speed auto production, 2/21, p.89
Powder metal parts usage growing, 3/21, p.62
Powder metal usage (XPL transmission) TO, 2/7, p.19
Scrap fragmentizer deals, Luria and Schlafer, 5/2, p.49
Scrapmen (ISIS) ponder impact of Luria-Ford deal, 6/20, p.32
Skilled worker shortage fought by Ford-UAW program, 2/14, p.35
Schwieder: What smog means to auto suppliers, 4/11, p.117
Sports model for 1967, Cougar, 3/28, p.134
Testing moves from proving ground to lab (Sorenson report), 6/13, p.127
UAW seeks whitecollar workers at Cleveland stamping plant, 3/21, p.27
UAW vote for whitecollar workers, Apr. 26, 4/11, p.19
UAW whitecollar drive, elections set, 4/25, p.19
UAW voted down, Cleveland stamping plant, 5/2, p.34
Workers win benefits in Canadian auto tariff case, (New Jersey test), 4/18, p.28

Fore Motor Cart Co.:
Electric cart hauls operator plus 700 lb, IE, 3/28, p.150

Formsprag Co.:
Clutch redesign, IE, 4/11, p.142

Fosdick Machine Tool Co.:
Jig grinder largest in Fosdick line, IE, 5/9, p.84

Foseco Inc.:
Sand binder, Bonaril II, IE, 3/7, p.136

Foster Wheeler Corp.:
Hydraulic press bends panel of tubes simultaneously, 2/14, p.52

Foundry Equipment Co.:
Moves to Cleveland, 5/16, p.32

Foxboro Co.:
Beta ray checks weight of thin sheet materials, IE, 5/30, p.68

Franklin Oil Corp.:
Pickle Brite process, acid additive and rinse material makes steel brighter, 4/11, p.82

Friden Inc.:
Automatic writers, add/tape punch units, IE, 4/4, p.95

Fulton Industries Inc.:
Buys Globe Imperial, 4/11, p.36

Fusion Inc.:
Automatic unit applies solder, flux, IE, 1/24, p.113

Futurmill Inc.:
Buys Cleveland Planer, 2/28, p.31
Displays saw blades 10 in. and a milling head, IE, 4/18, p.149
Wide speed range on milling head, IE, 3/28, p.154

Futterman Corp.:
Siegel: Industry shuns dumping proposal, 2/21, p.18

G

Gardner-Denver Co.:
Screw type compressor for in-plant needs, IE, 1/17, p.88
Semiautomatic drilling-tapping unit for Farmall tractors, 2/28, p.44

Garrett Corp.:
Gas turbine for mass transit market, 3/14, p.31

General American Transportation:
Parker-Kalon self-tapping screws extended to heavy gages, IE, 5/2, p.158

General Bearing Co.:
Roller clutches programmed to needs, IE, 6/6, p.99

General Corrugated Machinery Co. Inc.:
Sealer accommodates underfill, IE, 4/4, p.95

General Dynamics Corp.:
Contract award for desalting pilot plants via reverse osmosis, TO, 4/18, p.20
Convair: Electron beam welder x-rays its own welds, 1/17, p.47
Dynapak extrudes aluminum, 6/6, p.54j*
Dynapak 2045, 550 000 ft-lb of kinetic energy, 6/27, p.25
Electric Boat Div.: Thick steel shell for research sub, 6/6, p.44k*
Magnetic pulse metal forming outlook, TO, 4/4, p.17
Shotgun-gun barrel die arrangement for combining powder metals, 2/14, p.42

General Electric Co.:
Adhesive holds screws from vibration, IE, 6/20, p.114
Bench welder control panel, IE, 6/20, p.115
Computer designs die mold in minutes, Metallurgical Dept., 3/21, p.56
Computer for Dartmouth College, 5/9, p.30
Computer time sharing, renting service, 6/27, p.29
EB welders, Polly-Pattern-Generator, IE, 4/11, p.136

Code: *—*Metalworking Edition only;* †—*Metalproducing Edition only;* IE—*Industrial Equipment;* TO—*Technical Outlook*

Electrochemical process plates surfaces with diamonds, TO, 2/14, p.36
Electro-Press process in production of fractional and small horsepower motors, 4/18, p.33
Equipment analysis on breakdown schedules, programs maintenance, 1/17, p.48
Insulation in repairing random wound electric motors (Gegard), 6/27, p.25
Labor multiunion bargaining plan, 3/7, p.27; seeks NLRB ruling, 6/20, p.30
Labor talks stalled, Moore negotiator urges resumption, 5/30, p.13
Light operates switch, Tube Dept., TO, 4/18, p.20
Man-machine augmentor, called Hardiman, picks up heavy loads (ready by '68), first prototype for Navy, 2/14, p.90
Nuclear plant building, big business, 5/9, p.18
NC is ready for more metalworking jobs: GE task force report, 4/25, p.57 S-1
New dc mill motor line for steel processing and mining, 2/28, p.30
Powder coating benefits, 3/7, p.83
Quality control 'Bee Right' program, Foster Parents Plan, 6/13, p.45
Refractory metals may be answer to steel diecasting (Dr. Hurd report), 1/31, p.25
Refractory metals open door to ferrous diecasting, 5/16, p.25
Solid state switch, IE, 1/17, p.85
Switch has power handling capacity, IE, 1/10, p.85
Tape boosts magnet strength, 4/25, p.29
Thermoplastic (Noryl) suggests spectrum of uses, IE, 6/6, p.95
Tungsten alloy new, TO, 1/3, p.36
Transistor cost less in mass production, IE, 6/6, p.92
Tungsten furnace, Evendale plant, TO, 3/14, p.20
Tungsten tubes are seamless, TO, 1/24, p.19
Whiskers used for metal and plastic reinforcement, 5/30, p.32 S-6

Great Lakes Carbon Corp.:
Graphite mold material for casting iron and copper, 6/6, p.54k*

General Motors Corp.:
1967 prices highlight stockholder meeting, 5/30 p.56
Aftermarket pursued, parts and service items, 2/7, p.71
Buying of tool and die shop time for up to two years worries automakers, 2/21, p.17
Chevrolet adds powerplant to marine engines, 3/7, p.120
Corvair replaces Chevy II as problem car, 4/4, p.79
DAC-1, computer design system, 6/6, p.78
Detroit Diesel Engine Div., production NC machining, 5/23, p.47
Disk brakes optional on '67 models, 3/7, p.119
Employee suggestion system, goals, 2/7, p.44
Euclid Div. uses computer in packaging, TO, 4/11, p.19
Fluidic controls potential, 5/23, p.143
Frigidaire reliability testing, 2/28, p.45
GMC holemaking via NC for truck frame side rails, 2/21, p.55 (S-7)
Middle managers, development program-success, 1/3, p.83
Photogrammetry may shorten leadtimes, 6/6, p.77
Pontiac to show suppliers their role in the new zero defects program, 5/9, p.69
Processing determines fatigue life of product, TO, 5/23, p.33
Roche, progress to presidency outlined, 1/3, p.84
Saginaw Steering Gear Div.: Cold forming and welding universal joint spiders, new process is material saving, 2/7, p.48
Suggestions, new ideas (submitted by outsiders) screened by 4-man department, 2/14, p.125
Suggestion awards to employees, record number, 3/7, p.18

General Precision Equipment Corp.:
Buys Controls Co. of America, 6/6, p.32

General Refractories Inc.:
Buys Mining Div. of Great Lakes Carbon, 1/24, p.36; acquisition, 5/2, p.51

General Transducer Co.:
Temperature-sensor tip, soldering pencil, IE, 5/9, p.91

Geneva Industries Inc.:
Buys Republic Steel cabinet line, 5/16, p.32

Geoscience Instruments Corp.:
Precision saw cuts metallurgical specimens, IE, 2/28, p.97

Gettys Mfg. Co. Inc.:
Automatic tracer, IE, 3/21, p.104

Giannini Controls Corp.:
Two product lines—electromechanical impulse counters and timing motors with detachable gear trains, IE, 5/2, p.152

Giddings & Lewis Machine Tool Co.:
Automatic tool changer, IE, 4/18, p.148
May merge with Gisholt, 4/18, p.33

Gilman Inc., Russell T.:
Work positioning table, IE, 2/28, p.97

Gilman Engineering & Mfg. Co. Inc.:
Automatic assembly, six cylinder engines, on Transferlines, 1/24, p.93
Indexomatic drive system for rotary table assembly, IE, 6/27, p.91

Gilmore Industries Inc.:
Integrator reads, totals accurately, IE, 3/21, p.100

Gisholt Corp.:
May merge with Giddings & Lewis, 4/18, p.33

Gleason Corp.:
Buys interest in Techbilt, B, 4/4, p.28

Glidden Co.:
Tax managers who moved up the ladder, 5/2, p.92

Goddard & Goddard Co.:
Buys Harvill-Johnson, 5/9, p.31

Good Roads Machinery Corp.:
Forms Custom Metalworking Div., 5/23, p.52

Goodrich Co., B. F.:
Capital expansion, spending, 1/31, p.28
Jetliner brakes curb heat buildup, liquid cooled braking system, 2/21, p.63

Goodyear Tire & Rubber Co.:
Neothane caps check gear teeth decay, 4/11, p.54b†
Shock absorbers, rubber and steel, for Vietnam prefabricated piers, 4/18, p.35

Gorton Machine Co., George:
Display contour milling units, IE, 4/18, p.158

Graham Transmissions Inc.:
Mount fits motors to Graham drives, IE, 2/7, p.92

Gram & Westergaard Inc.:
Interrupted cutting success with titanium and tantalum alloyed tungsten carbide, 5/9, p.39

Graymills Corp.:
Pump-tank units for flushing purposes, IE, 1/24, p.117

Greaves Machine Tool Co.:
Tool grinds, mills flat face work, IE, 3/14, p.101

Grede Foundries Inc.:
Buys Midwest Foundry, 6/6, p.31

Green Refractories Co., A. P.:
New plant, Tex., converts sea water into periclase, B, 2/28, p.32

Gregory Industries Inc.:
Nelson automatic studwelder, IE, 4/25, p.106 and 5/9, p.39
Modular control for Nelson studwelding fastener system, IE, 5/23, p.159

Gries Reproducer Co.:
Automatic diecasting tech. to accommodate timer designed by Mallory, 5/2, p.96
How to make 0.009 in. holes (zinc alloy hub), 3/21, p.59

Grieve-Hendry Co. Inc.:
Combination truck-dolly loads electric cabinet oven, IE, 1/10, p.83
Electric walk-in oven up to 1000 F, IE, 6/13, p.142

Gripall Corp.:
Swiveled coil lifters, IE, 1/31, p.82

Groov-Pin Corp.:
Single and multiple cavity units speed small diecast items (Dyna-Cast machine), 5/9, p.44

Gulf & Western Industries Inc.:
Buys group of firms, 5/2, p.52
Merges Universal American, 5/9, p.31

Gulton Industries Inc.:
Digital width gage system for hot or cold strip, IE, 1/31, p.77

H

Hacker & Co., William J.:
Interference microscope checks out smoothness, IE, 3/28, p.159

Hagan Controls Corp.:
Electric actuators, IE, 1/3, p.187

Hamilton Standard: See United Aircraft

Hamilton Tool Co.:
Mold, die handler, IE, 2/21, p.108

Hammond Machinery Builders Inc.:
Electrolytic grinder for face mills, IE, 5/9, p.91

Handy & Hardy Inc.:
Buys Orange Roller Bearing, 1/24, p.35
Predicts silver stable price, 2/7, p.18

Hanna Co.:
Offers shock absorber, limit switch positioner, IE, 5/9, p.86

Hannifin Press Co.:
Press features, IE, 1/3, p.187

Harbison-Walker Refractories Co.:
Buys Tanner Plating, B, 3/7, p.36
Coke oven brick tailored to faster rate, IE, 3/7, p.146
Fused silicas vie for the hot jobs, 4/18, p.112

Hardman Co. Inc., H. V.:
Packaging trick, Dubble/Bubble for epoxy adhesives, IE, 6/6, p.88

Harnischfeger Corp.:
Buys Seren Machine Products, 3/14, p.32
Welding line augmented by equipment, wire, IE, 5/23, p.164
Wound rotor motors serve cranes, hoists, IE, 4/11, p.145

Harper Buffing Machine Co.:
Finishing machine features, Pancake Type Harperizer, IE, 6/6, p.96

Harris Mfg. Co. Inc.:
Chilling unit fitted to furnace line, IE, 5/23, p.158

Harron, Rickard & McCone Co.:
Ellison reports Russian tour, urges Iron Curtain trade, 1/24, p.33

Harshaw Chemical Co.:
Buys Crown Rheostat, B, 4/25, p.32
Nickel plating process, Nova, IE, 3/28, p.159

Hart Bros. Machinery Co.:
Market asbestos covered rolls for plate annealing furnaces, 3/21, p.33

Havir Mfg. Co.:
Improved OBI press rated at 30 tons, IE, 4/11, p.147
Steel frame in presses, IE, 5/16, p.96

Hazelett Strip Casting Corp.:
Continuous casting, Hazelett belt type unit, 3/7, p.74
Twin driveshaft and Varidyne drive system matched speed for continuous casting, aluminum strip, 2/14, p.99

Heald Machine Co.:
Air gaging (single jet) on ball tracks pares regrinding rates, 3/7, p.81
Healdrill machining center, IE, 3/14, p.95

Heidrick & Struggles:
Training executives via on-the-job courses, 3/21, p.18

Hendley & Whittemore Co.:
Combination machine tool shears meters notches, IE, 5/16, p.96

Hercules Powder Co.:
Name change to Hercules Inc., 5/16, p.32

Hewlett-Packard Co.:
Delcon's ultrasonic translator detects range of defects, IE, 3/21, p.103

Heyl & Patterson Inc.:
Buys B-C Pumps & Eng., 2/28, p.31

Hickok Mfg. Co.:
Hickok uses Lear jet taxi service, 1/24, p.56

Hill Acme Co.:
Face mill, economical, IE, 1/31, p.77
One pass process yields high polish stainless strip (jointly with Universal-Cyclops), 2/21, p.67
Shear line cuts bars to length automatically, IE, 3/7, p.133

Hill-Rockford Co.:
Riveter minimizes operator skill factor, IE, 1/3, p.192

Hirschmann Corp.:
Lathe programed through four functions, IE, 6/20, p.115

Hitco:
Buying Zila Mfg., 5/2, p.52

Hobart Bros. Co.:
Electrode wire sizes and varieties, TO, 2/28, p.20
Vertical plate welding via automatic unit lowers time, 4/11, p.137

Hoeganaes Sponge Iron Corp.:
Corrugated, fiberboard boxes for iron powders, 3/21, p.59

Hoffman Die Products Inc.:
Forging scale reduced by cleaner furnace atmosphere (golf club heads), 6/6, p.50

Hohlfelder Co. Inc., F.:
Barke Eng. milling machines, IE, 3/7, p.146

Holden Co., A. F.:
Brazing furnace, luminous wall design for Ford's aluminum radiator line, 5/2, p.137
Gas fired furnace keeps reducing atmosphere, IE, 6/6, p.94

Honeywell Inc.:
Buys Computer Control, B, 4/11, p.36
Buys Electro Instruments, 5/30, p.26
Divisions renamed in Industrial Products Group, 4/4, p.28
Manager training with job rotation, 1/3, p.130
Micro Switch, tiny toggle switches, IE, 5/2, p.158
Modular approach builds motor control to size, IE, 6/6, p.88
Navy contract for large torpedo, 1/17, p.29
Telescoping punch lessens thinout, TO, 3/21, p.20

Code: *—*Metalworking Edition only*; †—*Metalproducing Edition only*; IE—*Industrial Equipment*; TO—*Technical Outlook*

Hooker Chemical Corp.:
Parker Rust Proof: Tempering carburized parts improves phosphatizing results (No corrosion after exposure), 4/4, p.52

Houdaille Industries Inc.:
Buys Powermatic, B, 5/30, p.26

Houghton & Co., E. F.:
Displays oils, cutting fluids, cleaners, IE, 4/18, p.134
Emulsion cleaners ease power spray washing, IE, 4/11, p.147
Rust preventive, IE, 6/20, p.106

Houston Fearless Corp.:
Microfiche reader, IE, 6/20, p.105
p.105

Howe Richardson Scale Co.:
Reject device checks packaging line, IE, 2/28, p.101

Howmet Corp.:
Aluminum Div. buys coil annealing furnace, 6/13, p.52
Titanium castings, Misco tech, Mono-Graf, TO, 1/31, p.20

Hubbell Inc., Harvey:
Buys Euclid Electric, 2/14, p.52

Huber, Hunt & Nichols:
Continuous casting of steel is where L-D oxygen converter process was in '57, Kearns report, 3/7, p.72

Hughes Aircraft Co.:
Reflow lead solderer system dev., 5/23, p.47
Solid state welder line, IE, 6/20, p.112
System welds, brazes, solders, IE, 1/17, p.84

Hull & Co., R. O.:
Rustproofing oil resists salt spray, IE, 2/21, p.115

Hunter Spring: See Ametek

Huppert Co., K. H.:
Moves offices and plant, 6/20, p.40

Hutton Fabricating Mfg. Corp.:
Replaceable tips for oxygen lances, IE, 6/13, p.144

Huyck Metals Co.:
Feltmetal, fiber metal structures, 5/30, p.30 S-4

Hydrometals Inc.:
Buys Magnetic Windings, 4/18, p.36

Hydromotive Inc.:
Hydraulic hand pump, IE, 1/24, p.121

Hyster Co.:
Spacesaver lifttruck features, IE, 5/30, p.64
Trucks tote 6000 lb, IE, 1/3, p.184

I

IRC Inc.:
Name was International Resistance, 1/17, p.30

ITT Industries of Canada Ltd.:
Formed, 4/11, p.36

Ilikon Corp.:
Metal - lubricant blends, new family of self-lubricating alloys, 5/2, p.106

Imperial Oil Enterprises Ltd.:
Dartmouth Wks. pilot plant: Iron ore reduced in fluidized bed, Esso process, 1/3, p.160†

Imperial Smelting Corp.:
Dr. Temple reports smelting process, simultaneous for lead and zinc ore, 3/14, p.31

Indian Head Mills Inc.:
Buys Pyramid Mouldings, 6/13, p.52

Industrial Electronetics Corp.:
Bug on conveyor chain checks radio telemetry, 1/10, p.46

Industrial Filters Co.:
Roltray filter on centerless grinder curtails rejects, 4/18, p.112q*

Industrial Research Laboratories:
Buys Rose Alloys Inc., B, 3/14, p.32

Industrial Timer Corp.:
Circuitry simplified on tape programer series, IE, 4/4, p.99

Industrial Tool & Machine Corp.:
Elevating tables handle sheet stock, IE, 1/10, p.87

Ingalls Iron Works Co.:
Forms Ingalls Steel, 4/11, p.36

Ingersoll Milling Machine Co.:
Agreement with french firm for EDM, 4/25, p.20
Herbert-Ingersoll Ltd. formed in England, systems study approach to marketing, 6/20, p.30

Ingersoll-Rand Co.:
Hoist lines exhibited, IE, 5/23, p.162
Pneumatic system drives screws automatically, IE, 3/21, p.104

Inland Mfg. Co.:
Parts-Media separator, IE, 4/4, p.97

Inland Steel Co.:
Block defends caution in adopting modern steelmaking processes, strikes back at magazine, newspaper articles, 6/6, p.54m*
Cassell to head new USES program, employment needs, 3/14, p.26
Coal mining operation set for Southern Illinois, 1/17, p.29
Coolant system two-way (Dravo system), 5/16, p.35†
Elects executives, Jaicks president, 2/7, p.27
Jaicks rejects Washington price moves, 3/14, p.17
Indiana Harbor Wks., furnace equipment, air pollution controls, 1/10, p.35

Buys assets of Keller Products, 5/9, p.32

Roblin Steel Corp.:
Expanding, modernizing facilities, 5/2, p.51

Robotron Corp.:
Studwelder control safety feature, IE, 4/4, p.105

Rockwell Standard Corp.:
Acquisition of Kearney & Trecker considered, 4/4, p.18
Buys Instrument Div. of Latronics, B, 1/24, p.36
Colby: Mergers for money often fail, 2/21, p.18
Horizontal milling models, IE, 1/3, p.192
Regional stockholder meetings, 5/2, p.35

Rome Cable Corp.:
Steel cable trough used at Bethlehem mill construction, 5/16, p.36†

Ross Operating Valve Co.:
Air control valve for crowded control panels, IE, 5/2, p.152

Rotex Punch Co. Inc.:
Automatic punch press with tracer system, IE, 4/25, p.112

Roto-Finish Co.:
Compartmented indexing unit, IE, 6/13, p.146

Rowe Machinery & Mfg. Co. Inc.:
Straightening machine includes coil breaker, IE, 2/28, p.102

Royal Industries Inc.:
Buys Ride Around Mfg., 3/28, p.36

Russell, Burdsall & Ward Bolt & Nut Co.:
Acquires powder metal facilities (Sintered Products) of Eaton Yale, 2/7, p.28

Ryerson & Son Inc., Joseph T.:
Employee suggestion system, 2/7, p.45
Hayward predicts 1980 purchasing a network of electronic hardware, 2/14, p.49

S

SKF Industries Inc.:
Morris: Value analysis means quality, TO, 3/28, p.19

SKF Hellefors Steelworks:
Swedish process improves electric steel, 2/21, p.62

Sage Equipment Co. Inc.:
Heavy duty up-ender, IE, 2/7, p.95

Sandia Corp.:
Contacts, bounce and subsequent arcing eliminated, TO, 2/14, p.36
Nitrogen's role in burning of metal droplets, TO, 5/23, p.35
Test for organic paint, TO, 1/24, p.20

Scam Instrument Corp.:
Continuous temperature monitor, IE, 1/3, p.184

Schlafer Iron & Steel Co.:
Scrap clips processed for Ford, 5/2, p.51

Sciaky Bros. Co. Inc.:
EB welder for Philco (missile components), 3/21, p.58
EB welding equipment, IE, 5/23, p.167
Faster electron beam welding, 1/10, p.20
Infrared sensor, direct measurement of penetration in tungsten inert gas welding, TO, 4/11, p.19
Vacuum EB welder loads, welds, unloads in 10 seconds, 4/25, p.28

Scientific Data Systems:
Computer combines operations, IE, 4/4, p.94

Scovill Mfg. Co.:
Scovill - Schrader Div. creates autonomous divisions, 4/11, p.35

Screw & Bolt Corp. of America:
Buys Pilgrim Drawn Steel, B, 1/31, p.28

Scully-Jones & Co.:
Bendix may buy, 6/13, p.52

Scully-International Inc.:
Way bearings load life increased, IE, 5/2, p.155

Selas Corp. of America:
Furnaces provide cleaner forging atmosphere, reduce forging scale (golf club heads), 6/6, p.50
Natural gas in cupola, TO, 2/7, p.20

Selectrons Ltd.:
Wear surfaces deposited via spark discharge, IE, 1/17, p.84

Service Machine Co. Inc.:
Double crank OBI press for large work, IE, 4/18, p.148

Setco Industries Inc.:
Abrasive cutoff saw, foundry jobs, IE, 2/7, p.90

Sharon Steel Corp.:
Auto Baling operates scrapyard, Sharon siding, 6/6, p.54
Brainard strapping dispenser, IE, 6/13, p.148
Galva-Brite galvanized steel, IE, 5/30, p.68

Sheffield Corp.:
Air bearing table, IE, 1/31, p.78
Pneumatic strip chart recorder, IE, 2/21, p.110

Sheldon Machine Co., Inc.:
Design features on lathes, IE, 4/18, p.150

Shell Chemical Co.:
Epoxy tape adhesive, 1/10, p.48

Shetka & Sons, Geo.:
Drum sanders, 1/10, p.46

Sier-Bath Gear Co.:
Gear coupling teeth design, IE, 4/11, p.141

Signode Corp.:
Nylon strapping, Tension-Weld, 6/13, p.45

Siltronics Inc.:
ACU-Ram EDM machines, IE, 2/21, p.110

Silver & Associates Inc., G. H.:
Widget welder, IE, 2/14, p.142

Simmons Fastener Corp.:
Plastic clip anchors wire, cable, tubing, IE, 5/2, p.153

Simmons Machine Tool Corp.:
Skilled workers recruited overseas, Kurowski reports, 5/2, p.44

Singer Co.:
High intensity lamp aids fabricating, IE, 5/2, p.160

Skil Corp.:
Buys Maginniss Tool, B, 2/21, p.32

Sloan Instruments Corp.:
Solid state power control for vacuum deposition, IE, 3/21, p.102

Smith Corp., A. O.:
Automatic fuel recording system for fleet vehicles, TO, 1/17, p.20
Parts pressed from steel powder that's softer than powders from sponge iron, mill scale, or cast iron, 4/18, p.112d*

Snyder Corp.:
Machine mills axle forgings, IE, 3/21, p.98
Machining units fit special tools, IE, 5/16, p.96
Part control on unit handling exhaust manifolds, IE, 1/31, p.78
Special combines four operations for speed and flexibility, 6/13, p.87

Sola Basic Industries:
Forms Lindberg Hevi-Duty Melting Div. (combines firms from England-Germany), 5/16, p.31
Lindberg Hevi-Duty to close Downey, Calif., plant, 5/30, p.26

Soundcoat Co.:
Coating damps vibration, IE, 4/25, p.109

South Bend Stamping: See Allied Products

Southworth Machine Co.:
Mobile scissors table, IE, 1/3, p.186

Speedlap Corp.:
Stainless slurry pump, IE, 5/2, p.163

Speedring Corp.:
Measuring instrument equal to gage heads, IE, 4/18, p.146
Mechanical instrument gages diameters, IE, 2/28, p.105

Sperry Products:
See Automation Industries

Sperry Rand Corp.:
Remington Office System: Closed circuit TV combines with records system, IE, 4/4, p.94
Univac: Connector holes in circuit board made by punch press instead of drill, 1/17, p.49
Univac data communications unit, IE, 1/31, p.84
Univac random access storage system, IE, 5/9, p.84
Univac remote communications equipment, sends-receives, IE, 5/2, p.151

Square D Co.:
Limit switch for flush mounting, IE, 5/2, p.156
Tin plated aluminum resists corrosion, 2/21, p.31

Standard Alliance Industries Inc.:
Formed by merger, 5/23, p.52

Standard Forgings Corp.:
Merges with Transue & Williams to form new firm, 5/23, p.52

Standard Pressed Steel Co.:
Fasteners exhibited, IE, 5/9, p.87

Stanley Works:
Buys Volkert Stampings, B, 4/25, p.32
Strapping coils rods without damage with air operated tool, IE, 5/23, p.163

Star Cutter Co.:
Line gun drills, reams transmission gears, IE, 3/14, p.96
Single spindle gun drill, IE, 1/17, p.88

Steel Co. of Canada Ltd.:
1971 forecast, growth, 6/13, p.34
Erection of 73 coke ovens, Hilton Wks., 4/4, p.27
Galvanizing line added at Hilton Wks., 3/7, p.86
Joint firm (Baycoat) offers custom metal painting service, 4/11, p.28

Steel Co. of Wales:
Techniques speeds sulfur analysis, TO, 6/13, p.35

Steep Rock Iron Mines Ltd.:
Pilot plant makes special products from underground ores, (other than pellets), 4/18, p.36

Stellite Div.: See Union Carbide

Stewart-Warner Corp.:
Management Club, Alemite & Instrument Div., 1/3, p.114

Stocker & Yale Inc.:
Comparator lathe inspects 6 ft parts, IE, 2/28, p.104

Stokes Molded Products Div.:
See Electric Storage Battery

Struthers Scientific & International Corp.:
Buys Carile Corp., 5/30, p.26

Studebaker Corp.:
Auto production stops, facilities in operation, 3/14, p.19
StudeGrip Tire Stud Div. headquarters in Akron, 5/23, p.52

Superior Electric Co.:
Synchronous stepping motors, IE, 2/14, p.142

Superior Tube Co.:
Low alloy steel meets strength requirements, Type 4130, 4/18, p.112e*

Sutton Engineering Co.:
Sutton-Maust, roller leveler design, IE, 6/27, p.95

Swartwout Fabricators Inc.:
Buys Western Blower, B, 3/7, p.36

Swift & Co.:
Rust preventive oil not water emulsifiable, IE, 3/7, p.137

Swisher Grinder Div.:
See Universal Vise & Tool

System Development Corp.:
Abstracting scientific literature studied, TO, 5/2, p.34

Systems Engineering Laboratories Inc.:
Computers have new input-output structure, IE, 6/6, p.94

T

20th Century Machine Co.:
Gun drilling holes, beryllium processing, 6/6, p.42

20th Century Sales Corp.:
Light duty Drill-Matics, IE, 1/24, p.116

TRW Inc.:
Casting technology aided by computer analysis, AF sponsored, 6/27, p.61
Dr. Ramo: Coming—electronic aid for driver problems: 3/28, p.17
Expands facilities, Metals Div., manufacturing, 3/28, p.35
Navy contract for Mark 46 torpedoes, 1/17, p.29

Tally Corp.:
Data system priced for mass market, 2/21, p.30

Taper Micrometer Corp.:
Comparator measures to close tolerances, IE, 3/21, p.103

Tapmatic Corp.:
Attachment permits taps find their own way, IE, 1/3, p.193

Taylor-Winfield Corp.:
Expansion forming with flexible bladder, 1/10, p.52

Teledyne Inc.:
Buying Vasco Metals, 3/28, p.36

Temescal Metallurgical Corp.:
Electron beam advances reported, 4/18, p.17
Pipe and tube making via EB under study, 5/2, p.33
To produce electron beam welding equipment for pipe and tubing firms, 4/11, p.17

Templeton, Kenly & Co.:
Buys Pine Inc., B, 2/14, p.52

Tenna Corp.:
Studwelding radio chassis improves storage, 1/10, p.47

Tenney Engineering Inc.:
Ultraviolet light aids photopolymerization, IE, 5/23, p.158

Tescom Corp.:
Miniature torch gives needle point flame, IE, 4/11, p.136

Texaco Experiment Inc.:
Boron filaments developer, 5/30, p.28 S-2

Code: *—*Metalworking Edition only;* †—*Metalproducing Edition only;* IE—*Industrial Equipment;* TO—*Technical Outlook*

Texas Foundries Inc.:
Winners of MFS design contest: Malleable iron allows simplified design, 4/25, p.68

Thermal Equipment Co.:
High pressure jet system provides rapid, uniform quench, IE, 1/3, p.190

Thermo-Electric Co. Inc.:
Sensitivity feature of temperature controller, IE, 5/30, p.65
Thermocouple connector units ISA color coded, IE, 5/23, p.160

Thomas & Skinner Inc.:
Supplier of magnetic materials, 1/10, p.40

Thriftmaster Products Corp.:
Multiple spindle boring head fits milling machine, IE, 3/14, p.93

Timken Roller Bearing Co.:
Roof adds efficiency to arc melting furnace, 2/14, p.94
Suggestion systems, employee and management, 2/7, p.45
Tapered bearing has integral locking collar, IE, 2/14, p.149

Tool Specialists Inc.:
Miniature drill heads are gear driven, IE, 4/25, p.112

Torrington Mfg. Co.:
Crossflo air moving unit, IE, 5/2, p.154

Tote Systems:
How tin mill cut chemical handling costs, 2/21, p.64

Towmotor Corp.:
Adds five middleweight lift trucks, IE, 2/7, p.94
Fork truck hook transports molten aluminum, IE, 2/7, p.86
Ford truck for small spaces, IE, 3/21, p.97

Transue & Williams Steel Forging Corp.:
Merged to form new firm 5/23, p.52

Tru-Tork Inc.:
Clyde Eng. assembly machine feeds torques, three nuts, IE, 1/24, p.118

Turner & Seymour Mfg. Co.:
Connecticut Special Machine device straightens pins, rods, IE, 1/24, p.118

Twin Disc Clutch Co.:
Neothane caps check gear tooth decay, 4/11, p.54b*
U-joints replace nylon couplings on roll drive for steel mill, 4/11, p.54c*

Tyco Laboratories Inc.:
Buys Industrionics, 3/28, p.36

Tysaman Machine Co.:
Abrasive cutoff unit, IE, 3/14, p.95

U

Unarco Industries Inc.:
Crane (Palstak) needs aisles 4 in. wider than pallet, IE, 6/6, p.87

Union Carbide Corp.:
Additive improves Phenoxy resins, IE, 2/28, p.105
Forms Electronics Div., 6/13, p.52
Forms Nacon Corp. with Simplex Wire, 5/23, p.52
Gas autoclave is P/M research tool, 5/9, p.30
Stellite's new cold rolling mill, Kokomo, Ind., means more alloy sheets for aerospace, 4/11, p.39*
Stellite Div.—porosity in metal sheets controlled with powder metal process, 5/9, p.29
Vacuum vessel for Oak Ridge lab, TO, 2/28, p.20
See also Linde Div.

United Aircraft Corp.:
Convertible plane means passengers by day, cargo by night, 1/17, p.30
Hamilton Standard: Medium vacuum EB welding slated for high production, 6/6, p.54e*
P&W (Leon Cote), higher amperage key to ECM, 3/14, p.17
P&W researcher report: Cooling process upgrades alloys via controlled crystal growth, 4/25, p.65

United Greenfield Corp.:
GM of the tool producers, company setup, 3/14, p.44
Tests may bring better general purpose drills, report of Tichy and Kushigian, 4/18, p.112e*

U. S. Burke Machine Tool Co.:
Three additions to milling machine line exhibited, IE, 4/18, p.145

U. S. Electrical Motors:
Fractional vs drive tailored to OEMs, IE, 1/10, p.87
SCR drive, top rating, IE, 6/13, p.148

U. S. Leasing Corp.:
Walker: When money gets tight, cash in on leasing (equipment buying), 2/7, p.46

U. S. Metals Refining Co.:
Air pollution controls, copper refinery, 5/16, p.50

U. S. Steel Corp.:
Annual meeting in Cleveland: Containerization new market for steel, 5/9, p.27
Appointments include Larry assistant to Blough, 1/3, p.33
Buys J & L's plant site, Tex., 2/28, p.31
Capital spending trimmed by $100 million, 5/2, p.33
Displays ideas for auto applications (Innovations), 6/20, p.39
Duquesne Wks. electric furnaces pour giant ingot, 6/20, p.40
Forms USS Chemicals Div., B, 1/31, p.28
Gary mill to roll paper-thin steel, 3/21, p.35
Homestead facilities improvements, stainless steel and special alloy plates, 2/21, p.31
Lorain land sought, 6/13, p.34
Modernization program, $600 million yearly, planned facilities, 1/31, p.24
Price hike—width, thickness extras on plates, 3/7, p.28
Published price lists dropped, nails and wire rods, 3/7, p.28
South Wks. gets three basic oxygen furnaces, 1/31, p.27
Supply Div., pneumatics for portable strap sealer, IE, 3/14, p.93
Ultrapure metal: pic shows metal with no visible means of support melted in levitation unit, Monroeville lab, 2/7, p.38
Vacuum carbon deoxidation unit purges gases from liquid steel (pic), 3/28, p.36
Wiebel addresses Investment Analysts on steel's outlook, 6/13, p.43

Unitek Corp.:
Autopsy Probe for semiconductors, 5/9, p.32
Flatpack unit makes up to 300 welds per minute, IE, 1/24, p.119

Univac: See Sperry Rand

Universal American Corp.:
Merging, 5/9, p.31

Universal-Cyclops Steel Co.:
One pass process shields high polish strip (jointly with Hill Acme, 2/21, p.67

Universal-Cyclops Specialty Steel Div.:
Buys Vulcan Works to operate as Aliquippa Forge Shop, 2/28, p.32

Universal Engineering Co.:
Acura-Grip toolholder displayed, IE, 4/18, p.161

Universal Marion Corp.:
Marion Power Shovel, self-propelled land machine weighs 13,500 tons (fluxed core wire cuts welding time), 4/11, p.33

Universal Match Corp.:
Winspeed SCR controls fit several drive setups, IE, 4/11, p.145

Universal Vise & Tool Co.:
Swisher surface grinder, IE, 1/3, p.184

Urasco Inc.:
Eddy current checks flaws, IE, 1/10, p.87

Utah Construction & Mining Co.:
Dykstra reports Australian mining industry problems, 4/18, p.33

V

V & O Press Co. Inc.:
Presses with lefthand drives, IE, 4/11, p.142

Vacco Industries:
Was Vacco Valve, 5/23, p.52

Vacu-Blast Co. Inc.:
Buys Tronic Corp., 2/28, p.31

Vac-U-Lift:
Vacuum stacker, IE, 2/28, p.105

Vapor Corp.:
Merges with American Meter, B, 2/7, p.28

Veet Industries Inc.:
Positionmaster aids drills, bores, IE, 4/18, p.152

Vibration Switch Inc.:
Vibration monitor and malfunction detector, IE, 6/27, p.93

Vickers Inc.:
Hydraulic motor, new line, IE, 4/11, p.141
Hydraulic power and control equipment, IE, 5/9, p.89
More ability in panel for hydraulic control, IE, 3/7, p.146

Visi-Trol Engineering Co.:
Assembly line table, IE, 3/21, p.103

W

Waber Tool & Engineering Co.:
Saw slices metals, IE, 2/28, p.105

Waldron-Hartig: See Midland-Ross

Wales-Strippit Co.:
Labor pact included on-the-job training, 4/25, p.29
NC hole puncher and notcher, IE, 3/14, p.91
Punches 3½ in. holes in 10 gage mild steel, IE, 2/7, p.85

Wallace Expanding Machines Inc.:
Roper at SAE: Stretch forming potential, 80% of auto stampings, 1/17, p.71

Wallace Supplies Mfg. Co.:
Hydraulic staking press, IE, 1/3, p.192
Square structural pipe in benders, adds rigidity, IE, 1/31, p.80

Warner & Swasey Co.:
Buys Balas Collet, B, 2/14, p.52
Wiedemann punch press turret style, IE, 4/18, p.146

Warner Electric Brake & Clutch Co.:
Automated processing applications, modules, 5/30, p.21

Warren Tool Corp.:
Buys Columbian Vise, 5/23, p.52

Washington Steel Corp.:
Buys Calstrip Steel, 2/7, p.26

Waukesha Motor Co.:
Unveils V-8, V-12 diesel engines, 4/18, p.29

Wean Engineering Co.:
Shearing knife reduces wear, noise level, IE, 1/3, p.183

Weldotron Corp.:
Sensomatic control, die and punch protection, IE, 3/7, p.139

Wellman Bronze & Aluminum Co.:
Changes name to Wellman Dynamics, 2/7, p.28

Wells & Sons Inc., W. F.:
Bandsaw, production benefits added, IE, 2/7, p.85

Wer Industrial Corp.:
Electronic servodrives, IE, 5/30, p.67

Wesflex Machine Co.:
Production drilling machine, IE, 2/14, p.147

West Instruments Corp.:
Automatic controller on furnace, R&D at Allegheny Ludlum, 3/7, p.80
Scanner supervises up to 25 thermocouples, IE, 1/10, p.86
Solid state thermometer accuracy, IE, 4/4, p.105

Western Mfg. Co.:
Four speed transmission rated up to 100 hp, IE, 3/28, p.154

Westinghouse Electric Corp.:
Burnham: Cost improvement programs can plug the drain on profits, 4/11, p.28
Control system directs transfer machines (codeveloped with Buhr), IE, 1/17, p.84
EB welder-portable, used at NASA Marshall Space Flight Center, 4/11, p.76
Labor demands, Independent Salaried, 6/27, p.17
Lunar TV camera for NASA, TO, 1/24, p.19
Magnetic roadbed, test platform demonstrates, 1/10, p.40
NC controls with integrated circuits for 3-axis machine tools, 6/20, p.17
Parallel shaft reducers, IE, 2/21, p.107
Plutonium fuel in nuclear powerplants, experiment, 1/31, p.39
Product Cost Laboratory, 6/6, p.17
Programmed logic control system for transfer lines, 6/13, p.49
Solid state relay reliability, IE, 2/7, p.93
Static drive controls dc motors to 500 hp, IE, 3/28, p.150
Thyristor power equipment for West Coast mill, 1/17, p.52
Transportation problems handled by new group, 2/7, p.27
Tube Div., iron chamber longer, TO, 4/25, p.20
Ultrasonic cleaner, removes salts, oils in one operation, IE, 1/3, p.189
Ultrasonic tester aids production brazing, 6/20, p.31
Welding system, semiautomatic, IE, 1/31, p.81
Welding system has easily attached accessories, IE, 4/11, p.141
Welder-semiautomatic has solid state rectifiers, IE, 4/25, p.107
Whitmore: EDP software suppliers behind times, 3/14, p.30

Wheelabrator Corp.:
Coolant pump system, oil hole drills, IE, 5/16, p.98
Evacuation system filters Bethlehem furnace exhausts, 1/24, p.36

Wheeling Steel Corp.:
Simon defends Crucible management in merger, seeks to oust dissident stockholder group headed by Rubin, 1/24, p.27

Whirlpool Corp.:
Dryer drums processed on pit mounted expanding machine, 1/10, p.36
Expansion forming method in producing washing machines, 1/10, p.52

White, S. S.:
Air tool cleans wire wound potentiometers, 1/10, p.47

White, Weld & Co.:
Iglehart: Economic vigor through 1970, 6/20, p.35

Whitehead & Kales Co.:
May merge, B, 3/14, p.32

Whitford Chemical Corp.:
Fluorocarbon lubricant adds life to plastics, IE, 6/6, p.95

Whiting Corp.:
Channel type furnaces built for auto industry, melting gray-ductile iron, 1/31, p.27

Whitney Mfg. Co., W. A.:
Container fabricating problem solved by L-shaped gang punch (for shipping missiles to bases), 2/21, p.61

Hydraulic press, deep throat design, IE, 4/18, p.153
Hydraulic shear has injector type tooling, IE, 2/14, p.141

Wilputte Coke Oven Div.:
See Allied Chemical

Winchester-Western: See Olin

Whittaker Corp.:
Buys facilities from Titanium Forming Div., 3/14, p.32

Wilmot Castle Co.:
Buys R. G. Wright, 5/30, p.26

Wisconsin Centrifugal Inc.:
Changes name, 2/28, p.32

Wisconsin Centrifugal Foundry Co.:
On-site x-ray spectrometer checks castings, 1/10, p.46

Wisconsin Machine Corp.:
Power train protection on press brake, IE, 3/7, p.141

Wood's Sons Co., T. B.:
Sight lubricating oiling system, IE, 5/2, p.163

Woodward Corp.:
Buys Golden Foundry, 6/20, p.40

Worcester Wire: See National-Standard

Worthington Corp.:
Blackout on East coast ups future of electric generating equipment, Nunlist reports, 3/7, p.19

Worthington Controls Co.:
Cryogenic coupling, benefits, IE, 1/17, p.87

SUBJECT INDEX

A

Abrasives: See Grinding, Polishing

Accidents:
Emotional factors lead to accidents, 9/5, p.19

Adhesives: See Joining

Aerospace Industry:
Adaptive control helps gigantic resistance welder through aerospace jobs (STEEL Feature), 8/29, p.35
Profile milling machine shortage looms in aerospace: AIA task force report (executives-AF group which substitutes for AF Ad Hoc Committee), 9/19, p.112
See also NASA
See also Space Materials

Africa:
Low carbon ferrochromium produced at South African plant, 7/4, p.34
Plant makes South Africa net exporter of ferrochrome (materials report), 7/4, p.34
South Africa studies nuclear energy for desalination, 7/25, p.29
Speaker at Geological Society, S. Africa: Prices, politics plague mineral exploration, 7/25, p.27
Stainless plant for S. Africa, built by Southern Cross Steel Ltd., S'1, p.15

Aircraft:
1980 airplane projected by Schriever (AF), 9/19, p.37
AF sponsors research on dispersion strengthened metal alloys for structurals, 10/24, p.30
Air gulping machine propelled on electromagnetic track inside a tube, 11/28, p.13
Airport visual routing system rather than radio, 8/22, p.21
Boeing 707 jetliners, blind rivet assembly, 9/12, p.55
British-French Concord SST checked out by 'convective' test, computer, TO, 7/11, p.19
C-5A, giant military transport, has commercial outlook, 8/8, p.25
Civilian planes, output rises, 9/19, p.39
Engine-in-wing plane proposed, 9/19, p.43
Glass aircraft wings wound from glass filament, 7/18, p.98
Helicopter-rigid rotor gets FAA ok, 8/1, p.13
Jet returning from high altitude warmed by quartz heater, 8/15, p.17
Skidding controlled electronically on jets, 11/7, p.24
Soviet SST development lags, TO, 7/4, p.10
SST: GE can make engine with thrust of 67,000 lb, 12/5, p.19
SST construction: Boeing's titanium processing facility, Seattle, 12/12, p.24
SST will be moneymaker, Lockheed speaker, 10/3, p.13
Supersonic aircraft of plastics and metal fastened with adhesives, forecast, 10/24, p.30

Air Freight:
Air cargo is big business, German line reports, 12/19, p.25

Air Pollution:
Air control equipment at three Ohio plants, 8/29, p.15
Antipollution equipment too costly for Pennsylvania firms, 11/14, p.16
Foundries find smallness bad in solving problems, 10/31, p.21
Government air pollution chief calls for complete elimination of toxic matter from autos, 12/26, p.43
Glow plugs of cermet aid auto smog problem, 11/28, p.17
Intalco Aluminum smelter, plastic scrubbers atop potlines for air pollution control, 9/5, p.32
Limestone may capture sulfur dioxide from burning coal or oil, 12/26, p.9
Management involvement, new dimension for managers, Impact Report, 10/17, p.37

Alloys:
Aluminum alloy (X2021) improved, 12/5, p.23
Aluminum alloy, heat treated, welded (NASA), 12/12, p.90n*
Barium-high purity produced for three industries, 7/4, p.37c*
Columbium strengthens steel (Japan), 8/1, p.17
Columbium-base alloys for aerospace, 11/21, p.27
Dispersion strengthened metal alloys for structurals sponsored by AF, 10/24, p.30
Magnesium alloy stronger, new dev., 9/5, p.23
Magnesium alloys ductile, 10/10, p.27
Powder alloys offer high precision, Pittsburgh Plate Glass, 11/7, p.53
Titanium alloy high temp. for jet engines, 7/4, p.16
Titanium alloy lightens jet engines, TO, 7/18, p.36

Alphatized Steel: See Steel Alloys

Aluminum Association:
Ingram (president) forecasts industry growth, five markets, 11/28, p.51

Aluminum Markets:
Aluminum capacity (U.S.) present and projected, 7/4, p.28
Aluminum earnings reported by three producers, 2nd quarter, 7/25, p.17
Aluminum shipments, ingots and mill products: Up, Up, Up (STEEL Feature), 7/4, p.25
Aluminum shipments (distributors) to rise, 7/18, p.46
Aluminum: Growth in five prime marketing areas forecast, 11/28, p.51
Electrical market grows, 8/8, p.20 and 10/31, p.19
Molten aluminum market, primary and secondary, on upswing, 10/10, p.29
Norway vies for aluminum market, 8/1, p.20
Price increase needed on semifabricated aluminum, forecast, 12/5, p.21
Railroad equipment usage, 9/5, p.21
Trucks and tractors, usage, 9/19, p.39

Aluminum Plants:
Harvey Aluminum's new rolling mill, Ky., 9/26, p.22
Iceland plant agreement, 9/26, p.18
Industrialists from San Francisco and the South plan aluminum plant, Southeast, 9/12, p.25
Intalco achievements, potlines, 9/19, p.39
Jamaican alumina plant, details, 8/8, p.24
Predictions: Direct reduction of bauxite to aluminum foreseen; plants closer to big city markets with cheaper nuclear energy; aluminum particle sheets from pellets to eliminate ingot phase, 9/19, p.40
Reynolds predicts direct reduction of aluminum, 10/3, p.17

American Die Casting Institute:
Industry report, trend to larger shops (sophistication and science), 10/3, p.44
Speakers predict: Molten aluminum market, zinc imports, 10/10, p.29 and p.30

American Institute for Imported Steel:
Kurt Orban: Steel import trade, 10/3, p.39

American Iron & Steel Institute:
Roche: Pinpoints import problems, 9/26, p.13 and 10/3, p.38

American Machine Tool Distributors Assn.:
Customer-slow pay concern to toolbuilders, 10/31, p.15

American Management Assn.:
Plans learning center, N. Y., 12/19, p.25

American Physical Society:
Control thermonuclear reaction, ionized deuterium in magnetic bottle, 11/7, p.25

American Production & Inventory Control Society:
Korbert speaker: Does your scheduling system need an overhaul? 10/3, p.42

American Society for Metals:
Metal show highlights, Chicago's McCormick Place, 10/24, p.83

American Society for Quality Control:
Certification program for quality control engineers, 8/15, p.29

American Standards Assn.:
Uniformity of building parts urged, 8/15, p.13

American Welding Society:
Ready (Kaiser Aluminum) address, a look at 1975, 10/17, p.17

Appliance Industry:
Cost-price squeeze tightens materials battle, plastics gain (STEEL Feature), 7/25, p.47
Forms new trade group, 10/3, p.20

Argentina:
Labor ignores guidelines, 9/12, p.28

Associated Industries of Cleveland;
Cleveland employers' average wage, 10/24, p.28

Association of Iron & Steel Engineers:
Cleveland show: Preview of coming attractions, 10/10, p.76

Atomic Energy:
A compact reactor for acid recovery systems now available (materials report), 10/24, p. 136
AEC boring tool developed by ACF Industries, 7/18, p.51
AEC hearings: Seeking sufficient uranium (coal group), 8/29, p.52d*
AEC process for wrought beryllium, cast-and-roll tech., 8/29, p.16
Breeder reactor, fast neutron, at Monroe, Mich., powerplant, 8/22, p.23
Coal vs nuclear powerplants, 12/12, p.24
Controlled thermonuclear reaction (ionized deuterium in magnetic bottle) heavy hydrogen, 11/7, p.25
Nuclear fuel enrichment data sought by industry (AEC's gaseous diffusion plants), 8/29, p.52d*
Nuclear engine, stainless steel exhaust duct tested, 9/12, p.27
Nuclear powerplants, Fact Book statistics, 11/14, p.17
Nuclear reactor materials, nickel base alloys, 11/28, p.18
Radioactive contamination reagent, 8/22, p.23
Reactor vessel assembled on-site, 9/12, p.25

Australia:
Auto markets, 9/19, p.44 and 11/14, p.19
Auto safety requirements up prices, 8/1, p.20
BHP sees world surplus in steel capacity continuing, 11/28, p.19
Coal sales to Japan, 11/14, p.19
Copper price up 44%, 8/15, p.13
Direct reduction, gas fueled steel mill planned, 10/3, p.19
Electricity requirements, 10/17, p.19
Japs to build blast furnace, 10/17, p.19
Japs may buy iron ore, 8/15, p.16
Japs to buy Australian ore (Amax and Dampier Mining project), 11/7, p.23
Nationalization of steel industry urged by Labor Party, 7/11, p.17
Nickel discovery spurs mining companies probe, 8/29, p.16
Nickel deposits in Western Australia, centered in Kambalda, 11/21, p.82
Port Talbot boon for iron ore firms, 9/19, p.44
Steel tariff waiver asked by Queensland Alumina, 9/26, p.19
U. S. economy watched, 9/19, p.35
U. S. expenditures in mining-smelting industries, 12/26, p.11
Zinc found near Rum Jungle, 9/26, p.19

Automation:
Automatic milling of giant coils in one pass at Torrington, 12/26, p.24
Automated roll forming line converts sheet steel into shapes, Granite City Steel, 11/14, p.49
Chase Brass' fully automated tube mill, lengths up to 20,000 ft available, 11/21, p.66
Detroit style automation via transfer lines (bombmaker), 9/26, p.37

Automotive:
4-door sedans (checklist chart), 1967 accessory prices, dimensions, engines, 10/31, p.86
1966 winners, losers assessed by Detroit, 7/25, p.79
1967: Early forecasts tag it model year as rerun of '66, 8/15, p.63
1967 previews, automen take stock, 9/26, p.67
1967 sales forecasts, Chrysler, Ford comments, 12/12, p.123
Aftermarket (parts) sales to climb, 8/8, p.24
Aluminum radiator, Chrysler, 9/12, p.100
AMC image changing style for '67, 10/3, p.70
AMC: Management changes indicated (Adamson, Isbrandt), 10/3, p.69
AMC: Purchase analysis, are you paying too much for purchased parts? 9/12, p.50
Auto accident, video tape recorder automatic, TO, 7/25, p.20
Auto highway deaths, chart, 7/18, p.122
Auto hub caps plated chrome over stainless (Eaton Yale), 9/19, p.120a*
Auto rust cut with salt additive (Carguard), 9/12, p.27
Automotive service, big business, 9/5, p.19
Blow molding machines on order for plastic fuel tank, 8/8, p.97
Buick confirms two V-8 engines for '67, 8/29, p.76
Chevrolet confirms sport model, Camaro, 7/11, p.80
Chevrolet's Camaro sales, 12/5, p.116
Chrysler pushes, praises suppliers (Townsend comments), 9/12, p.99
Chrysler: Dec. 1 decision day (new president), 11/14, p.85
Chrysler management changes: Townsend chairman, Boyd president, 12/12, p.123

Diagnostic clinics seek new test equipment, 7/18, p.121
Disc brake volume to triple in '67, 12/19, p.69
Electric autos, forecasts specs, 10/24, p.31
Electric car technology ready, 10/31, p.20
Electric cars spark chatter, but production way off: GM releases 'state of the art' report on Electrovair II, 11/7, p.85
Engines for 1967-68, Detroit prepares to unveil, 7/11, p.78
Exports up 1/7%, 8/8, p.23
Ford's automatic differential assembly line, 9/26, p.68
Ford lays groundwork for metric system, 10/10, p.117
Ford tests gas turbine for truck (707 engine), 10/17, p.13
GE enters automotive electronics field, 12/26, p.43
GM's Acurad (see Diecasting)
GM-AC Spark Plug: Supplier Council meeting, 9/19, p.195
GM enters auto scrap business, buys Patros patent rights, 12/12, p.121
GM's Detroit Diesel, gas turbine research, 11/21, p.27
GM's market share slips, competition, 8/22, p.71
GM: Oldsmobile's new automatic cylinder block machining line, 8/29, p.75
GSA revised list of standards for '68 models (awaiting Safety Act), 8/1, p.56
Hubcaps, chrome plated over stainless, 9/19, p.121*
Imports, record year, 8/15, p.15
Integrated circuits for autos shape up, 10/24, p.167
Market penetration shift (GM, Ford, Chrysler, AMC), 8/22, p.71
Plastic extrusion forging-auto parts tested at Ford, Oldsmobile, 10/10, p.78
Plastic gains in '67 cars, 11/14, p.15
Plastic used in Piranha coupe-two seater, 12/12, p.123
Plastic wheel cover, Kelsey-Hayes, 8/22, p.71
Road condition data (DAIR), GM Research Lab road-to-vehicle communications system, 7/25, **p.80**
Safety—collapsible front end by '71, TO, **7/25, p.18**
Safety—snooze alarm warns drivers, 8/22, p.72
Safety devices, Detroit waits for design standards, 12/5, p.21
Safety standards: Heat's on Detroit as Washington calls shots (summed up by Ford's Arjay Miller), 12/26, p.42
Safety standards for 1969 (GSA-Abersfeller), 10/17, p.74
Safety standards boon to plastics, 12/12, p.23
Scrap processing (see Scrap)
Soldered joins overflow tubes to radiator caps, 8/1, p.57
Specialty car market planned, 9/5, p.62
Sports cars, market opportunity, 12/5, p.21
Subcompacts (imports) tempt Detroit, ACM may adopt, 11/28, p.83
Suppliers take stock after production cutbacks, 12/5, p.115
T-Bird to get plastic fuel tank in 1968, 8/8, p.97
Tool, die shops bustling with early placements, 9/5, p.61
Truck mufflers of alphatized steel, 9/19, p.43
Turbines vs diesels: The gap narrows, 10/31, p.84
Turbine vs diesel engines, 11/21, p.129
Vehicle identification number (VIN) plates, 9/12, p.24
Vendors like AC's supplier council idea, 9/19, p.195
Volkswagen annual spending in U. S., 7/11, p.78
VW imports to rise, 9/26, p.17
World car production, U. S. accounts for half, 8/1, p.57

B

Balance of Payments:
Trade surplus estimate, NFTC, 7/11, p.18
Viewed by Kurt Orban (imported steel), 10/3, p.39

Bars:
Growing market for reinforcing bars, highways, 11/21, p.65

Battelle Memorial Institute:
How costly to clean water: 8/15, p.20
If it looks impossible, try high strength steel: A. M. Hall, 8/22, p.27
Magnetic-electric material, Swiss lab, TO, 7/4, p.12

Batteries:
Solid state battery dev. by scientists, 10/10, p.27
Zinc-air batteries can power electric vehicles, 9/12, p.28

Bearings, Bushings:
Acoustic probe detects early sign of failure, 9/12, p.23
Ausformed bearing rings, GE-Flight Propulsion Div., 10/17, p.16
Bronze-tin-lead bearings replace steel rollers in Saturn transporter, 12/26, p.9
Gas carburizing furnaces add reliability to railroad roller bearings, 8/29, p.40
Hexagonal crystal, bearing metal, 8/15, p.17
Spiral groove bearings, Sweden, 10/24, p.29
Steel balls for crusher and bearing use formed via continuous rolling machine, England, 8/29, p.19
Teflon ball aids bearing lubrication, 8/29, p.17

Benders: See Forming, Bending

Beneficiation: See Iron Ore

Beryllium:
Beryllium aims at structurals field, 10/10, p.27

Blast Furnaces: See Steelmaking

Boat Industry:
Pleasure boat sales, 9/26, p.17

Bomb Bodies:
Bombmaker (Norris Industries) automation via transfer lines, 9/26, p.37

Bonding: See Joining

Books, Booklets:
A country called corporate America: Andrew Hacker, **8/15, p.9**
Directory for sheet and strip (selector), U. S. Steel, 7/11, p.54
Forging industry handbook, 10/24, p.202
Nuclear power projects, Fact Book, 11/14, p.17

Boring: See Drilling, Boring

Brass Mill Products:
Demand weak in spots, 10/3, p.13

Brazing: See Joining

Bridges: See Construction

British Hydromechanics Research Assn.:
Study pipeline for iron ore slurries, 12/12, p.21

British Iron & Steel Research Assn.:
Carbon content analyzer (BISRA), 11/21, p.30
Spray steelmaking process dev., 10/24, p.25

Bureau of Mines:
Lasers extract coal chemicals, 12/12, p.25
Low grade taconite upgraded with auto scrap, Minneapolis experimental plant (funded under Solid Waste Disposal Act), 8/1, p.34
New ore extraction process, 12/12, p.24
Solvent extraction to separate copper and zinc without use of smelter, 12/19, p.27

Bus Bodies: See Galvanized Steel

Business & Defense Services Adm.:
Molybdenum surplus sales planned, 12/19, p.26
Nickel strike forces set-aside; firms affected, 8/8, p.21

Business (Economy):
1966: 2nd half activity forecast by panel of business leaders sponsored by Chicago Bank (pic, Block and Eberhard), 7/11, p.27
1967: Watch for illusions in economic outlook, 10/24, p.171
1967 viewed by Washington (CEA Ackley, Treasury Wallace), 10/17, p.55
1967 viewed by Washington (McNamara, Paradiso, etc.), 11/28, p.60
1967: Economists take dim view, 12/19, p.45
Australian views U. S. economy, 9/19, p.35
Borg-Warner (Steg) views economy with optimism, 9/19, p.37
Business boom, why managers sweat in period, 7/11, p.81
Economy strong, but losing zip, 7/25, p.83
Equipment buyers display caution, 11/28, p.87
Inflation blamed by public on government, 10/31, p.17
Metalworking, 1966 record year, 11/14, p.89
Metalworking managers outlook for 1967: Now's the time to improve profits, 11/14, p.35
Metalworking managers' outlook for 1967, 12/5, p.53
Michigan University study: Steel forecast to 1980, other industries, 7/11, p.25
Short term outlook, midyear, 8/22, p.75
STEEL's Panel forecasts 1967, 10/10, p.68
War will wag economy in '67, 10/10, p.121

Business Equipment Manufacturers Assn.:
Industry report, 10/24, p.28

C

Canada:
Area Development Agency lures metalworkers, 11/21, p.30
Manufacturing output up, 12/19, p.25
Stelco holds out on patented chrome plating process from Tokyo, 7/11, p.33
Steelworkers veto settlement, **8/29, p.13**

Cans, Canmaking:
All aluminum seamless cans, surge in usage, 11/28, p.15
Chrome plating process (Stelco patent), 7/11, p.33
Glass container industry pressures can manufacturers, 12/19, p.23
Stainless Weirchrome for cans (steel strip coated electrolytically with metallic chromium), 9/5, p.23

Capacity:
BOF steelmaking capacity, U. S., rest of world, (Kaiser survey), 10/17, p.53

Capital Expenditures:
Capital spending forecasts (all industries), 12/12, p.125
Steel industry, 9/26, p.33

Carbide Tools: See Tools (Cutting)

Carbon Steel:
Tufftriding process upgrades steel (auto gear use), Kolene, 11/7, p.25

Case Institute of Technology:
Dr. McLeod: Myoelectronic-nerve impulses from operator's muscles run equipment, 7/18, p.33

Casting, Castings:
Continuous casting machines, McLouth expansion, 7/18, p.53
Continuous casting units in operation, 9/19, p.103
Continuous casting-rimming quality steels, 9/19, p.103
Continuous casting line with reduction process (direct steel rolling), 11/28, p.17
Continuous slab casting for Hutenwerke, 12/19, p.21
Centrifugal casting used in fabricating bimetallic cylinders, 8/8, p.25
Heat checked by thermocouple during casting, 11/21, p.30
Investment casting, how to make it pay off for you, 7/25, p.52
Investment casting industry studies capacity shortage, 7/25, p.17
Malleable casting method, penny plus machine time saved, 7/4, p.30
Mold forming (Mitsubishi) process, key is hard fluid chemical, 12/5, p.78
Oxygen enrichment cuts cast iron production costs, ups cupola output, joint tests (Linde with American Cast Iron Pipe), 10/31, p.64a*
Shaw process—permanent ceramic molds move toward production (connecting rods from one mold), 8/29, p.39
Shaw process for permanent molds lowers costs at Canadian firm, 10/24, p.64x*
Slip casting applied in manufacture of metal sheets from powder metals, Chrysler-Amplex Div., 9/12, p.53

Ceramics:
Fracture resistance improved by precipitation hardening with aluminum oxide, 8/29, p.19
Goal: Metal-like ceramics (NASA), 9/19, p.44
Why some ceramics are ductile, studies, 12/26, p.8

Chains:
Method spots cracks in chains, British patent, 12/5, p.25

Chemical Milling:
Rod defects removed with chem-milling, 12/5, p.25

Chemicals:
Aerosol packaged in two cans (piggyback), no hand mixing (applying insulation), 10/10, p.75
Key to mold forming process is a hardening chemical, improves fluidity, 12/5, p.78

Chicago:
Apprenticeship courses—steelworkers set up by Federal agencies, 8/29, p.13
Chicago area industry growth, 8/1, p.12
Chicago Transit Authority charges steelmaking firms with price fixing, 8/22, p.17

Chrome Plating:

Diesel shear crops 3 in. forging slugs, Colforg process dev. in Europe, 9/19, p.120h*
Flame cutter computer controlled, British shipbuilding firm, 10/24, p.29
HERF shears metals (auto brake shoe parts) without deforming edges, 11/28, p.54
Shear line handles 90,000 lb coils, 10/24, p.29
Shearing minus deformed edges, English firm, 9/12, p.25

Cutting Torches:
Acetylene gas, how to get more out of, Linde report, 7/11, p.31

D

Deburring:
Deburring time on herringbone gears cut from 3 or 4 hours to 27 minutes, automatic units, 10/24, p.64v*

Defense:
Agency (war planning) reorganized, Office of Defense Resources, 12/26, p.8
Defense procurement spending 1966, 10/24, p.23
Defense procurements, major categories, 11/7, p.19
Manned Orbiting Lab program, pad set for West Coast, 12/26, p.8
Mobilization Planning Committee (Air Conditioning Inst.) studies materials requirements, 12/26, p.11
More money for missiles forecast, Nike X and Poseidon, 11/28, p.15
Vietnam spending, budget, 10/3, p.11
Vietnam: Price goes up, 10/10, p.121

Defense Contracts:
Fabricators pinched by government contracts, 7/11, p.17
Military buys less hard goods, awards in '66, 11/7, p.19

Defense Services Adm.:
Metal usage for 1967, 10/17, p.13

Depreciation:
Reserve ratio test must be changed: Barlow, counsel for machine tool associations, 8/8, p.21

Desalination: See Water

Descaling:
NAD (no acid descaling) process for mill scale, 10/3, p.16
NAD process: Shotblast descaler eliminates pickling (carong steel sheet and strip), 10/10, p.72

Diecasting:
Acurad machines, GM technique, 7/4, p.53
Acurad process, GM and Reynolds Metals unveil, 8/8, p.19
Acurad diecasting, GM offers to industry royaltyfree, 8/15, p.34
Acurad process (GM), and development work on refractory dies for diecasting iron (GE), new developments, 10/3, p.46
Acurad process, GM report, 11/21, p.29
Acurad research lab formed by Reynolds Metals and Syracuse University Research, 9/12, p.24
Brass parts get pierced to the quick (combined diecast-forging tech.) Harrison process, patent rights assigned Imperial Eastman, 12/12, p.74
Brushed satin finishes (eight) are standardized and available to users, 10/3, p.46
Load bearing guide rails on unit repaired with special torch and welding alloy (Eutectic), 10/31, p.61
Molten metal usage to increase, 11/21, p.29
Plastics vs diecastings, cost comparisons, 11/21, p.29
Precision integral diecasting solves alignment problem (small gear and prism holder units), 9/5, p.37
Sophistication reshapes image of diecasting industry, latest developments, 10/3, p.44

Direct Reduction:
Reynolds forecasts direct reduction of aluminum, 10/3, p.17

Draft Deferment: See Manpower

Drawing:
See Forming, Bending (high pressure)

Drilling, Boring:
Air motor mounted on NC drill, ups spindle speeds, 9/26, p.19
Automatic EDM machine drills holes (microhole) in stainless steel mesh tubing for filter, 12/5, p.65
Cold drilling for titanium parts, freon freeze mist, TO, 7/18, p.36
NC for circuitry drilling, 9/12, p.21
Tungsten carbide shank speeds boring, 10/24, p.64m*

Drives, Controls:
Hydrostatic drives for industrial vehicles and machine tools coming, 9/19, p.35
Individual shaft mounted drive systems on conveyor roller, Kaiser Steel, 9/12, p.24

Durable Goods:
Inventories, 12/19, p.73

Dust Collectors & Filters:
Intalco Aluminum smelter, plastic scrubbers atop potlines, 9/5, p.42

E

Earnings: See Financial

Earthmoving Equipment:
Better equipment for roads coming, 11/21, p.61

Economy: See Business (Economy)

Eddy Current: See Inspection, Testing

Editorials:

No Panic Button! 11/7, p.17
Parity in Competition — National Goal, 12/26, p.5
Planning Means Survival, 7/4, p.7
Problems of Prosperity (complacency), 7/11, p.15
Stock for Workers, 12/12, p.17
The Manager's New Job, 10/17, p.9
Safety and Gadgets, 10/24, p.21
What About 1967? 8/22, p.13
World Beyond Wages (benefits), 7/18, p.31
Wrestling the Octopus, 12/19, p.19

Electric Power:
1980 fuel power: Nuclear plants, and coal, 10/10, p.25
Electric power via heartbeats, speaker, 11/28, p.18
Fuel cell powers Army truck, 11/7, p.23
Fuel cell proved out by Gemini, 12/5, p.25
Fuel cells in sizes up to 15 kw by '76, 10/10, p.27
New power sources focused on commercial, space needs (MHD, fuel cells, etc.), STEEL Feature, 9/12, p.39
Pump-turbine has rotating element, 50 ton runner, for electric plant, 9/19, p.41
Seawater as fuel cells (auto use probable), TO, 7/11, p.20
Utilities, emergency preparedness checked by FPC, 11/14, p.13

Electrical:
Ceramic semiconductors made superconducting, TO, 7/4, p.11
Magnetic material 'Supermendur C' cuts transformer size-weight, TO, 7/11, p.20
Plastic used in superconductors operating at cryogenic temp., 8/8, p.25
Superconducting materials search, 10/10, p.26

Electrical Discharge: See Machining

Electrochemical: See Machining

Electron Beams:
Electron beams (impact report) aimed at basic metal tasks: J. C. Sterling Jr., 7/18, p.79

Electronics:
Flexible printed circuitry goes commercial; how flexible circuits are made, 8/8, p.52
High frequency transistor better with ultrathin films, 11/7, p.23
Integrated circuits, market boom, 8/29, p.15
Integrated circuits for autos? 10/24, p. 167

Integrated circuits produced by new RCA process, 10/31, p.19
Integrated circuitry makes NC cheaper, more reliable: Cincinnati Milling's Acramatic 'IV, 8/15, p.36
Integrated circuits, what they are doing for numerical control (Cimtrol Div.), 12/12, p.58
Magnetic cores for computers, filaments dipped in varnish and powder, 11/28, p.17
Microcircuits, off-shelf sales, 10/3, p.13
Nerve impulses from operator's muscles run equipment, myoelectronic, 7/18, p.33
Printed circuit process cuts out pattern plating, C-T-H (copper-through-hole), 7/4, p.36c*

Electrophoretic:
Electrophoretic painting: Eight conversion coatings ready, 9/26, p.46
Porcelain enamel applying method, coming, 9/26, p.18

Electroplating, Plating:
Aluminum engine blocks repaired via plating, Naval Shipyard, 9/5, p.26
Black chrome plating, Diamond Alkali, Duramir BK, 12/5, p.58
Chrome plated on stainless for auto hubcaps with Econo-Chrome-S process, 9/19, p.120a*
Eight conversion coatings ready for electroplating, electrophoretic painting, 9/26, p.46
Plating baths revamped via air or hydraulic agitation, 8/1, p.17
Recovery of drag-out wastes conserve plating chemicals, saves dollars, 12/5, p.75

Employment, Unemployment:
4th quarter employment gain, Manpower survey, 10/17, p.11
Companies try new approaches in . . . the competition for new employees, 9/5, p.36
Jobs growing faster than people (industry employment figures), 9/19, p.199
Women workers in labor-short Youngstown, 8/22, p.19

Enamel: See Finishes, Coatings

Engineers, Technicians:
A way to beat the engineer shortage (Bucyrus-Erie), 11/14, p.40
Grads, percentage accepting employment, 12/26, p.8
Quality control engineers push for status, 8/15, p.31

Equipment Buyers:
3rd quarter: Buyers display caution, 11/28, p.87

Etching:
Easier etch for weld samples by citric acid and 24 volt dc power, 11/21, p.31

Europe:
EEC investments slow pace, 10/17, p.13
EEC growth prospects, 11/21, p.34
EEC wages outpace salaries, 9/12, p.28
ECSC seeks jobs for coalworkers, decline in mining, 8/8, p.24
Growth in GNP for OECD countries, outlook, 12/12, p.21

Executives: See Management

Exotic Metals:
Special jobs take special metals (tantalum and columbium, zirconium and hafnium), 10/10, p.81

Explosives:
Heavy vessel lined explosively, German tech., 10/24, p.31
Pressure vessels fabricated of explosion bonded clad metals, 9/19, p.120f*

Extraction:
Lasers extract coal chemicals, 12/12, p.25
Ore extraction process new, 12/12, p.24
Ore separation aided by superconduction magnets, 10/10, p.25
Solvent extraction separates copper-zinc without use of smelter, 12/19, p.27

Extrusion Forging: See Forging

F

Fabrication & Assembly:
Automatic assembly of typewriter cam levers, unit replaces springs: Problem solved by IBM and Gilman Eng., 12/5, p.83
Blind rivet assembly solves many fastening problems, 9/12, p.55
Datex policy seeks problems not met by conventional tools in milling and riveting (Giannini Controls), 12/26, p.22
Green assembly of power parts, cost cutting, 10/3, p.33
Pressure vessels fabricated of explosion bonded clad metals, 9/19, p.120f*
Reflow soldering system makes bonds on ultraminiature assemblies, 12/19, p.29
Soldering hastens auto radiator cap output for GM supplier, 8/1, p.57
Wires hold O-rings during assembly, 12/13, p.50

Farm Equipment:
Sales up, 9/12, p.24
Tractor of tomorrow, Allis-Chalmers models, 9/5, p.23

Fasteners, Fastening:
Blind rivets solve fastening problems, 9/12, p.55
How to apply fasteners safely: Graves (Russell, Burdsall), 8/8, p.61
Parker-Kalon process turns out 700 screws per minute, 9/19, p.37
Scrapless bolt forming unit saves on materials, 11/7, p.62a*

Fibers:
Fiber optic magnifiers, Corning Glass Wks., 8/29, p.19
Stainless fiber market, reinforced injection molded thermoplastics, Brunswick Corp., 10/10, p.26
Whiskers vs fibers, 10/17, p.19

Filaments:
Aircraft wings wound from glass filament, 7-18, p.98
Inorganic filament reinforced composites, NASA report, 9/26, p.21
Stainless filaments stir interest, 11/21, p.25
Tanks made via glass filament winding, 12/12, p.23

Financial:
Earning bracket, U. of Michigan survey, 9/12, p.19
Manufacturers earnings, 9/12, p.104
Metalworking sales, earnings; mid-year report, 8/8, p.101
Metalworking managers checked: Now's the time to improve 1967 profits, 11/14, p.35
Steel sales-earnings, 2nd quarter, 8/1, p.11
Steel earnings, midyear, 8/8, p.59
Steel earnings lag '65, 11/7, p.89

Financing:
Manufacturers' receivables up, 8/1, p.15

Finishes, Coatings, Paints:
Acrylic coatings protect zinc (ILZRO), 8/8, p.28
Acrylic enamel prevents defects in cold drawing refractory metals, 12/12, p.27
Black chrome makes its bid for plated parts, Diamond Alkali, 12/5, p.58
Bus bodies of galvanized steel 'hold' paint after processing in automated finishing line, 9/5, p.35
Ceramic coating (Zircolite), withstands 4,500 F, Air Force report, TO, 7/11, p.19
Chromate coating prevents white rust on steels, 8/22, p.23
Chromium carbide thin coats (jets) applied with plasma spray gun, 8/29, p.17
Coil coating, exotic finishes spark industry, 11/14, p.55
Electropainting, eight conversion coatings ready, 9/26, p.46
Gold film coatings protect from abrasives, 12/19, p.29
Paints can corrode metals (in closed storage room), TO, 7/11, p.20
Phosphate coating speeds drawing of steel wire and rods, 12/5, p.25
Rolled nickle coat brightens steel appeal (Inco and Electric Furnace dev.), 10/24, p.64r*
Titanium coating (anodized) resists galling, TO, 7/25, p.19
Zinc metallizing furniture frames, 8/22, p.35

Fire Extinguisher:
Ammonia added to compound, 8/8, p.25

Fluidics:
Fluidic device (miniaturized module) solves equations, Martin Div., 10/3, p.19
Lab pinpoints fluidics usefulness, 10/10, p.75

Foreign Aid:
Asian Development Bank planned, 8/22, p.20
Asia gets IDA loan, 9/29, p.26
Discount program initiated by Export-Import Bank (Eximbank), 8/29, p.16
IFC loans to Zambia, Philippines, 10/3, p.19
UN symposium proposed to aid underdeveloped nations, 11/7, p.23

Foreign Competition:
Foreign machine tool builders score U. S. sales gains (lead story), 7/18, p.43
Latin American toolbuilders give exporters competition, 10/24, p.64j*
Merchant iron producers seek halt to imports, 7/4, p.17
Steel import hearings: Views on problem, Roche (AISI) and Kurt Orban (AIIS), 10/3, p.37

Foreign Investments:
Financing for overseas, 'credit squeeze worldwide (NICB speaker), 11/28, p.15
International executives, (NICB survey), 9/12, p.23
International joint ventures, uptrend (NICB survey), 9/19, p.39
NBS symposium: Does technology affect international trade and investments? 11/7, p.24

Foreign Markets:
Austrian trade grows with Eastern Europe, 9/27, p.28
Bulgaria and Hungary eye U. S. machinery, 12/12, p.21
Europe's machine tool market shifts seen: NMTBA report, 11/7, p.49
Finland adds autobuilding to economy, 11/28, p.19
Iron Curtain imports of pig iron, 10/17, p.13
Latin American common market projected by Herrera (IADB), 9/19, p.37
Latin American toolbuilders give exporters competition, 10/24, p.64j*
New Zealand seeks investors, 12/12, p.23
Norway vies for aluminum market, 8/1, p.20
Russia's steelmaking reported by U. S. delegates, 12/12, p.57
South Africa new exporter of ferrochrome, 7/4, p.34
Spain, long run growth, 10/10, p.29
Venezuelan market for tools, forecast, 12/5, p.27

Foreign Trade:
Kennedy Trade Act could face changes, 7/11, p.28
Machine tool imports, source, products, 7/18, p.43
Machinery and equipment exports uptrend, 12/5, p.20
Steel imports-'67 may drop off, 12/19, p.21
Zinc imports up 100%, prediction of Strauss (AS&R), 10/10, p.30

Forging, Forgings:
Brass parts get pierced to the quick (Harrison process combines casting-forging techniques), 12/12, p.74
Die design and bar stock shape keys to forging (excess flash doesn't help), 11/14, p.17
Forging flash, new insights (ITT study), 10/17, p.16
Forging slugs sheared from bar stock up to 3 in. on dieset shear (Colforg process), 9/19, p.120h*
HERF (Petro-Forge press) shears edges without deforming, Lucas Ltd., auto brake shoe parts, 11/28, p.54
How to make HERF pay off, 11/14, p.58
Plastic extrusion forging (auto parts) tested at Ford, Oldsmobile, Celanese research center, 10/10, p.78
Trend in forging design is growth of part, 10/31, p.21

Forming, Bending:
Ausforming improves bearing rings, 10/17, p.16
Automated roll forming line, Granite City Steel, 11/14, p.49
Balls for bearings formed via continuous rolling, 8/29, p.19
Cold bender (Pines Eng.) cuts costs 83%, 10/31, p.57
Electroforming: Meltable alloy mandrels key to internal shaping, satellite launchers, 10/24, p.61s*
Electroshape high energy rate machine: Urethane pad broadens capability, 7/18, p.92
HERF (high energy forming), how to make it pay off, 11/14, p.58
Metal spinner forms parts up to 3 in. thick, 7/18, p.49
Scrapless bolt forming unit, 10% savings on materials, 11/7, p.62a*
SoniForm process, shock waves form metals, 8/22, p.21
Titanium hot forming, development of heated draw dies, Lockheed, 10/17, p.15
Titanium hot draw forming for SST parts reported by Lockheed, 12/5, p.57
Ultrasonic drawing process speeds steel tubing, 11/14, p.38

Foundries:
Cokeless cupola predicted, melting costs reduced, 11/28, p.17
Malleable iron foundries optimistic: Automatic equipment, boom from auto sales, 9/5, p.40
Nylon buckets carry wet sands, conveyors, 10/3, p.16
Nylon buckets, Midwest Foundry, 12/26, p.9
Ohio Steel Foundry (Jack Crouse): Agony of reconstruction, companies in transition, 11/28, p.47
Shipments, new records, TO, 7/25, p.19
Trends in industry cited by Joseph (consultant), 10/24, p.29

Fringe Benefits:
NICB survey, cost of fringes compared, 10/31, p.15

Fuel:
Acetylene compared to newer fuel gases: Linde report, 7/11, p.31
Antipollution gasoline formulas tested (lead exhaust), TO, 7/4, p.11
Computer - injector saves fuel, 10/31, p.23
Exhaust gases from steelmaking furnace proposed as fuel, improve furnace efficiency, TO, 7/11, p.20
Liquid methane gas transported in double walled aluminum tanks, Libya project, 9/12, p.25
Liquid methane to fuel planes, 9/26, p.22

Fuel Cells: See Electric Power

Furnaces, Ovens (Heating, Heat Treating):
Custom planned heat treat furnaces best (Flinn & Dreffein's Seaberg reports), 11/28, p.52
Gas carburizing furnaces add reliability to railroad roller bearings, 8/29, p.40
Induction unit heats and stirs molten metal, England, 10/31, p.23
Portable infrared oven for curing of foundry cores, 7/25, p.30

G

Gages:
Strain gage tests lead to 50% speedier flying shear, 8/16, p.57
Strain gages improved, English device, TO, 8/16, p.20

Galvanized Steel:
Galvanized sheets and coils tested for buses, 8/8, p.28
Prepaint cleaning tames galvanized (school buses), 9/5, p.35
Two growth markets for galvanized (service stations, bus bodies), 9/26, p.48

Gas Industry:
Estimated construction spending, 8/8, p.20

Gases: See Fuel

General Services Adm.:
Abersfeller: Clues to 1969 auto safety standards, 10/17, p.74
Auto standards, revised list for '68 models, 8/1, p.56
Stockpiled molybdenum for sale, 7/4, p.11

Germany:
Capital investments down, 11/21, p.34
Computers usage rises, 10/31, p.21
Economic forecast to 1980, 8/15, p.16
Imports hurt car sales, 12/5, p.27
Stock market decline, 7/18, p.47
Value added tax planned, 7/4, p.19

Glass Industry:
Glassmakers step up pace in materials competition (STEEL Feature), 7/11, p.45
Glass container industry pressures can manufacturers, 12/19, p.23
Glass press control, fluid logic, IE, 7/18, p.36
New way to make good optics, TO, 7/25, p.20

Goals for Industry:
Campbell: New goals for industry, air-water pollution, etc., 10/17, p.37 S-1

Government:
A look at 1967 by: McNamara, Paradiso, Martin, etc., 11/28, p.60 and by Ackley, Wallace, 10/17, p.55
Antidumping Act viewed by Orban (AIIS), 10/3, p.39
Antitrust: Iron ore (Hanna) firms sued by Wheeling, 9/26, p.15
CEA-Ackley against revision in guidelines, 8/15, p.11
COD seeks streamlined local government, 7/18, p.35
Computer usage by agencies urged by LBJ, TO, 7/11, p.19
Connor, Commerce Sec'y: Will tax suspension aid exports, 10/10, p.23
Customs Dept. may place inspectors inland, 11/14, p.16
Dumping definition wanted, 9/26, p.18
Energy research report, resources ample, 11/21, p.25
Hartke (Sen.) predicts wage, price controls, 11/28, p.16
Human Investment Act (tax incentives to train workers), Sen. Kuchel urges, 8/1, p.15
Kennedy Trade Act, changes predicted by Rep. Curtis, 7/11, p.28
Merchant marine lacks support in new Transportation Dept., 10/10, p.25
NLRB charged by Cleveland labor lawyer, 11/28, p.59
NLRB ruling on ISST, 10/10, p.23
Oceanographic Act signed, Udall comments, 7/4, p.18
Patent bill (McClennan's) ok'd by Senate, ownership retained by private industry, 8/29, p.16
Patent licensing, Justice Dept. plans use of Clayton Act, 11/14, p.11
R&D spending, closer controls urged, 11/28, p.16
Steel import hearings set, 8/15, p.11
Steel import hearings debated, Roche (AISI) and Kurt Orban (AIIS), 10/3, p.37
Steelmakers study legislation, 12/12, p.21
Technical data to USSR and Eastern Europe steps up, 12/5, p.21
Technological warning system (board) urged, concern is radioactive waste disposal, 11/14, p.19
Trade restrictions lifted, LBJ proposal (Red trade, Fiat auto plant, USSR) finance, 10/17, p.11
Transportation Dept. favored by Republicans, task force study under former Rep. Taft Jr., 7/18, p.47
Transportation Dept.: Boyd slated to head, 11/21, p.63
Transportation program, Boyd outlines plans, 11/28, p.16
War planning agency reorganized, 12/26, p.8
Water pollution, federal standards, 11/7, p.50
See also General Services Adm.

Government-Industry:
Warner & Swasey program to meet with state legislators: 'Sell' your business to government, 11/21, p.79

Graduates: See Colleges

Graphic Displays:
Graphic displays, help for middle managers (STEEL Feature), 10/10, p.63

Great Britain:
Autoworkers facing four day week, 10/10, p.30
Blind programmers - computers trained by English Electric Center, 7/25, p.27
Employers required to pay per capita tax on employees, 9/12, p.21
Harold Wilson implemented wage freeze, 9/5, p.22
Red China trade, 10/3, p.15
Trade Centre opened in Manhattan, 7/18, p.45

Grinding, Polishing:
Abrasive brush cleans, smooths stainless sheets and strip, 9/19, p.120g*
Turning grinding wheel 45° vs 90° to axis of material cuts metal loss (Tysaman report), 8/15, p.33
TwinGrip centerless grinders turn out piston pins, 9/12, p.52

H

Hardening: See Heat Treating

Heat Exchangers:
Braided tube bundles aids coils, 8/15, p.17
Teflon application, 8/22, p.23

Heat Treating & Annealing:
Additives speed annealing of wrought iron castings (Russian plant), 10/3, p.19
Aluminum strip 'floats' through heat treat furnace, 11/14, p.17
Bainite hardened (or austempered) product, Hardflex strip steel eliminates hardening operations making stamped and bent parts, 8/22, p.35
Custom planned furnace best for heat treating (Flinn & Dreffein report), 11/28, p.52
Gas carburizers add reliability to roller bearings, 8/29, p.40
Tufftriding process (Kolene) upgrades carbon steel for auto gears, 11/7, p.25

HERF: See Forging

High Strength Steel: See Steel Alloys

Highways:
Aluminum vs steel battles for market, 11/14, p.16
Coming: Bigger equipment for better roads, 11/21, p.61
Boyd (Transportation Dept.): Interstate highways planning, 11/21, p.63

Holemaking: See Drilling

Holography:
Frozen light waves are ready to serve industry (STEEL Feature), 8/1, p.27

Honeycombs:
Welded construction opens up potential of honeycombs (Stress-skin material), 8/22, p.43

Housing:
'Idea' houses built by Ryan Homes, steel components, 7/18, p.34

Ore Extraction:
New process, solvent extraction, Bureau of Mines, 12/12, p.23
Solvent extraction to separate copper and zinc from ores bypasses use of smelters, 12/19, p.27

P

Packaging, Containers:
Aerosol packaging, no hand mixing, 10/10, p.75
Plastic cargo containers loaded by helicopter studied, 8/8, p.23

Patents:
Kaiser oxygen steelmaking case, suits pending, 7/18, p.46
Kaiser appeals BOF ruling, 8/22, p.17
See also Government

Pelletizing:
Natural ores pelletized, preference for blast furnace feed, 10/10, p.25
Trend toward pelletizing iron ore at mine, 7/4, p.10

Photography:
Diagnostic camera goes industrial, Gastrocamera, Japan, 9/5, p.26
Holography (STEEL Feature), 8/1, p.27

Pickling Wastes: See Wastes

Piercing:
Brass parts get pierced to the quick (Harrison process), 12/12, p.74

Pig Iron:
Merchant iron producers seek halt to imports: Hanna Furnace (MacDonald) before Senate hearings, 7/4, p.17

Pipelines:
British study iron ore slurries pipeline, 12/12, p.21

Pipe Mills:
Iran orders two mills, 12/19, p.23
Stretch reduction methods makes pipe quicker, better at Republic's Youngstown plant, 8/29, p.44

Pipe, Tubing, Fittings:
Pipe slides of graphite, 8/15, p.17
Pipe warmed with heating strips, 7/18, p.90
Steel pipe (A-36) as structural members, 12/5, p.81
Welded pipe made faster on continuous stretch reduction mill, 8/29, p.44

Plastics:
Appliance usage (STEEL Feature), 7/25, p.47
Auto parts, plastic extrusion forging, 10/10, p.78
Auto plastic gas tanks for '68, blow molding machines ordered, 8/8, p.97
Computers, molded plastic covers, 8/1, p.16
Foamed plastics process gives rigidity, Union Carbide, 7/11, p.58
High frequency energy cures plastic parts, 8/15, p.16
Laminated material (Hyfil) improves jet engine, 7/25, p.20
Plastic scrubbers for Intalco Aluminum smelter, 9/5, p.42
Plastic tank for oil storage, 7/25, p.32
Plastic tooling takes heat to 350 F (Magno-Ceram dies), 7/11, p.50
Teflon ball bearing aids lubrication, 8/29, p.17
Teflon heat exchangers, 8/22, p.23
Thermoplastic dev. by B-W, good for golf club heads, serving dishes, 10/31, p.64b*

Plate Mill:
Bethlehem (Burns Harbor), new type plate quenching and tempering unit, 9/26, p.42
Thinner titanium plates produced by two firms, 12/5, p.23

Plating: See Electroplating, Plating

Pollution:
See Air Pollution
See Water Pollution

Porcelain Enamel:
Electrophoretic method of application coming, 9/26, p.18

Powder Metallurgy:
Amdry process permits atomizing in dry state, metal powders, 8/8, p.27
Amplex Div.-Chrysler: Slip casting applied to metal sheets made from powder metals, 9/12, p.53
Green assembly of powder parts cuts cost problems, 10/3, p.33
Maraging steel from powders, 10/31, p.23
Powder alloys offer high precision, Pittsburgh Plate Glass, 11/7, p.53
Tantalum particles pulverized to powder with Coldstream Impact Process, 10/10, p.81

Power Sources:
New power sources focused on commercial, space needs (Terrajet, mechanochemical engines, MHD, fuel cells), STEEL Feature, 9/12, p.39
Prof. Turkevich (Princeton): Science in 21st century, energy sources, 10/17, p.13

Power Tools:
Growing power tool markets, 11/7, p.23

Presses:
Transfer presses work double time: New England firm buys Waterbury Farrel press line, 10/31, p.50

Pressure Vessels:
Fabricated of explosion bonded clad metals, 9/19, p.120f*
Heavy metal vessel lines explosively with second material, German welding tech., 10/24, p.31

Price Fixing:
Chicago Transit Authority charge against steel firms, 8/22, p.17

Prices:
Copper prices up (Australia), 8/15, p.13
Inco raises primary nickel to help finance $100 million ore deposit, 11/7, p.19
Inland raises hot, cold rolled sheets, 8/8, p.19
Nickel boost above 7c seen, 9/26, p.39
Nonferrous price hike? Producers wary of government 'big stick,' 8/29, p.41
Steel hike just one of upward pressures: B&L Peterman, 8/22, p.15

Product Liability:
Product liability: Be prepared (safety practices), *Lawyers Desk Reference*, 12/12, p.53

Production Control:
Computerized production control helps put fabricator in black (Jacobsen Mfg.), 8/29, p.46
How much control do you need? E. F. Schloss, Cincinnati-Heald Div., 12/19, p.35 S-1
Korbert (speaker): Does your scheduling system need an overhaul? Use EDP, Critical ratio systems, 10/3, p.42
Lucas Machinery Div.: Less test piece machining and computer calculation in design, 10/31, p.48
Production control at small shop price: Radex's Production Sentry system used at Nelson Machinery, 11/7, p.55

Productivity:
Cost-of-living factor urged into wage guidelines, 8/22, p.17
Steel industry—study in productivity (charts), 10/17, p.45

Profit Sharing Plans:
Incentives potential in sharing plans, 8/1, p.13

Profits: See Financial

Psychology:
Barton criticizes psychological testing, 8/15, p.15
Emotional factors lead to accidents, 9/5, p.19

Pumps:
Electromagnet pump heats alkali metals up to 2000 F, Atomics International, potential market seen, 8/29, p.52

Purchase Analysis:
AMC program: Are you paying too much for purchased parts?, 9/12, p.50

Purchasing:
NAPA reports seasonal slowup, 7/4, p.19

Purchasing Agents:
Purchasing agents can boost payoff of standards system: Colby Kelly (Gen. Radio), 8/22, p.39

Purdue University:
Lab for Applied Industrial Control, 12/19, p.27

Q

Quality Assurance:
Mobile lab maintains multiplant quality, Grede Foundries, 8/29, p.52

Quality Control:
Quality control or 'snow job'? Critics question where management is getting (STEEL Feature), 8/15, p.29

Quenching:
Roller quench unit at Bethlehem's plate mill, 9/26, p.42

R

Radiation:
Food processing, machine uses cobalt, TO, 7/25, p.20
Spacecraft studies radiation, scanner data, 8/15, p.17

Railroads:
Aluminum sill for turbine passenger cars, Northeast Corridor's railroad line, 10/17, p.16
Continuously welded rails ¼ mile long, 10/3, p.16
EDP profitable for railroads forecast, 11/7, p.28
Freight car construction up, 8/8, p.23
Freight car demand grows, 12/12, p.90s*
Gas turbine rail car tested, 9/19, p.40
Germans to test 185 mph train, 10/3, p.19
Illinois Central plans improvements, 12/5, p.28
Jet propelled passenger car tested, Cleveland yards, NYC, 7/25, p.17
Laser identification of automatic car, 11/7, p.28
Mergers predicted, 7/4, p.10

Reactors: See Atomic Energy

Recovery Systems: See Wastes

Recruiting:
Companies try new approaches in the competition for new employees, 9/5, p.36

Refractories:
Advance in refractory brick for BOF linings (Harbison-Walker), 10/3, p.17
Zircon refractory blocks stronger via isostatic pressing, 11/14, p.17

Refractory Metals:
Acrylic enamel protects in cold drawing process, 12/12, p.27

Rensselaer Polytechnic Institute:
Electrochemical methods detect corrosion rates, 11/14, p.17

Research & Development:
1967 federal spending for R&D, 11/14, p.16
Honeywell's R&D computerized reporting (THESIS), 9/12, p.52

Retirement:
30% of autoworkers seek early retirement, 7/18, p.33
Executives, number who stay on in some capacity, 8/15, p.19
USW: No rush to early retirements in steel (pension lower than UAW), 7/25, p.25

Rivets: See Fasteners

Roads: See Highways

Robots:
Industrial robots take on varied production roles, 9/12, p.46

Rockets: See Space Materials & Developments

Rolling Mills:
Automatic roll forming line, Granite City Steel, 11/14, p.49
Bethlehem computer rolls hot sheets, Burns Harbor, 11/7, p.57
Point rolling gets trial on high strength sheets, Titanium Metals plant, 11/21, p.81

Rubber:
Elastalon (synthetic), rubber reinforced with glass fiber, 9/26, p.21
Thermoplastic rubber, paving material, 9/5, p.23

Russia:
How Soviet steelmaking facilities stack up, U. S. experts report study tour, 12/12, p.57
Soviets command pig iron market, 10/3, p.15
Statistical Board gives 1st half production report, 8/22, p.20
Steel exported to England, 12/12, p.21
Submersible research craft, steel hull, 8/22, p.21
Synthetic diamond production, 11/14, p.19

S

Salaries:
Aluminum Co.-Canada, switch from hourly pay to salaries, 8/1, p.12
EEC wages outpace salaries, 9/12, p.28
Executive salaries on entering job market, 7/11, p.28
Executive salaries, McKinsey report, 9/19, p.35
Management salaries—how they get out of line: Arch Patton (McKinsey), 11/21, p.74
Middle managers, promotion salary vs merit increase, 8/1, p.13

Sales Programs: See Marketing

Salesmen:
Basic Systems: Building sales skills via programmed learning (PSS), 9/19, p.110
Bonus and commissions emphasis; NIC survey, 11/28, p.13
Full line concept of selling, one salesman instead of several (Raytheon), 11/7, p.21
Sales compensation plans reviewed, 9/26, p.17

Scales, Weighing:
Nuclear scales used on Great Lakes freighter, 12/5, p.27

Scrap:
Auto fragmentizers built, 9/12, p.25
Auto scrap used in upgrading low grade taconite, 8/1, p.34
Auto scrap processed for BOF or electric furnace use, 8/29, p.16
Auto scrap processing firm to serve Eastern states (Prolerized Schiabo-Neu, New Jersey), 10/17, p.76
BOF scrap usage vs open hearth usage, 9/5, p.21
Bulk density emphasis questioned, 7/4, p.9
Copper from auto scrap removed in new technique, 7/18, p.33
Fragmentizer plant for Ford Cleveland foundry (Luria), 10/17, p.16
Fragmentizing plants for Stavola & Co. (Luria talks with GM and Chrysler), 10/17, p.17
GM buys Patros patent rights, auto scrap facility, 12/12, p.121
Shredders are reshaping the scrap industry, where located, 12/12, p.60

Screw Machine Products:
Pittsburgh firm installs crossroll mill, process cuts price of drawn quality stock, 12/12, p.19

Shearing: See Cutting, Shearing

Sheets & Strip:
AF looks to point rolling in high strength sheet metals, 11/21, p.81
Selector (sheet and strip directory), U. S. Steel, 7/11, p.54
Stainless strip produced using slip casting, from metal powders, Amplex lab, 9/12, p.53

Ships, Shipbuilding:
Anchor rocket, 8/1, p.17
Canadians build hydrofoil anti-submarine ship, 8/29, p.17
Navy program, fast cargo ships, bids prepared, 8/8, p.21
Sun Shipbuilding: Templates shrunk to one-hundredth workpiece size, automatic cutting equipment, 7/18, p.88
Trailer-truck carrying ship planned, 11/14, p.19

Shredders: See Scrap

Skilled Workers:
Companies try new approaches in —the competition for new employees, 9/5, p.36
Skilled workers: Pay differential still smarts, UAW-Fraser admits pressure to reopen labor contract; ISST-Dunnebeck recruiting, 7/4, p.14

UAW group form "$1 an hour now" committee, Detroit, 8/22, p.19
ISST loses round in drive for workers from UAW, 8/1, p.11
Women fill jobs, 11/14, p.15

Smelters, Refineries:
Direct reduction processes developed, 9/19, p.101
Intalco Aluminum smelter puts plastic scrubbers atop potlines, air pollution control, 9/5, p.42

Smoke & Smog: See Air Pollution

Society National Bank of Cleveland:
Long term auto outlook, 8/15, p.64

Soldering:
Reflow soldering system makes bonds on ultraminiature assemblies, 12/19, p.29
Solderer hastens auto radiator cap output for GM supplier, 8/1, p.57

Southwest Research Institute:
Fatigue damage in steel tubing, early warning with magnetic method, 10/17, p.15

Space Materials & Developments:
Adaptive control helps gigantic resistance welder through aerospace jobs, 8/29, p.35
Automatic docking of unmanned and manned capsules via detection of ions and electrons in capsule wake, 8/1, p.16
Computer tech.—Monte Carlo simulation—aid designers, NASA report, 11/21, p.31
Fluorine ignites space engines, 9/5, p.25
Helicopterlike re-entry vehicle, 8/29, p.17
Internal shapes of upper two parts of mode launcher formed on meltable mandrel, 10/24, p.64t*
Ion engine for superlong distances (Earth to Mars), cover pic, 9/12, p.39
Meteoroids hitting spaceship, how to stop, 10/31, p.60
Planet entry simulated, NASA, 8/1, p.17
Propellent system (Follac) for launching tiny rockets, 7/25, p.53
Radiation studied by spacecraft scanner data, 8/15, p.17
Rocket electrically propelled (Resistojet) built for NASA, 8/8, p.21
Rocket engine testing (Saturn), deflector manifolds (five story heat 'muffler'), 10/24, p.135
Satellite components built by foreign firms for TRW, 9/12, p.25
Stainless filaments viewed by AF cloning branch, 11/21, p.25
Water source of oxygen for experimental rocket, 8/1, p.19

Spinning:
Metal spinner forms parts up to 3 in. thick, 7/18, p.49

Stainless Steel:
Corrosion resistant stainless, Crucible process, 7/4, p.36a*
Direct reduction process, S. African firm, 9/19, p.43
Stainless strip produced using slip casting in Amplex Div. lab. from metal powders, 9/12, p.53

Standards:
Machine tool international standards, picture language for machines, 10/10, p.29
NBS symposium to forecast impact of technology on international trade and investment, 11/7, p.24
Purchasing agents can boost payoff of standards system, 8/22, p.39
Standards for ultrapure metals, 7/4, p.12
Water standards, federal, 11/7, p.50

Steel Alloys:
Alphatized steel for truck mufflers, 9/19, p.43
Alphatized steel threat to copper in small diameter tubing, 9/19, p.43
Armco patents new steel for structurals (SSS-100), 12/12, p.90k*
Ford tests superstrength steel for cold extrusion punch, 12/5, p.25
High strength steel (feature article): If it looks impossible, try high strength steel, 8/22, p.27 S-1
Maraging steels usage forecast, 7/18, p.96
Maraging steel from powder metallurgy, 10/31, p.23
New steel for fasteners (USS Q-Temp), 9/5, p.23

STEEL Features:
1967 profits, now's the time to improve (STEEL surveys metalworking managers), 11/14, p.35
Abel comes on strong, USWA, 8/8, p.47
Adaptive control helps guide welder through aerospace jobs at Boeing, 8/29, p.35
Boeing readies NC breakthrough, computers bypass tape, 12/26, p.17
Coming: Better equipment for better roads, 11/21, p.61
Companies in Transition:
1. Fansteel (Hayes): How to turn a company around, 11/7, p.45
2. Ohio Steel Foundry (Crouse): Agony of reconstruction, 11/28, p.47
Cost-Price squeeze tightens materials battle in major appliances, 7/25, p.47
Desalination: Where does metalworking fit in?, 9/5, p.29
Glassmakers step up pace in materials competition, 7/11, p.45
Graphic displays: Help for middle managers, 10/10, p.63
Green assembly of powder parts cuts cost problems, 10/3, p.33
New power sources focused on commercial, space needs, 9/12, p.39
Product liability: Be prepared, 12/12, p.53
Quality control or 'snow job'?, 8/15, p.29
Steelmaking: A turbulent technology, 9/19, p.99
What metalworking managers expect in 1967, 12/5, p.53

Steel Industry:
A forecast to 1980: University of Michigan, Business Research, survey (lead story), 7/11, p.25
1967 steel ingot production, 11/14, p.11
Earnings, sales, midyear report (28 firms), 8/8, p.59
Earnings, sales lag '65s, 11/7, p.89
Does the image match the facts? Profits, investment, progress, 9/26, p.33
Highways, steel usage, 11/21, p.62
Kaiser report, steel mill products used by seven Far West states, 7/11, p.29
Kaiser Engineers report: Basic oxygen steelmaking capacity, 10/17, p.53
Kaiser survey, 13-week vacation finds favor with steelworkers, 10/31, p.21
Steel import hearings, opposing views: Roche (AISI), Kurt Orban, 10/3, p.37
Productivity study (manhours, investment, employment costs, number of employees, profit per ton shipped), 10/17, p.45
Soviet steelmaking report, U. S. delegates tour facilities, 12/12, p.57
World surplus in steel capacity forecast into '70s, 11/28, p.19

Steelmaking:
AISI Exposition Special: Steelmaking, a turbulent technology, 9/19, p.99
A look at tomorrow's processes, Westinghouse speaker, 10/3, p.11
Acid recovery systems add compact turbulence reactor (Haveg regeneration system for spent pickle liquor), 10/24, p.136
Blast furnace "A" at Ford, fourth campaign starts on same carbon bottom, 9/19, p.120b*
Blast furnace, new technologies, 9/19, p.100
Blast furnace automated, Russian works, TO, 7/4, p.12
Blast furnace lining performance, reduction in porosity, 10/17, p.16
Carbon content check in 1 minute, BISRA, 11/21, p.30
Coke oven design (Koppers) impact in steelmaking, 9/19, p.41
Coke ovens grow up, 19 to 20 ft at Koppers (materials report), 12/19, p.46
Coke oven pusher shoes get hardsurfacing with cobalt-chromium-tungsten overlay at Bethlehem, 12/12, p.90h*
Coke oven recovery type may be on the way out: How coke conversion costs compare, 11/21, p.68
Coke wharf gates, automated system, 9/19, p.120b*
Direct reduction processes, 9/19, p.101
Ferrochromium produced from ore, South African plant, 7/4, p.34
Japan's capacity boosted by Fukuyama Iron works, 8 million tons by '69, 9/19, p.106
Ladle refining process, Swedish (ASEA-SKF), 12/5, p.24
Low grade taconite upgraded with auto scrap (work funded under Solid Waste Disposal Act), Bureau of Mines, 8/1, p.34
Noise monitor on steel converter tells when process is completed, Germany, 10/3, p.36
Open hearth furnace roof can be opened and closed in operation, Poland, 9/26, p.19
Oxygen (basic) steelmaking capacity in U. S., Kaiser Engineers' report, and in rest of world, 10/17, p.53
Oxygen (BOF) furnaces, gas by pipeline, 8/8, p.28
Oxygen (BOF) linings protected with dolomitic lime (DoloTect), 12/19, p.29
Oxygen converters control via acoustics, German report, 9/19, p.41
Roller quench produces superior plate (Bethlehem), 9/26, p.42
Scrap usage in BOF vs open hearth, 9/5, p.21
Spray steelmaking, British process, 10/24, p.25
Spray steelmaking, BISRA report, 12/5, p.24
Stretch reduction methods make pipe quicker, better at Republic's Youngstown plant, 8/29, p.44

Record shipments forecast, 10/24, p.27

Stockpiles: See BDSA

Storage Tanks:
Plastic tank for oil storage, 7/25, p.32

Stretch Reduction Mill: See Steelmaking

Structurals:
Armco patents new structural steel (SSS-100), 12/12, p.90k*
Beryllium aims at structurals field, 10/10, p.27
High strength steels (impact report), 8/22, p.27
Steel pipe (A-36) aids structural problems (farm implements), 12/5, p.81
Stresskin, all welded structural material, good for honeycomb sandwich panel, 8/22, p.43
Tubular steel for main supports of observation tower, 10/24, p.64p*

Suggestion Systems:
Blue collar workers cost cutting ideas, average bonus, 7/11, p.18

Sweden:
Economic outlook, 12/5, p.27

T

Taconite:
Low grade taconite upgraded with auto scrap, roasted in rotary kiln (Bureau of Mines plant), 8/1, p.34

Taxes:
Air and water pollution control equipment exempted from 7% tax credit suspension, 10/10, p.25
Interstate tax bill delayed, 9/19, p.37
Investment tax credit, 7%, suspension favored by:
Dr. Burns, ex-Eisenhower economist, 8/8, p.23
Government committees: Patton (Republic), 9/12, p.19
Industry groups, 9/19, p.35
Townsend (Chrysler), 9/26, p.15
Senate Finance Committee study suspension, 10/3, p.11
Railroads may be exempt, 10/17, p.11

Technology:
Does technology affect international trade? NBS symposium, 11/7, p.24
High school students study technology (Man-Made-World), 7/18, p.35
NATO sets technology exchange, 10/24, p.30
Planning tomorrow's cities, information systems for year 2000, 12/12, p.19
State agencies study spread of technology, conference, 11/7, p.24

Telephones:
Automatic, dial phone network (WIN), Westinghouse with Bell Systems, 8/22, p.37
Computer data on telephones, 1975 forecast, 11/14, p.15
Computer and telephone hookup (student and instructor do algebra homework), 8/22, p.37
Computer data sent over unused portion of phone line (Automatic Alternate Voice Data System), 10/3, p.17
Diamond Alkali black chrome finishes for phones, 12/5, p.58

Tin:
Users watch talks on world prices, 7/4, p.16

Titanium:
Annual consumption to rise, forecast, 12/5, p.23
Electrolytic titanium sponge plant planned, 7/18, p.53
'Hot' titanium alloy ready for jet engines, 7/4, p.16
Hot draw forming of SST parts reported by Lockheed, 12/5, p.57
Russia tests new titanium alloy for hot seamless tubing, 12/5, p.23
Thinner titanium plates forecast, p 23

Tool & Die Shops:
Detroit tool and die shops activity, 9/5, p.61
Tomorrow's tool and die shop (Hardman, NTDPMA), 7/4, p.9

Tools & Dies:

Wages:
Cleveland employers' average pay rates, 10/24, p.28
Fringe benefit payments compared, NICB survey, 10/31, p.15

Wastes:
Arnold Engineering's water treatment plant saves 180 million gallons yearly, 7/4, p.36a*
Inland's new hot strip mill, waste treatment facilities: Does pollution control pay off? 12/12, p.77
Pfaudler's recovery of drag-out plating wastes, evaporation systems for open and closed loop lines, 12/5, p.75
Pickle liquor (Haveg) regeneration system: A compact reactor for acid recovery systems, 10/24, p.136
Pickle liquor converted into salable by-products, Japanese firm, 7/25, p.28
Pickling wastes treated by turbulence reactor dev. in Germany, 10/3, p.17
Reclamation of sanitary disposal of refuse, 8/15, p.20
Reverse flow through filter traps waste water from rolling mills, 12/5, p.25

Water Desalination:
Desalination: Where does metalworking fit in? STEEL Feature, 9/5, p.29
Desalting processes (chart), 9/5, p.30
OSW awards saline water study grants, 9/12, p.24

Water Pollution:
Does pollution control pay off (Inland)? 12/12, p.77
Emerging battle over water standards (Federal government), Udall and Kirwan at hearings, 11/7, p.51
Federal funds for research on combating pollution, 8/29, p.15
Governors favor federal tax relief for industry control facilities, 7/4, p.11
Incentives for control, House study, 10/3, p.15
Interlake Steel: Nalco additive improves control of pollution (removal of solids), 7/18, p.51
Ohio River-Pittsburgh area steel mills cut pollution with recirculating systems, 7/4, p.20
Pollution control firm formed in N. J. (Degremont-Cottrell), 7/25, p.31
Pollution control yardstick needed for industry and local governments, speaker, 10/3, p.13
Radioactive waste disposal concern, government technological warning system urged, 11/14, p.19
State conferences, testimonies, 12/12, p.90q*
Water treatment plant saves 180 million gallons yearly, Arnold Engineering Co., 7/4, p.36a*
Waterways monitored by electronic sentinels, 10/17, p.15

Welding Industry:
7 important rules for welding success: Linnert (Armco) addresses ASM, 7/18, p.49
Ready (Kaiser Aluminum) looks at '75, 10/17, p.17
Special metal alloys key to tougher welds, 9/26, p.18

Welding (Arc):
CO_2 welding with carbon dioxide shielding, 11/28, p.18
Hot wire welding combines TIG quality, MIG speed, 10/17, p.13
Metal arcwelders pay off at Chrysler's Sterling Stamping plant, Detroit, 12/5, p.60
Pulse arc speeds barrel weld, 12/12, p.27

Welding (Electron Beam):
EB welder for auto transmission flywheels, 11/14, p.17
Hamilton Standard welder uses partial vacuum, 10/31, p.20
Lockheed tests out portable EB welder (for SST), 12/12, p.81
Portable electron beam gun for spacecraft in orbit, 9/26, p.19
Suppressor squelches arcing, NASA, 8/29, p.20

Welding (Explosives):
Heavy metal vessel lined explosively with second material, German tech., 10/24, p.31

Welding (Resistance):
Adaptive control helps guide resistance spotwelder through aerospace jobs, 8/29, p.35
Magnetic force resistance welder with NC control at IBM handles heat sensitive materials, 7/25, p.29
Resistance heating with edge forming combined to make gore sections from metal sheets, NASA, 9/19, p.117

Welding Torch:
Eutectic special torch and welding alloy cuts downtime on die-casting unit, 10/31, p.61

Wire:
Barbed wire trade regained by U. S., 8/1, p.16
Copper clad aluminum wire cuts costs, 12/5, p.67
Servo system control tension during wire drawing, England, 11/14, p.17
Wire temperature measured by radiometer, 9/19, p.120d*

Wire Mesh:
Electroshape forming machine, 7/18, p.92

Work Measurement:
AIM program based on MTM: Work measurement trims labor costs at Autonetics Div., 7/4, p.32

Zinc:
Consumption forecast, import threat, 11/28, p.15
Recovering zinc from auto diecastings, new method studied by Bureau of Mines, 11/28, p.17

COMPANY INDEX

A

AA Industries Inc.:
Integrated optical sine system, IE, 12/26, p.52

Abar Corp.:
Automatic vacuum/hydrogen furnace (cold wall type), IE, 8/1, p.71

Abbey Automation Systems Inc.:
Firepower rectifier design, IE, 10/31, p.97

Abex Corp.:
Solenoid operated valves, IE, 10/10, p.143

Abrax Instrument Corp.:
Motor aspirated instrument shows relative humidity, IE, 8/29, p.90

ACF Industries Inc.:
Develops boring tool for AEC contract, 7/18, p.51
Young: Valve industry can meet technological demands, 12/12, p.81

Acoustica Associates Inc.:
Cavitation intensity meter requires regulation of only one control, IE, 12/5, p.143
Ultrasonic cleaning console for large parts, IE, 8/22, p.92
Ultrasonic unit cleans large assemblies, IE, 11/7, p.107

Addressograph-Multigraph Co.:
Tool crib pushbutton control, 7/4, p.31
Transfer printer, punched card system, IE, 9/12, p.129

Adhesive Engineering Co.:
Epoxy tape adhesive, low volatile content, IE, 10/24, p.191

Adhesive Products Corp.:
Rubber system for molds, two-part, IE, 8/15, p.80

Aerojet-General Corp.:
Air motor on NC drill, 9/26, p.19
Five axis continuous path machine, 7/18, p.91
Fluorine ignites space engine, 9/5, p.25
Glass filament wound aircraft wings, 7/18, p.98

Aetna Bearing Co.:
Ball thrust bearings have spherical seats, IE, 8/29, p.91

Aget Mfg. Co.:
Afterfilter for plant air recirculation, IE, 10/3, p.87

Airborne Accessories Corp.:
Redesign, gear drive line, IE, 9/5, p.73 and 9/19, p.129

Airco Industrial Gases:
Eyes helium market, 8/8, p.24

Air Preheater Co.:
Nuclear engine readied for test, 9/12, p.27

Air Reduction Co. Inc.:
Machine head positioner, IE, 12/19, p.81
Welding equipment for Chrysler, 12/5, p.60
Welding packaging information for welding and cutting equipment, 9/26, p.38

Air-Vac Engineering Co. Inc.:
Vacuum source unit is air operated, IE, 9/19, p.216

Alcan Aluminum Corp.:
Coil loading at slitter, 10/24, p.64k*

Alco Products Inc.:
Diesels ordered by Korean railroad, 7/11, p.35

Alexander Paper Co.:
Mylar-paper sandwich guides flame cutting, IE, 8/29, p.91

Alexander-Tagg Industries Inc.:
Alphatized steel for truck mufflers, 9/19, p.43

Allegheny Ludlum Steel Corp.:
Blaw-Knox builds scrap charging machine, 10/24, p.182
Tube does well under pressure (stainless extrusion), 8/1, p.16

Allen Tool Corp.:
Stud driving unit electrically powered, IE, 9/19, p.231

Allied Chemical Corp.:
Aerosol packaging of foam urethane, comes in two cans (piggyback), 10/10, p.75
Willputte's automated system operates coke wharf gates, 9/19, p.120b*

Allied Research Products Inc.:
Water base coatings protect metal, IE, 12/26, p.54

Allis Co., Louis:
Building electric motor plant, Evansville, Ind., 7/25, p.31

Allis-Chalmers Mfg. Co.:
Lift trucks for yard jobs, IE, 10/3, p.84
Tractor of tomorrow models, 9/5, p.23

Alloy Metals Inc.:
Amdry, new powder metal process, 8/8, p.27

Almco-Queen Products Div.:
Spindle deburring unit, IE, 7/4, p.61

Alten Foundry & Machine Works Inc.:
Parallel shaft reducer, IE, 10/24, p.196

Aluminum Co. of America:
Aluminum alloy for architectural black (Anoclad A13), IE, 10/24, p.182
Computer system for message handling, 11/7, p.28
Earnings, 2nd quarter, 7/25, p.17
Extrusions get dark gray finish, IE, 8/1, p.70

American Aviation Inc.:
Atomics International Div.: Electromagnet pump heats alkali metals to 2000 F, potential market seen, 8/29, p.52

American Cast Iron Pipe Co.:
Oxygen enrichment cuts cast iron production, joint test with Linde, 10/31, p.64a*

American Induction Heating Corp.:
Automatic induction hardening unit, IE, 8/29, p.96
Electronically controlled induction line, IE, 11/21, p.156

American Machine & Foundry Co.:
Industrial robots for varied production roles, 9/12, p.46
Part dispensers, IE, 12/26, p.54

American Malleable Castings Co.:
Builds iron castings plant in Tenn., 11/28, p.20

American Metal Climax Inc.:
MacGregor predicts 1966 molybdenum consumption, 11/28, p.13

American Monorail Co.:
Overhead cranes for loads under 1 ton, IE, 7/11, p.93

American Motors Corp.:
1967 image changing style, 10/3, p.70
Adamson, Isbrandt: Management changes indicated, 10/3, p.69
Plans to offer full size car to compete with subcompact imports, 12/6, p.7
Purchase analysis approach to bids, 9/12, p.50
Ravido gets engineering top post, 10/31, p.17
Subcompacts considered (views Volkswagen success), 11/28, p.83

American Racing Equipment Co.:
Automatic chucks remove 6 lb of aluminum and magnesium chips on racing car wheels, 12/5, p.67

American Ship Building Co.:
Buying Cincinnati Sheet Metal, 12/12, p.28

American Smelting & Refining Co.:
Copper smelting-refining facilities to expand, 11/7, p.27

American Space Transport Co.:
Elastalon synthetic, rubber reinforced with glass fiber, 9/26, p.21

Ampex Corp.:
Media conversion system, IE 7/11, p.100

Amphenol Corp.:
Hysteresis-synchronous motor, IE, 10/10, p.136

Anocut Engineering Co.:
ECM equipment design resists corrosion, 7/4, p.37*

API Instruments Co.:
Radiation pyrometer effective 25 ft way, IE, 9/19, p.227

Aqua-Chem Inc.:
Awarded saline water grant, OSW, 9/12, p.24
Desalting facilities, 9/5, p.29

Arcos Corp.:
Backup tape seals underside of welds, 10/17, p.S-8

Aremco Products Inc.:
Acetone soluble adhesive, IE, 11/7, p.108
Ceramic coating, IE, 11/14, p.106

Armco Steel Corp.:
Burcham: Continuous casting needs improvements, 11/28, p.17
Chemical milling upgrades rods, 12/5, p.25
Linnert: 7 important rules for welding success, 7/18, p.49
Metallized pellets, pilot plant, 9/19, p.102
Patents steel with trebled strength (SSS-100), structural uses, 12/12, p.90k*
Stainless sheathing on pilings protect against sea water (good after 14 years of tests), 8/15, p.33
Temper mill starts, Middletown Wks., 8/15, p.37
Verity: Steelmakers study legislation, 12/12, p.21

Arnold Engineering Co.:
Supermendur C. new magnetic material, cuts transformer size, 7/11, p.20
Waste water treatment plant saves 180 million gallons yearly, 7/4, p.36a*

Aronson Machine Co. Inc.:
Welding positioner, ½ million lb, IE, 8/15, p.82

Arvin Industries Inc.:
Buys Roll Coater Inc., 12/12, p.28
Heat transfer tech. inspects spot-welds, IE, 10/24, p.192

Associated Electrical Industries Ltd.:
Induction unit heats and stirs molten metal, 10/31, p.23

Associated Engineering:
Computer-injector saves fuel, 10/31, p.23

Atlas Car & Mfg. Co.:
Electronic scale car handles ladle additives, IE, 11/21, p.150

Atlas-Warner Corp:
Precision integral diecasting solves alignment problem, 9/5, p.37

Atomics International Div.:
See American Aviation

Auburn Mfg. Co.:
Gaskets extra thin for close tolerances, IE, 11/28, p.94

Aulson Machinery Co.:
Plunge roll grinders, IE, 8/8, p.116

Autobot Co.:
Industrial robots take on varied production roles, 9/12, p.46

Automation Industries Inc.:
Merging with Flexible Tubing, 7/18, p.54
Sperry Products eddy current checks coat thickness, IE, 12/12, p.155
Sperry Products unit checks density of powdered metal parts, IE, 9/5, p.79
Ultrasonic-eddy current inspection, IE, 8/15, p.79

Autonetics Div.: See North American Aviation

Avco Corp.:
Resistojet, electrically propelled rocket, for NASA, 8/8, p.21

Avnet Inc.:
Permanent ceramic molds for Shaw process casts ferrous and nonferrous, 8/29, p.39

B

Babcock & Wilcox Co.:
Buys Century-Detroit, 12/19, p.30
Data system speeds tube production (hot piercing mill streamlined, Tubular Products Div.), 10/24, p.133
Spray mixes speed equipment insulation, 9/12, p.27

Badall Co. Inc.:
Steel wear plate easily fabricated, IE, 11/14, p.100

Baldrive Div.: See Barrett Hydrostatics

Baldwin-Lima-Hamilton Corp.:
Forging hammers shape railway axles, 9/26, p.39
Rotating element (50 ton runner) in pump-turbine, 9/19, p.41

Barden Corp.:
Bearing tester, SmoothRater, IE, 7/25, p.98

Barnes Engineering Co.:
Infrared cameras see inside metal cabinets, 11/21, p.31
R-4DI radiometer, 9/19, p.120d*
Radiometric microscope detects faulty solder connections, TO, 7/25, p.19

Barrett Hydrostatics Ltd.:
Motor weighing less than 1 ounce has mighty power, 8/29, p.52b*

Barry Wright Corp.:
Vibration mounts resist high impacts, oil (black elastomer), IE, 12/5, p.140

Basic Systems Inc.:
PSS training sharpens salesman's skills, via programmed learning, 9/19, p.110

Beardsley & Piper: See Pettibone Mulliken

Bechtel Corp.:
Scrubbers built by Ceilcote, 9/5, p.42

Beckett-Harcum Co.:
Press without conventional cylinders, IE, 10/17, p.94

Behr-Manning: See Norton Co.

Bell Telephone Systems:
Automatic dial communications, 25,000 phone system, (with Westinghouse), 8/22, p.37
Cost reduction enables Western Electric to slash prices of Bell products, 8/15, p.40
Manmade quartz for communications applications, 12/12, p.24
Yttrium iron garnet produced in single crystals, TO, 7/11, p.20

Bemco Inc.:
High-low temperature test chamber, IE, 7/4, p.65

Bendix Corp.:
Directapath: Magnetic tape runs low cost NC contouring, 10/10, p.70
Dynapath scope broadened, 9/5, p.22
Ford: How to get more mileage from customer oriented marketing, 7/11, p.52
Gage-comparator is portable, transistorized, IE, 9/26, p.80
Geometry checker, IE, 12/12, p.148
NC retrofitted to milling machine, IE, 10/31, p.97

Bendix-Balzers Vacuum Inc.:
Vacuum evaporator mass produces thin films, IE, 7/18, p.138

Benerson Corp.:
Carousel base handles machining, assembly, IE, 11/14, p.105

Beryllium Corp.:
Buys Summit Finishing, 7/18, p.54

Bethlehem Steel Corp.:
Agreement with Fuji Iron, use of tech. in making tinfree steel for cans, 10/17, p.17
Automated transfer conveyor lines handle coils, 11/14, p.51
Bickford: Sees slowdown in steel consumption, 11/7, p.19
Bomb scare hoax costly, TO, 7/25, p.18
Burns Harbor land fill o.k.'d, 9/5, p.22; public hearing ordered, 9/19, p.40
Burns Harbor Mill—computer rolls hot sheets, 11/7, p.57
Burns Harbor plate mill: Roller quench produces superior plate, 9/26, p.42
Coke oven shoes, surfaces protected by cobalt-chromium-tungsten overlay, 12/12, p.90h*
Limestone quarry opened, Pa., 12/12, p.28
Martin addresses Japan Iron & Steel Fed., 10/3, p.11
Pinhole detection for strip, 8/8, p.27
Thermocouple tests temperature of blast furnace iron during casting, 11/21, p.30
United Eng. to build new rolling mill, 8/8, p.28
Zinc coated sheet steel, weldable, paintable, IE, 9/19, p.212

Binary Systems Inc.:
Pay-as-you-go NC spurs company growth, 9/12, p.57

Binks Mfg. Co.:
Automatic paint finishing unit, IE, 12/26, p.53
Electromechanical memory ring, paint control system works with conveyor, IE, 11/21, p.148

Black & Decker Mfg. Co.:
Plastics vs diecastings for portable electric tools, McCarty report, 11/21, p.29

Blackstone Ultrasonics Inc.:
Ultrasonic cleaning uses heated solvents, IE, 7/11, p.97
Ultrasonic kit includes hand probe, IE, 11/21, p.156
Ultrasonics probe more jobs (listed), 10/31, p.54

Blast-All Co.:
Glass beads blast parts clean in booth, IE, 9/12, p.127

Blaw-Knox Co.:
Flame deflectors for NASA rocket engine test stands (five story 'heat "muffler"), 10/24, p.135
Inserts speed planing, 8/29, p.42
Scrap charging machine for Allegheny Ludlum, IE, 10/24, p.182

Bliss Co., E. W.:
Buys Barogenics, 7/11, p.35
Dedication of roll machining shop, Mackintosh-Hemphill, 11/21, p.25
Mill, edger for Universal Cyclops, IE, 11/7, p.100

Blue M Electric Co.:
Refrigerated test chambers, IE, 10/10, p.141

Boeing Co.:
Adaptive control helps guide gigantic resistance welder through aerospace jobs, 8/29, p.35
Blind rivet assembly for Boeing 707 jetliners, 9/12, p.55
Computers bypass tape as—Boeing readies NC break-through, 12/26, p.17
How to stop meteoroids hitting spaceship, tests for NASA, 10/31, p.60
New twist for mandrels, 1/25, p.25
Supersonic transport construction: Builds titanium processing facility, Seattle, 12/12, p.24

Boice Crane: See Wiltron Corp.

Booz, Allen & Hamilton Inc.:
Computers: A look at their record, 9/5, p.38

Borg-Warner Corp.:
Marbon Chemical: Plastic dev. good for golf club heads, serving dishes, 10/31, p.64b*

Braner Engineering Inc.:
Rod coil compacting press, IE, 8/8, p.114

Branford Vibrator Co.:
Separator sorts parts from abrasive media, IE, 8/22, p.93

Branson Equipment Co.:
Ultrasonic rotary cleaning systems, IE, 11/21, p.159

Branson Instruments Inc.:
Automatic Sonifier stand, IE, 7/11, p.101
Portable thickness gage checks corrosion, IE, 7/18, p.143

Brenco Inc.:
Gas carburizers add reliability in production of railroad roller bearings, 8/29, p.40

Brooks & Perkins Inc.:
Perkins Jr.: Annual consumption of titanium to rise, 12/5, p.23

Brown & Sharpe Mfg. Co.:
Adds to screw machine line, IE, 9/12, p.122

Brown Boveri Corp.:
Automatic induction heater for brass and ferrous slugs, IE, 12/5, p.144

Brunswick Corp.:
Market for stainless steel fiber will be in reinforced injection molded thermoplastics, 10/10, p.26
Stainless filaments productions, 11/21, p.25

Bucyrus-Erie Co.:
Advanced Products Engineering Div.: A way to beat the engineer shortage, 11/14, p.40

Budd Co.:
Dual transducer version of thickness gage, IE, 10/3, p.81
Nylon buckets carry wet sands in foundry conveyor, 10/3, p.16

Bunker-Ramo Corp.:
DuRant: Case for retrofitting, 12/12, p.27

Burgmaster Corp.:
Eight spindle machining center for large circular parts, IE, 10/31, p.102

Burroughs Corp.:
Multiprocessing computer, normal mode, IE, 7/4, p.60

C

Cadillac Associates:
Critical of psychological testing, 8/15, p.15

California-Doran Heat Treating Co.:
Heat treats new all welded structural material (Stresskin), 8/22, p.43

Carborundum Co.:
Builds electrodes plant, Hickman, Ky., 11/21, p.33
Buys Tem-pres Research, 7/11, p.36
Displays at Iron & Steel Show, IE, 9/19, p.222
Polishing unit rides crane rails, IE, 7/11, p.92

Carpenter Steel Co.:
Merges New England operation, 7/18, p.54
Stainless shows special corrosion resistance, IE, 7/11, p.102*

Casting Engineers:
How to make investment casting pay off for you, 7/25, p.52

Caterpillar Tractor Co.:
Heat treating furnaces designed by Flinn & Dreffein, 11/28, p.52
Roadbuilding loaders to aid highway program, 10/31, p.20

Ceco Corp.:
Aluminum color anodizing facilities, 9/12, p.25
Gustafson: Nonresidential building brisk, 12/19, p.23

Ceilcote Co.:
Builds plastic scrubbers for Bechtel, 9/5, p.42

Celanese Corp.:
Polyethylene and special tooling for plastic extrusion forging, 10/10, p.78

Cerro Corp.:
Moves City of Cerro de Pasco to expand Peru mine, 7/11, p.35
Plans copper mines in Chile and Peru, 12/19, p.30

Chambersburg Engineering Co.:
Forging presses for shop, mill maintenance, IE, 10/10, p.135

Channellock Inc.:
Martempering process ends quench distortion, 10/17, p.S-8

Chase Brass & Copper Co.:
Automated tube mill, Cleveland: When you need 3¾ mile lengths of tubing, Chase Brass is ready, 11/21, p.66

Chem Industrial Co.:
Aluminum paint protects under 1,700 F heat, IE, 10/3, p.80

Chemetron Corp.:
Wear-O-Matic electrodes; material hardsurfaces coke oven pusher shoes, (Bethlehem), 12/12, p.90h*

Chemineer Inc.:
Spade drilling and combined cuts on W&S turret lathe, 7/18, p.90

Chicago Bridge & Iron Co.:
Transfer system for BOF, 12/12, p.90k*

Chromalloy American Corp.:
Taps for machinable carbides, IE, 8/29, p.99

Chrysler Corp.:
1967 spending for new models, 9/5, p.17
1967 styling, materials changes next? 9/12, p.100
Amplex Div.: Slip casting in lab setup, metal sheets made from powder metals, 9/12, p.53
Anderson: Significance of sports cars in market, 12/5, p.21
Boyd: Auto sales in perspective, 7/25, p.80
Changes in management forecast, 10/31, p.24; 11/14, p.85
Changes in management: Townsend chairman, and Boyd president, 12/12, p.123
Crane cab tailored for ladle handling in foundry, 9/19, p.213
Cycleweld cleaner used on machines without shutdown, IE, 8/22, p.88
Engine block line, Mound Rd. facility, 7/11, p.78
Foundry (Huber Ave.) automated, elimination of downtime, 10/10, p.29
Foundry (Huber Ave.) instant replay tech. locates bugs in automatic transfer unit, 11/28, p.19
Metal arcwelders pay off at Sterling Stamping plant, 12/5, p.60
Mobile classrooms, maintenance course, 7/11, p.36
Supplier pact (with General Magnetic), 9/12, p.99
Townsend praises suppliers, 9/12, p.99

Cincinnati Lathe & Tool Co.:
Choosing the right man for NC programming maintenance, (Wright, co-ordinator of NC training), 7/25, p.54
Machining Center gets added horsepower, IE, 12/26, p.51
NC for job shop (Cintimatic), 11/14, p.47

Cincinnati Milling Machine Co.:
Computer signals ran a contour milling machine a mile away, 8/15, p.13
Gantry type, five axis profilers, NC, 12/12, p.143
NC cheaper, more reliable with integrated circuits (silicon wafers): Acramatic IV, 8/15, p.36
NC, what integrated circuits are doing, 12/12, p.58
Skin mill for aerospace jobs, IE, 8/15, p.79
TwinGrip centerless grinders turn out twice the number of piston pins, 9/12, p.52

Cincinnati Milling & Grinding Machines Inc.:
Cincinnati-Heald Div. (E. F. Schloss): How much control do you need? 12/19, p.35 S-1
Grinding wheel usable as it wears down, IE, 9/12, p.129

Cincinnati Shaper Co.:
Electroshape machine: Urethane pad broadens capability, 7/18, p.92

Clark Control Div.: See A.O. Smith

Clark Equipment Co.:
Buys Chicago Malleable Castings, 11/28, p.20
Hunter: Automated bin stackers on way, 10/17, p.15

Clausing:
Colchester 17 in. lathe, IE, 10/24, p.194

Cleaning Machine Div.: See Huffman-Wolfe

Cleereman Machine Tool Corp.:
12 station changer part of machining center, IE, 10/17, p.89

Cleveland Automatic Machine Co.:
Bar and chucking operations combined in Dialamatic, IE, 10/3, p.79
Diecasting unit automated, IE, 12/19, p.81

Australian iron ore project withdrawn due to tight money, 8/29, p.20

Cleveland Machine Controls Inc.:
Tachometer feedback for speed drives, IE, 11/7, p.109

Cleveland Process Corp.:
Infrared heater designed with quartz elements, IE, 10/17, p.95

Cleveland Worm & Gear: See Eaton Yale

College Research Corp.:
Machine reclaims metals from die-cast breakage, IE, 12/5, p.139

Colmonoy Corp.:
Manual control devices monitor gas flow, IE, 7/11, p.92

Color Corp. of America: See Valspar

Commander Mfg. Co.:
Drill head designed for small holes, centers, IE, 7/11, p.100

Commercial Shearing & Stamping Co.:
Fluid power pump, IE, 7-18, p.140

Commercial Tool & Die Co.:
Cutoff saw, IE, 7/4, p.65

Compensating Tension Controls Inc.:
Mechanical system controls unwind tension, IE, 8/29, p.101

Concast Inc.:
Reduction process added to continuous casting line turns out rolled steel directly, 11/28, p.17

Cone Automatic Machine Co.:
Machines 29 bores in half time as before, 9/26, p.38

Conforming Matrix Corp.:
Automatic turntable sprayer, IE, 12/5, p.145

Conoflow Corp.:
Valve minimizes maintenance, 11/21, p.71e

Consolidated Aluminum Corp.:
Adds fourth potline, 12/26, p.12

Continental Machine Co.:
Tube-pipe unloader automatic, IE, 10/24, p.194

Controls Co. of America:
Constructing electric motor and control systems plant, Fla., 9/19, p.40

Conversion Chemical Corp.:
Kenvert products strip anodized films, IE, 11/14, p.100

Copperweld Steel Co.:
Optical system of R-4DI radiometer focuses on moving wire, 9/19, p.120d*

Cosa Corp.:
Wet process for degreasing, IE, 9/12, p.123

Crane Co.:
Canned motor pumps for heat transfer job, IE, 11/21, p.155

Crane Packing Co.:
Centerless lapper takes parts 36 in. long, IE, 9/26, p.78
Defies NLRB ruling to give names of employees to UAW, 9/12, p.19

Cross Co.:
Transfermatics produce brake discs, IE, 9/5, p.75
Units process brake cylinders, IE, 8/8, p.121

Crucible Steel Co.:
Buerger Jr.: How to sell to 'swingers' (new age groups), 11/28, p.11
Expands magnet facilities (Alico and ceramic types produced), 7/11, p.31

Centrifugal casting key to fabricating bimetallic cylinders, 8/8, p.25

Industrial Science Corp.:
Cokeless cupola forecast, 11/28, p.17

Industrial Stainless Steel Inc.:
Metal certification speedup system, 11/14, p.52

Ingersoll-Rand Co.:
Builds automatic differential assembly line for Ford, 9/26, p.69

Inland Steel Co.:
Adds new basic oxygen steel shop, dismantles No. 1 open hearth shop, built in 1902, 8/1, p.12
BOF changeover, no jobs lost, 8/8, p.28
Pollution control, waste treatment facilities, at Indiana Harbor Wks.: Does pollution control pay off? 12/12, p.77
Price raise on hot, cold rolled sheets, 8/8, p.17
Transfer systems handle coils, reclaim scale, 11/14, p.51

Interlake Steel Corp.:
Strapping machine, four coils per minute without operator, IE, 10/24, p.181
Water clarifier, Nalco additive, 7/18, p.51

International Business Machines Corp.:
Automatic assembly of typewriter cam levers, problem solved by Gilman Eng., 12/5, p.83
CRT (cathode ray tube) unit, graphic displays (cover pic), 10/10
Computer used in cost estimating, San Jose plant, 9/12, p.48
Data storage system holds trillion bits, 11/14, p.15
Handwritten numbers fed into computer, 10/10, p.26
Magnetic cores for computers (candle dipping), 11/28, p.17
NC welder joins heat sensitive materials, 7/25, p.29
Phone access for data processing system and disc storage equipment, IE, 8/22, p.87
Telephone auxiliary hooked to central computer links managers, connects student and instructor, 8/22, p.37
Ultrathin magnetic films for computer memories, 9/26, p.21

International Harvester Co.:
Gear driven power take-off, 7/18, p.54
Ultrasonic tester with computer, billet quality control system, 11/14, p.52

International Minerals & Chemical Corp.:
Acquiring Lavino & Co., 7/18, p.53

International Nickel Co. Inc.:
Mining leases for Minnesota, 11/7, p.27
Predicts nonspace usage of maraging steels, 7/18, p.96
Rolled nickel coat brightens steel appeal (method dev. with Electric Furnace Co.), 10/24, p.64r*

International Nickel Co. of Canada Ltd.:
Price raise on primary nickel to cover costs and finance $100 million ore deposit, 11/7, p.19
Strike at Ontario mines and refinery halts shipments to U. S., 8/1, p.13
Wingate speaks on nickel pinch: Free World consumption chart, 12/19, p.21

International Telephone & Telegraph Corp.:
Computer data sent over unused portion of phone line, (AAVDS), 10/3, p.17

Interstate Drop Forge Co.:
Stone: How to make HERF pay off, 11/14, p.58

J

J&S Engineers Ltd.:
Jastac method for insertion skips punching, drilling, 7/18, p.96

J & S Tool Co. Inc.:
Grinding wheel dresser, IE, 11/28, p.97

Jacobsen Mfg. Co.:
Computerized production control, 8/29, p.46

Jeffrey Mfg. Co.:
Opens plant at Guadalajara, Mexico, 10/17, p.17

Jerpbak-Bayless Co.:
Gun drilling machine, 11/21, p.71

Jet Propulsion Laboratory:
Solid state battery dev. by three scientists, 10/10, p.27

Jones & Laughlin Steel Corp.:
Beeghly: Tax incentive is 'competitive necessity,' 8/8, p.23
BOF predictive control system, 9/19, p.100
Continuous casting, billet and bloom units, 7/25, p.19
Finishing in three steps (stainless grain pattern easily restores), 9/26, p.38
Installs 28 in. co'd rolling mill, Youngstown, 11/28, p.20
Steel pipe (A-36) cutting cost of tubular members of farm equipment, 12/5, p.81

Joy Mfg. Co.:
Twistair compressor design, IE, 10/24, p.201
Turbo Air compressor standardized, IE, 8/29, p.90

K

Kaiser Aluminum & Chemical Corp.:
Builds forge plant, Oxnard, Calif., 12/19, p.30
Cheaper way of processing heavy aluminum for aircraft plates, 9/26, p.22
Earnings, 2nd quarter, 7/25, p.17
Ready: Looks at 1975 welding industry, 10/17, p.17
Ready: Price increase on semifabricated aluminum needed, 12/5, p.21
Patent agreements on basic oxygen steelmaking process companies using without license, suits pending, 7/18, p.46
Patent ruling appealed, BOF process, 8/22, p.17

Kaiser Engineers Div.:
Basic oxygen steelmaking capacity in U. S. and in rest of world (annual survey), 10/17, p.53

Kaiser Jeep Corp.:
Buys Thompson Industries Ansted Div., 7/25, p.32

Kaiser Jeep International Corp.:
Caravan tours Eastern bloc countries, 7/18, p.45

Kaiser Steel Corp.:
Ashby: Looks at continuous casting ore pelletizing plant, TO, 7/25, p.18
Bituminous coal mine, N. Mex., 10/10, p.29
Files grievance with USWA following wildcat strike at Fontana, 12/26, p.7
Henry Kaiser: Keyman philosophy, 12/12, p.28
Individual roller drive system on conveyors, 9/12, p.24
Steelworkers surveyed on 13-week vacation, findings, 10/31, p.21
Western steel market report, mill products used by seven Far West states, 7/11, p.29

Kanthal Corp.:
More heat in less furnace space results from 'double W' element configuration, 9/5, p.25

Kast Metals Corp.:
Formed by merger, 10/31, p.24

Kaufman Mfg. Co.:
Lead screw tapper for middle sized parts, IE, 10/24, p.192

Kaufmann Tool & Engineering Corp.:
Urethane die forming cheaper with thin die pads, 12/5, p.67

Kearney & Trecker Corp.:
Air conditioning controls tolerances, 7/25, p.31
Herda: Check parts before NC machining, 9/19, p.41

Kelsey-Hayes Co.:
Plastic wheel cover, Automotive Div., 8/22, p.71

Kennametal Inc.:
Tungsten carbide shank speeds boring, 10/24, p.64m*

Keokuk Steel Casting Co.:
Merges to form Kast Metals Corp., 10/31, p.24

Kingsbury Machine Tool Corp.:
Automatic index machine has 85 in. dial, IE, 9/19, p.228

K-Line Corp.:
Integrated automatic cutoff system, IE, 12/5, p.137

Kocks Pittsburgh Corp.:
Reduction of steel billet in single pass, IE, 9/26, p.76

Koehring Co.:
Buys Hartmann Mfg., 7/18, p.54
HPM diecasting machines, IE, 11/28, p.92
Thew-Lorain Div., CO_2 welding, 11/28, p.18

Koiene Corp.:
Tufftriding process upgrades carbon steel (auto gears), 11/7, p.25

Koppers Co.:
Coke ovens grow up, 19 ft high (Materials Report), 12/19, p.46
Coke oven designs, production boost, 9/19, p.41
Powers predicts faster BOF output, 10/17, p.16

Koppy Tool Co.:
Coil joiner eliminates welding, 10/3, p.16

Korad Corp.:
Laser focus-viewer, IE, 8/8, p.114
Ruby laser adapts to higher power, IE, 10/10, p.145

L

L&L Mfg. Co.:
Infinite zone control switches on electric furnaces, IE, 9/19, p.214

Landis Machine Co.:
Collapsible tap economy model, IE, 7/25, p.97
Markets English EDM units, IE, 10/17, p.94

Lavino & Co., E. J.:
Selling to International Minerals, 7/18, p.53

Leal Co.:
Leal-Lok epoxy, aerosol packaging, no mixing, 10/10, p.75

Lear Siegler Inc.:
Auto Div. skilled workers veto UAW proposal (contractuals), 12/19, p.21
Auto Div. end strike, concessions to skilled workers, 12/26, p.7
Clutch-brake based on magnetic particles, IE, 10/24, p.196

Leeds & Northrup Co.:
Closed loop BOF systems, 10/10, p.76
Curve-follower controller (Trendtrak), 12/5, p.149
Quick Disconnects in thermocouple usage, IE, 7/11, p.98

Lees-Bradner Co.:
Hobber includes fluid powered cross feed, IE, 12/26, p.51

Leland-Gifford Co.:
Drilling machine moves to workpiece, IE, 12/19, p.80

Lima Electric Motor Co. Inc.:
Generators enclosed, fan cooled, IE, 10/10, p.139
Spindle converts planers to profiling, contouring, IE, 12/26, p.54

Lindberg Hevi-Duty: See Sola Basic

Lindberg Steel Treating Co.:
Builds furnaces, 8/22, p.24

Linde Div.:
Acetylene, how to get more out of, 7/11, p.31
Builds three more air separation units in Chicago area, 8/8, p.28
Hot wire welding combines TIG quality with MIG speed, 10/17, p.13
Oxygen enrichments, joint tests, 10/31, p.64a*
Remote inventory checking devices, TO, 7/4, p.12
Variety of materials used to match corrosion needs, wire cleaning line at Ashtabula; Tonawanda processes, 7/11, p.56

Ling-Temco-Vought Inc.:
Aircraft panels fabricated cheaper (joining methods), 8/22, p.21
Engine-in-wing plane for AF proposed (propulsive wing), 9/19, p.43

Link-Belt Co.:
Automatic unit cuts time on deburring herringbone gears, 10/24, p.64v*
Automated transfer systems for coil handling, 11/14, p.51
Ewart Foundry, continuous facilities installed, 9/5, p.40
Powder metallurgy tech. shaves sprocket costs, 9/19, p.117

Linmold Co.:
Portable infrared oven with quartz lamps cures foundry cores, 7/25, p.30

Litton Industries Inc.:
Hewitt-Robins: Computer designs conveyors, 10/3, p.16

Lockheed Aircraft Corp.:
Advanced air transport tests, 10/3, p.20
Automated infrared weld tester, 11/14, p.11
Heated draw dies for hot forming of titanium sheets, 10/17, p.15
Hot draw forming of titanium parts (SST), 12/5, p.57
Lubricants used in machining titanium, 8/8, p.28
Tests out portable EB welder, SST, 12/12, p.81

Lockheed-Georgia Co.:
Plastic tooling (Magno-Ceram dies) takes heat to 350 F, 7/11, p.50

Lockheed Propulsion Co.:
Propellent system (Foilac) for tiny rockets, 7/25, p.53
Shooting rockets from guns, 8/22, p.21

Loctite Corp.:
Offers trial kit of structural adhesives, IE, 8/1, p.65

Lodge & Shipley Co.:
Builds point rolling mill for high strength sheets, 11/21, p.81

Logan Co.:
Coil weigh station, IE, 10/10, p.142

Loma Machine Mfg. Co.:
Horizontal compacting mill makes thin gage strip, IE, 10/3, p.84

Loopco Industries Inc.:
Portable up and down enders prevent coil damage, IE, 10/3, p.89

Lorco Div.: See Wheelabrator

Lubrication Sciences Inc.:
Dicronite process bonds lubricative coating to metal, 9/19, p.41

Lucas (Industries) Ltd., Joseph:
HERF shears edges of metals without deforming, 11/28, p.54

Lucas Machinery: See New Britain Machine

Luria Bros. & Co. Inc.:
Fragmentizing plant for Ford Cleveland foundry, 10/17, p.16

M

3M Co.:
Adhesive assembly benefits, 8/29, p.43
Film adhesive cures at 250 F, 10/31, p.100
Poral, weather resistant laminate coated with fused porcelain enamel, IE, 12/6, p.52

M-H Standard Corp.:
Stor/Flo storage system, IE, 9/5, p.80

MAC Valves Inc.:
Neon indicator lights, new options, IE, 7/4, p.65

MacDermid Inc.:
Nickel stripping free from cyanide, IE, 9/26, p.81

Mack Trucks Inc.:
Diesel engine, constant hp, 10/24, p.25

Macrosonics Corp.:
Generator for study of high ultrasonics, IE, 10/3, p.86
Meter indicates cavitation index, IE, 9/19, p.227

Magnaflux Corp.:
Circuitry on power pack adjusts to loads, IE, 8/22, p.93
Eddy current tester pinpoints potential failure in carbon steel boiler and superheater tubes, 12/26, p.9

Magnetic Technology Inc.:
DC torque motors, frameless, IE, 9/12, p.127

Mahon Co., R. C.:
Buys Pressed Steel Tank, 12/26, p.12

Manatrol:
Calibrated control valve pressure compensated, IE, 7/18, p.142

Manpower Inc.:
Employment gain forecast, 10/17, p.11

Marposs Gauges Corp.:
Surface grinder gage, IE, 11/21, p.156

Marquette Cement Mfg. Co.:
Packing for pumps, cuts maintenance time, 8/29, p.42

Martin Co.:
Miniaturized module-fluidic device solves equations, Orlando, Fla., Div., 10/3, p.19

Massey-Ferguson Inc.:
Sets up Industrial Group, 7/25, p.31

Master Machine Tools Inc.:
Sexplex mill machines six surfaces simultaneously, IE, 7/4, p.64

Matthews & Co., Jas. H.:
Automatic roll marking and ejecting unit, IE, 12/26, p.54

McDowell-Wellman Engineering Co.:
Ironmaking plant to use D-LM process, 11/14, p.20

McKay Machine Co.:
Coil joiner eliminates welding (dev. by Koppy Tool), 10/3, p.16
Inverted roller leveler, IE, 8/29, p.89
May merge Wean Industries, 12/19, p.30

McKinsey & Co. Inc.:
Arch Patton: Management salaries, how they get out of line, 11/21, p.74
Executive compensation, metalworking by sales volume, 9/19, p.35
Firms penalizing middle managers (promotion and merit increase), 8/1, p.13

McLouth Steel Corp.:
Continuous casting machines included in expansion, 7/18, p.53

McWane Cast Iron Pipe Co.:
Ironmaking plant to use D-LM process, 11/14, p.20

Meadville Malleable Iron Co.:
Penny plus machine time saved on malleable casting method, 7/4, p.30

Meaker Co.:
Module-Matic, automatic plating, IE, 9/5, p.80

Melpar Inc.:
Buys William Blake & Co., 10/24, p.31

Mercantile Financial Corp.:
Manufacturers' receivables, 1st half, 8/1, p.15

Meriam Instrument Co.:
Magnetic digital pulse generator, IE, 9/19, p.217

Merit Products Inc.:
Abrasive brush cleans, smooths stainless sheet and strip, 9/19, p.120g*
Machine brush-grinds to fine finish, IE, 10/3, p.79

Mesta Machine Co.:
Gears cut with automatic shaper, 7/25, p.29
Mechanical shears, progressive cutting, IE, 10/24, p.201

Metal Forming & Finishing Machinery Inc.:
Part cleaner includes air agitation action, 9/12, p.130
Press brake, Hydro-Form eliminates tooling expenses, IE, 8/22, p.88

Metal Reclaiming Associates:
Recovers pure metal from foundry dross, IE, 8/22, p.90

Metallurgical International Inc.:
Coldstream impact process: Tantalum particles pulverized to capacitor grade power, 10/10, p.81

Metals Research Ltd.:
Epidiascope and image analyzer-computer, 9/12, p.27

Metco Inc.:
Two coat metallizing systems speed repair, 8/22, p.88
Goldwaite: ECM, EDM machining summary, 9/19, p.41

Michigan Special Machine Co.:
Transfer lines for automatic line, 9/26, p.37

Micromatic Hone: See Ex-Cell-O

Micro-Poise Engineering:
Balancing machine for grinding wheels, IE, 12/12, p.145

Microwave Instruments Co.:
Moisture gage microwave, IE, 11/28, p.95

Midas-International Corp.:
Buys Ken-Craft, 7/11, p.36

Midland-Ross Corp.:
Surface Combustion Div.: Power Convection circulation system for gas carburizing furnaces, 8/29, p.40

Midland Standard:
Parts counter, IE, 8/22, p.93

Midvale-Heppenstall Co.:
Forged sleeves, extrahard, 9/12, p.24

Miller-Stephenson Chemical Co. Inc.:
Cutting fluid packed in aerosol dispenser, IE, 9/5, p.79

Milletron Inc.:
Pyrometer, IE, 8/8, p.121

Millom Hematite Ore & Iron Co. Ltd.:
Spray steelmaking process, 10/24, p.25

Miniature Precision Bearings Inc.:
Lubricant coating bonded to metal, Dicronite process, 9/19, p.41

Mitsubishi Heavy Industries Inc.:
Hard fluid shaves mold forming costs, 12/5, p.78

Modern Constructors:
Cold bender (Pines Eng.) cuts costs, 10/31, p.57

Monarch Machine Tool Co.:
Edlund circuit board drills have new travels, IE, 8/22, p.93

Monsanto Co.:
Hydraulic fluid offers fire resistance for steel mill equipment, 10/24, p.64k*

Moore Associates:
Programmed controller — between computer and relay, 11/28, p.19

Moore Products Co.:
Analog-pneumatic control coupled to computer with Syncro control stations, 9/26, p.21

Motorola Communications & Electronics Inc.:
Range of two way FM radio increased, features, IE, 7/11, p.98

Muller-Munk Associates Inc., Peter:
Sees fewer autos per capita by '77, 11/14, p.15

Multi-Amp Corp.:
Synthesizer tests three phase voltage relays, IE, 7/11, p.96

Murray-Way Corp.:
Polishing system, IE, 10/24, p.184

N

Nalco Chemical Co.:
Additive (Nalcolyte 673) improves control of pollution at Interlake, 7/18, p.51

National Broach & Machine Co.:
Burnishing removes gear nicks, IE, 11/21, p.150

National Cash Register Co.:
Measuring machine-optical comparator cuts layout in half, 9/19, p.117

National Electric Welding Machines Co.:
Valve welder detects rejects, monitoring units, IE, 8/22, p.88

National Forge Co.:
Computer tracks parts, predicts bottlenecks, 10/24, p.64n*

Granite plate gages shafts, 12/26, p.12

National Machinery Co.:
Builds scrapless bolt forming machine for Ferry Screw, 11/7, p.62a*

National Research Corp.:
Rapid fire leak tester, 9/5, p.26

National Steel Corp.:
Breakwater and dock construction, Indiana plant, 8/15, p.20
Stainless Weirchrome for cans (steel strip coated electrolytically with metallic chromium), 9/5, p.23
Weirton gets basic oxygen vessel from Austria, via St. Lawrence, Cleveland port, 8/8, p.21

Nelson Machinery Co.:
Production control at small shop: Radex's Production Sentry, 11/7, p.55

New Britain Machine Co.:

Precision Dimensions Inc.:
Lathe has SCR drive, IE, 12/12, p.153

Precision Scientific Co.:
Wet sheet grinder makes metallographic samples, IE, 9/5, p.76

Precision Welder & Flexopress Inc.:
Automatic assembly machine for auto brakes, IE, 8/29, p.90
Builds magnetic force resistance welder, NC control, for IBM, 7/25, p.30
Flexopress design deeper crown, IE, 12/12, p.152
Palletron automatic assembly system, IE, 11/7, p.99

Proler Steel Corp.:
Jointly owned scrap processing plant, 7/11, p.36

Q

Quality Casting Systems:
Auto-pour method for diecasting units, IE, 10/31, p.103

R

Racine & Vickers-Armstrongs Inc.:
Axial piston pumps, power control, IE, 11/28, p.93

Radex Inc.:
Production control system (Production Sentry) dev. and used at small shop price, 11/7, p.55

Radio Corp. of America:
Integrated circuits made on silicon wafer via diffusion teeh., 10/31, p.19
Marketing-sales predicted by mathematical model, 11/7, p.28
Solid-state injection laser announced, 12/26, p.8

Railway Automated Machinery Co.:
Continuously welded rails in ¼ mile lengths, 10/3, p.16

Ralmike's Tool-A-Rama:
Hand drill feed reduces breakage, IE, 9/12, p.126

Ralmike Co.:
Magnetic sheet separators, IE, 7/11, p.93

Rampe Mfg. Co.:
Automated washer - dryer for plated parts, IE, 9/26, p.78
Magnetic separating unit for vibratory finishing shops, IE, 10/24, p.195

Ransome Co.:
Continuous feed pipe lathe, IE, 12/12, p.145

Raycon Corp.:
Microhole drilling with EDM nears production, 12/5, p.65

Raymond Corp.:
Narrow aisle fork lift, improvements, IE, 10/10, p.138

Raytek Inc.:
Raynger Trouble Shooter, measures heat via infrared radiation, IE, 11/28, p.94

Raytheon Co.:
Crowley describes infrared check of microwelds, 12/12, p.25
Full line concept of selling, cuts field sales staff, 11/7, p.21
Wafers cleaned ultrasonically, 12/12, p.27

Read Corp.:
Turners pick up, position freight cars for welds, IE, 8/15, p.80

Reed Inc., John W.:
C-frame bench press features, IE, 12/5, p.141

Reliance Electric & Engineering Co.:
Gear reducer accepts C-Face motors, IE, 8/8, p.114
Radar technique measures in millionths, IE, 12/12, p.150
Remote controls fit Reeves VST drives, IE, 10/3, p.82

Reliance Steel & Aluminum Co.:
Time slashed in cutting steel plates, 8/1, p.17

REM Sales Inc.:
Guards on automatic cold header, IE, 9/5, p.73
Lathe, dual purpose, has 9 in. swing, IE, 9/19, p.213

Remex Electronics:
Display-printers, IE, 8/8, p.118

Remington Arms Co. Inc.:
Hacksaw blade cuts most anything, TO, 7/25, p.20

Ren Plastics Inc.:
Repair pastes for tooling, IE, 9/5, p.73

Republic Steel Corp.:
Adds plate mill, Gadsden, Ala., 10/17, p.17
Billet furnace completed, Massillon, O., 9/19, p.40
Continuous hot strip rolling mill added, Cleveland plant, 8/22, p.17
Continuous stretch reduction mill for welded pipe, Youngstown plant, 8/29, p.44

Research-Cottrell:
Forms water pollution firm in N. J. with French firm, 7/25, p.31

Revere Copper & Brass Inc.:
Pickling lines for copper and brass alloys, 9/19, p.40

Reynolds Metals Co.:
Acurad diecasting research lab, 9/12, p.24
Adds potlines, Reg. and Wash., 8/22, p.24
Aluminum strip 'floats' through heat treat furnace, McCook plant, 11/14, p.17
Cable plant for Longview, Wash., facility, 11/14, p.20
Patented for method of extruding finned tubing, 12/26, p.11
Reynolds Jr.: Role of direct reduction of aluminum forecast, 10/3, p.17

Rheem Electronics: See Ex-Cell-O

Richards Shear Co.:
Iron Shark 1140, scrap metal shear, IE, 12/5, p.149

Richardson Co.:
Buys Allied Research, 7/18, p.54

Ritter Pfaudler Corp.:
Buys Barnstead Steel & Sterilizer, 7/25, p.32
Pfaudler Div. recovery system of drag-out plating wastes, 12/5, p.75

Robbins Seat Belt Co., Jim:
Union harassment forces move to South, 7/11, p.18

Roberts Co., C. A.:
Portable cutoff saw works wet or dry, IE, 9/19, p.223

Roberts Corp., C. B.:
Hydraulic feed on hacksaws, IE, 11/21, p.152

Robotron Corp.:
Induction heating package case hardens parts, IE, 11/14, p.108
RF electronic induction heater has personnel safety, 9/12, p.124
Welding control makes own heat adjustments, IE, 7/4, p.63

Rockwell Mfg. Co.:
Plans for pneumatic power tool plant, S. C., 12/12, p.28

Rogers & Oling Inc.:
NC opens doors for job shop (Cintimatic), 11/14, p.47

Rohr Corp.:
Shock waves form metals, Soni-Form process, 8/22, p.21

Russell, Burdsall & Ward Bolt & Nut Co.:
Graves: How to apply fasteners safely, 8/8, p.61

Ryerson & Son Inc., Joseph T.:
Automatic banding line (slit coil), 9/26, p.39
PSS (Professional Selling Skills), programmed learning course for salesmen, 9/19, p.110

S

SKF Industries Inc.:
Synthetic lube predicted for bearings, 9/12, p.23

St. Regis Paper Co.:
Kraft bag packaging tip, 8/29, p.42

Sandia Corp.:
Better way to metallize ceramics, 11/21, p.30

Sandvik Special Metals Corp.:
Builds zirconium alloy tube mfg. plant, 10/10, p.29

Sandvik Steel Inc.:
Hardflex strip steel eliminates costly hardening operations, 8/22, p.35

Schlatter Inc., H. A.:
Seamwelder for bicycle rims, IE, 7/18, p.142
Seamwelder joins coils in strip mill, IE, 8/15, p.87

Sciaky Bros. Co.:
Tubewelder stops reactor leakage, 11/21, p.31

Scientific Data Systems:
Keyboard display unit for sigma computers, IE, 12/12, p.150
Small computer for big jobs, Sigma 2, 8/1, p.19

Scotscraft Inc.:
Recovery of drag-out plating wastes, closed loop system (zinc cyanide line), 12/5, p.75

Scovill Mfg. Co.:
Schrader air control valves show low profile styling, IE, 7/25, p.98
Ultrasonic hardness tester (mandrel for tube forming) holds costs in check, 9/19, p.120*

Selas Corp. of America:
Rotary kiln used in upgrading taconite, 8/1, p.34
Water heater avoids mineral problems, IE, 9/12, p.129

Seneca Steel Service Inc.:
Stacker cranes: Getting the most from material handling, 11/21, p.73

Setco Industries Inc.:
Grinders sharpen slab mill cutters, IE, 7/18, p.145
Spindles combine low speed, high torque, IE, 8/1, p.70

Shallway Corp.:
Survey: Recovery type coke ovens may be on way out, 11/21, p.68

Sharon Steel Corp.:
Whitecollar workers reject USW, 7/11, p.19

Sheffield Corp.:
Gage checks thickness without 'wringing', IE, 8/8, p.114
X-ray thickness gage, IE, 9/19, p.218

Shipley Co.:
Printed circuit process (C-T-H), 7/4, p.37c*

Signode Corp.:
Combined power strapping, friction welding unit, IE, 10/31, p.96

Sikorsky Aircraft Div.:
Giant titanium rotor hub for helicopter, 9/26, p.21

Silent Hoist & Crane Co.:
Manipulator mill truck, IE, 10/17, p.92

Sipl Metals Corp.:
X-ray spectrometer speeds production, 12/12, p.25

Smith Corp., A. O.:
Clark Control limit switches, IE, 7/18, p.136
Computer helps to clinch sales, 9/12, p.44

Snyder Corp.:
Hydraulic machining units, floor space requirements, IE, 7/4, p.62
Two brake steps in one automatic grinding cycle, IE, 8/22, p.90

Sola Basic Industries:
Lindberg laminar air flow booth, IE, 10/10, p.145
Lindberg pumping system access two furnace features, 8/15, p.82

Sonicor Instrument Corp.:
Ultrasonic cleaners, automatic tuning feature, IE, 11/14, p.109

Soss Mfg. Co.:
How to reduce risk of financial failure in mergers, acquisitions, formula reported by Marko (president), 12/26, p.20

Southern Cross Steel Co. Pty. Ltd.:
Builds stainless plant in S. Africa, 8/1, p.15
S. African firm: Reduction of stainless, 9/19, p.43

Southwestern Industries Inc.:
Ultramill forms pieces 1.5 in. square from drawings, IE, 11/14, p.110

Southworth Machine Co.:
Fork truck attachment positions heavy dies, IE, 10/24, p.186

Space Research Corp.:
Machine drills, mills, stakes, and assembles, IE, 9/19, p.225

Spacerays Inc.:
Buying Applied Lasers, 7/18, p.54
Laser metal removal aids dynamic balancing - rotating components, 7/25, p.28

Specialloud (Canada) Ltd.:
Shaw casting of permanent molds lowers costs, 10/24, p.64x*

Specialty Products Co.:
Plastic mold release agent, Fluorocarbon, IE, 11/7, p.110

Spee-Flo Co.:
Airless spray pump, IE, 7/11, p.103

Speedline Jig Grinder Co.:
Contour, internal grinding unit, IE, 9/26, p.77

Sperry Products: See Automation Industries

Sperry Rand Corp.:
Univac spans markets—computers, punch card equipment, 7/4, p.61
Univac magnetoptic mass memory computer (MOMM), data read out via laser light, 10/31, p.19
Univac's new fluid amplifier element, many tasks, IE, 8/22, p.94

Spincraft Inc.:
Metal spinner forms parts up to 3 in. thick, 7/18, p.49

Spo Inc.:
Rap Squeeze machine provides speed, quality molds, IE, 7/11, p.103

Stahl Specialty Co.:
Permanent ceramic mold casts nonferrous, 8/29, p.39

Standard Conveyor Co.:
V-belt driven live roller curves, IE, 7/18, p.137

Standard Oil Co.:
Aluminum plates going into liquefied gas project in Libya, 9/12, p.25

Standard Pressed Steel Co.:
Consolidates Cleveland Cap Screw, others, into Industrial Fastener Div., 11/7, p.27

StarCut Sales Inc.:
Diecaster has speed, quality, IE, 12/5, p.138
Gun reamer finishes cored holes, IE, 11/14, p.105

Star Cutter Co.:
Feed rates established by change gears, IE, 7/25, p.93
Machine for heavy duty gun drilling, IE, 8/29, p.91
Shuttle table for gun drill, IE, 7/4, p.62

Stauffer Chemical Co.:
Greaselike silicones protect, damp, insulate, IE, 8/15, p.80

Steel King Co.:
Service station panels of prefinished galvanized steel, 9/26, p.48

Stiker Industrial Supply Corp.:
BOF hood panels interchangeable, IE, 9/19, p.221

Storycraft Inc.:
Tape recorder for Westinghouse salesmen's use, 7/25, p.58

Straus-Artys Corp.:
Automatic ring forming, cutoff machine, IE, 8/8, p.116

Stromberg-Carlson Corp.:
Computer data converted into readable form, IE, 11/21, p.147

Sun Shipbuilding & Dry Dock Co.:
Automatic cutting equipment (Monopol machine) translates lines on glass photonegative into movements of cutting heads; shrinks templates, 7/18, p.88

Sunbeam Equipment Corp.:
Controlled atmosphere furnace, IE, 12/12, p.143
Furnace designed for copper brazing, IE, 7/25, p.94

Superior Coach Corp.:
Galvanized steel bus bodies, prepaint cleaning tames galvanized, 9/5, p.35

Surface Combustion: See Midland-Ross

Code: *—*Metalworking Edition only*; †—*Metalproducing Edition only*; IE—*Industrial Equipment*

Swanson-Erie Corp.:
Quick change features on automatic assembly unit, IE, 10/3, p.82

Swiss Precision Instruments:
Glide position table, IE, 10/10, p.145

Sylvania Electric Products Inc.:
Sheingold: Information systems by year 2000, planning tomorrow's cities, 12/12, p.19
TV training system, voice and handwriting transmitter, 8/1, p.20

Systems Engineering Laboratories Inc.:
Glass reed switch encased in epoxy, IE, 9/5, p.77

T

20th Century Sales Corp.:
Beyer Pressure Bore design set for trepanning, gun drilling, pressure boring, IE, 8/1, p.64

TRW Inc.:
Acquiring United Transformer, 7/11, p.36
Auto. snooze alarm, 8/22, p.72
Satellite assembly, foreign firms build components, 9/12, p.25
Stored beam interferometry used for observation, 8/1, p.30

Taco Inc.:
Die-Tector, protection for punch press dies, IE, 10/3, p.86

Tanner Plating Co.:
Microfinish for chrome plating, 8/22, p.23

Tapmatic Corp.:
Tapping attachment, ¼ inch capacity, IE, 9/5, p.80

Taylor Machine Works:
Lift truck 'Yardsters', IE, 7/11, p.91
Yardster lift truck, 45,000 lb capacity, IE, 12/26, p.52
Truck for sheet, structural steel loads, IE, 8/1, p.66

Technical Processes Inc.:
Friction saw powered by 18 hp, IE, 12/19, p.81
